

Stockton & Co

THE OLD WHITE CORNER

THE DEPENDABLE STORE

Let us reflect. Did you ever hear of a store that was always telling what they do do, or what they don't do? We have. When you hear of a store of this kind, just watch 'em, and you will invariably discover that what they say they do, and what they say they don't do—they do.

We endeavor to make our store a dependable store. "Our chickens never come home to roost." We do as we advertise; no one is ever disappointed who comes to us for an honest deal. When we offer a premium we don't ask you to pay for it. Do others?

RUNS ON WHAT HE ISN'T

Mr. Fletcher's Circular Tells Why He Should Be Elected

A very interesting and animated school election is on this afternoon, in which H. C. Epley and H. C. Fletcher are the opposing candidates. Mr. Fletcher is a Democrat and Mr. Epley a Republican, but no politics is involved in the matter. Mr. Fletcher's petition has been out for about a month, and his friends have been actively at work in his behalf for many weeks. He has served on the board for the past five years, and is a candidate to succeed himself. Mr. Epley's name has only been mentioned for the past week, and he is very popular, as is shown by the fact that hosts of his friends have gone to work with a will for his election.

The polls are open in the seven wards from 2 to 6 o'clock this evening, and as The Journal goes to press the voting is going on at a lively rate. Circulars, setting forth the interests of the two candidates are in circulation, and no personalities are being indulged in, except in the opening paragraph of Mr. Fletcher's circular, which asserts that his friends are supporting him "because he is not E. Hofer's candidate." This is very true. He is not E. Hofer's candidate. Mr. Hofer has no candidate, but if here he would probably vote for Mr. Epley, as the latter is in favor of a high school, and the former is not. Mr. Hofer is out of the city, and it is amusing to his friends to read this charge. This may defeat Mr. Epley, but his friends are not particularly alarmed.

Learning By Experience

An investment last winter and spring of \$75 in advertising space in two agricultural publications put \$2,400 in a farm boy's pocket. He advertised seed corn. It was the first publicity purchasing he ever did, and naturally he went about it in that diffident, incredulous manner which is of considerable assistance to the "new man" in killing trade. Still he made money and, what is more important when philosophically considered, learned to appreciate the value of printers' ink.—Agricultural Advertising.

If there are any doubting Thomases among our merchants, they should advertise in this paper. It reaches the buyers in town and the adjacent territory.
