### PIRATES GIVE UP VESSEL

#### Battleship Potempkin Sur- rendered to Roumanian Authorities Today

Kustenji, Roumania, July 8.—The  
outspoken battleship Potempkin arrived  
here at midnight, and the port captain  
boarded the vessel for a conference  
with the crew. Throughout the night  
the Potempkin exchanged signals with  
the Russian gunboat Pseuspe, which so  
far has remained loyal to the govern-  
ment.  
A deputation from the battleship  
rowed ashore this morning to treat  
with the authorities here for the sur-  
render of the battleship and the tor-  
pedo boat which accompanied her on  
her piratical trip. The deputation was  
received by the general commanding  
the district, the commander of the  
Black Sea division and the port cap-  
tain. The mutineers offered to sur-  
render on the same terms offered by the  
Roumanian authorities Monday. This  
was agreed to providing the breech  
blocks of the guns should be removed  
as a pledge of good faith on the part  
of the mutineers. The deputation re-  
turned to the vessel to consult with  
their comrades. It is expected the  
Potempkin will surrender within a few  
hours. The sailors who came ashore  
with the deputation deserted.

Kustenji, July 8.—The Potempkin sur-  
rendered to the authorities at 1 o'clock  
this afternoon.

Kustenji, July 8.—The local authori-  
ties are awaiting instructions from  
Bucharest before making final terms  
with the mutineers. Preparations are  
being made to bring the two vessels in-  
to the harbor. Both are now flying the  
Russian flag. The greatest excitement  
prevails here as the people sympathize  
with the mutineers, and may make a  
demonstration in their favor.

The troops were informed that they  
would be treated as foreign deserters  
in case they surrendered. The surren-  
dered men have been landed, and are  
being dispatched in small parties to  
different places in Roumania.

Kustenji, July 8.—The surrendered  
mutineers will be gradually conveyed to  
any frontier they may select, and will  
then be liberated, local officials having  
given a pledge to this effect.

#### After Insurance Companies.

New York, July 8.—Under the direc-  
tion of the state department of insur-  
ance three examiners are investigating  
the Mutual Life Insurance Company.  
It is stated that the examination will  
be most thorough, and a large clerical  
force will be employed. The investiga-  
tion arises from dissensions with re-  
gard to the status of the insurance  
companies, following the disclosures in  
the Equitable.

### QUAKER CITY SCANDAL

#### Society Leaders Caught in Questionable Resorts in Jail

Philadelphia, July 8.—Terrific pres-  
sure is being brought to bear upon the  
magistrates who committed the women  
taken in the great raid Saturday night  
to force them to destroy their returns  
of the grand jury. Similar pressure  
is being exerted upon the district at-  
torney's office, of which John C. Bell, a  
member of one of the first Philadelphia  
families, and moving in foremost club  
and social circles, is the head.

In the meantime, down at Moyam-  
ensing prison, entered under assumed  
names, are certainly a dozen and per-  
haps more of women whose faces are  
familiar in the gatherings of society  
and whose birth is of the best. Some  
are there because efforts to secure  
bail secretly for them have failed;  
others are prisoners because their ef-  
forts, seeking safety for themselves,  
have abandoned them, and crushed and  
terror-stricken they prefer disappear-  
ance and imprisonment to the disgrace  
of attending appeal to relatives or  
friends.

Before the raid of Saturday night,  
Director Potter, at the orders of Mayor  
Weaver, instructed the magistrates  
that all women caught in the raid be  
held in jail—there were to be no fines  
except for men, and that any woman  
caught in an evil resort was to be re-  
garded as an inmate. This order of  
Potter's was carried out literally by  
the magistrates.

Members of the best families in  
Philadelphia, women who are appar-  
ently beyond the breath of suspicion,  
were caught in the high-class resorts.  
Every one of these women must go in  
the criminal dock and be arraigned as  
an inmate of a resort unless the magis-  
trates who committed them conveni-  
ently forget to return their cases to  
the grand jury or the district at-  
torney pigeon-holes their cases.

There is a report that one of the wo-  
men caught in the raid and now in  
Moyamensing had gashed her face ter-  
ribly with a nail and had been taken,  
fearfully disfigured, to the prison hos-  
pital.

#### Jewish Chautauqua.

Atlantic City, N. J., July 8.—The  
annual summer assembly of the Jew-  
ish Chautauqua society opens here to-  
morrow and many prominent Jews  
from various parts of the country, in-  
cluding rabbis and noted educators,  
are here to take part in the proceed-  
ings. The sessions will be held in the  
assembly hall of the Royal Palace hot-  
el.

### BRITT TO MEET NELSON

#### But Has to Turn Down an Offer for Thirty Thou- sand Dollars

San Francisco, July 8.—Jimmie  
Britt, replying to the offer of a \$20,-  
000 purse, with \$10,000 added for pic-  
ture privileges, for a 50-round fight  
with Nelson, declared this morning that  
he is tied up with the Western Athletic  
Club, which signed Britt and Nelson  
for a fight in July, but for which it  
failed to secure a permit. The Western  
Club declares it will bring Nelson and  
Britt together next month.

#### Lou Dillon's Fast Mile.

Cleveland, O., July 8.—C. K. Bil-  
lings drove Lou Dillon in 1:58 1/2, the  
fastest mile of the year in a work-out  
on the Glenville track this morning.  
Billings thinks Lou will lower the  
world's record this year.

### "SOCKLESS" CARRIE, LAWSON

#### And Now the Wonder Is What Freak Kansas Will Dig Up Next

Forest Park, Ottawa, Kan., July 8.—  
Thomas W. Lawson arrived in a special  
car at noon, and was greeted by the  
reception committees representing the  
Chautauqua and Ottawa Business  
Men's Association. It is estimated  
that 15,000 people crowded within the  
huge auditorium to hear the Boston  
financier. A large delegation of oil  
men were present to listen to the ad-  
dress. Lawson was enthusiastically re-  
ceived.

Lawson said, in part: "Two fac-  
tions are inevitable in every robbery,  
the robber and the robbed. Al rob-  
bers become honest men or convicts,  
when the other party in the affair re-  
fuses to participate. In the early days  
of our nation there were robbers, but  
the victims did not rest meekly under

### BROKE INTO JAIL

#### Masked Men Shoot Prisoners but Fail to Kill Them

Ironton, Mo., July 8.—Masked men  
early this morning overpowered Sheriff  
Marshall, forced their way into the cor-  
ridor of the county jail and shot Wm.  
and Arthur Spough, who are held for  
the murder of Sheriff Polk several  
years ago, but neither of the prisoners  
are fatally wounded.

### AFTER MURDERERS ISLAND

#### Japanese Squadron Makes Attack on Sakhalin

St. Petersburg, July 8.—Advices re-  
ceived today state that July 6th a Jap-  
anese squadron of 15 vessels attacked  
Sakhalin island, and attempted to  
land a force, but the land batteries re-  
pulsed the invaders. The government  
building and several guns were de-  
stroyed by the fire of the fleet. The  
Japanese retired to the north.

#### Olmstead Appointed.

Washington, July 8.—Victor H.  
Olmstead has been appointed associate  
statistician of the department of agri-  
culture, to succeed Edwin S. Holmes,  
discharged.

### ROCK ISLAND BUYS

#### Gets Po-session of Rotam Coal Fields and 1,700,- 000 Acres of Land

Las Vegas, N. M., July 8.—The  
Mitchell Land Grant Co., of Holland,  
which owns 1,700,000 acres of Northern  
New Mexico lands, today conveyed it  
to the Rock Island Railroad Co., for a  
consideration of \$4,000,000. It con-  
tains the Raton coal fields of 800 square  
miles, the largest coal body in the  
world. The Rock Island line will be ex-  
tended at once 120 miles, from some  
point on the Colorado & Southern to  
Taos, and pushed on to San Francisco.

#### Japanese J. F. Morgan.

Oyster Bay, July 8.—Baron Kanako,  
the Japanese financial expert, who will  
probably dictate the terms of peace to  
Russia, as far as indemnity is con-  
cerned, spent the night at Sagamore  
Hill, and left this morning for New  
York. He admitted he had discussed  
the Eastern troubles, but would give  
no details.

#### Japs Are Coming.

Yokohama, July 8.—The Minnesota  
sailed at 4:30 this afternoon. The gov-  
ernor and civic bodies escorted the Ko-  
mura party to the pier, where they were  
received by a military guard. Marquis  
Ito and several members of the cabinet  
accompanied Komura aboard. As the  
vessel sailed the Japanese guardship  
fired a salute of 19 guns.

on \$54.75 has been made possible by  
the establishment of a restaurant open-  
ed today on Broadway. According to  
figures furnished by the philantropists  
back of the scheme more than  
2000 persons were fed today in the es-  
tablishment, each paying 5 cents a  
meal. The menu was as follows: Bar-  
ley soup, roast beef, tea and bread.

Wealthy East Siders are backing the  
scheme. Among these are several eat-  
ing houses and restaurant proprietors,  
who are convinced that the scheme  
can be made to pay for itself by care-  
fully buying in large quantities and  
holding down the expenses to the low-  
est possible point.

An enormous crowd gathered outside  
the place for hours today waiting turns  
to be waited upon. The rush was great-  
er than had been expected. It was  
demonstrated that the man who gath-  
ers 15 cents each day is certain of  
three good meals and need fear nothing  
from the pangs of hunger.

#### One More Graft.

Washington, July 8.—Secretary of  
Agriculture Wilson this morning for-  
mally dismissed Edwin F. Holmes, as-  
sociate statistician from the govern-  
ment employ. He is charged with fal-  
sifying cotton reports for speculative  
purposes. The report made by secret  
service men shows Holmes on one oc-  
casion received \$73,000 from a firm of  
brokers presumably for advance infor-  
mation, although the transaction was  
disguised as a payment for mining stock  
which, it is alleged, was worthless.  
There will be no prosecution, as there  
is no statute to cover the case.

#### Discoverer of the Homestake.

Helena, Mont., July 8.—Mose Manuel  
a wealthy Helena mining man, and  
discoverer of the famous Homestake  
mine in Deadwood, South Dakota, was  
killed in the Minnesota mine at Corbin,  
by the explosion of a gasoline engine.

their wrongs. The system of today is  
bolder, fiercer, more grasping than that  
of our ancestors drove across the  
ocean in '76. It has possessed itself of  
the resources of our rich country and  
levies tribute on our coal, iron, meat,  
bread and clothes. It has a tax on  
every motion and function of our  
lives."

Lawson explained the workings of  
the "system." He said the big finan-  
ciers grew more insolent every day,  
flaunting their riches and their superi-  
ority before the law in the face of the  
people.

"If we find a Rockefeller possessed  
of a billion, we shall first investigate  
how he obtained so much money. If he  
gained it legally he must never be mo-  
lested in its ownership, for it would be  
dastardly if the American people took  
from any one that which they them-  
selves have given, for that is what ob-  
taining property really amounts to in  
America, but the ownership of so large  
a sum is proof positive it was not ob-  
tained legally, therefore, we should dis-  
cover exactly by what methods of  
squeezing fleehing and plundering it  
was got together. Then take him and  
his half billion back over the route of  
his raid compelling him to drop booty  
at each twist of the road." Referring to  
the vast fortunes made by the "sys-  
tem," Lawson said: "You will ask  
what will become of my own fortune? I  
answer it will have to go with the  
rest, for my fortune, like all others  
made from the public through the me-  
"

As a remedy municipal owner-  
ship is a mere will-o'-the-wisp, and  
financiers liked nothing better. He ad-  
vocated the "system's" own method,  
and said the first step is to sell every  
share of stock, and ever bound back to  
the frenzied financiers at the present  
inflated prices, and invest the money in  
government, state or municipal bonds.  
This would cut the foundation and the  
collapse of the "system" would be in-  
evitable.

Glum of stocks, corporations and trusts,  
should go back to where it came  
from."

At hand when clothes "made to order" will be in the same category and ancient class as shoes, hats, shirts and gloves. Would you think of having those articles made to order now? Of course, it is quite out of the question. So it will be with clothes some day.  
The careful attention by the most expert tailors in the factories to every detail in the manufacture of "modern clothing" produces a garment that is hardly equalled by the best individual tailors, who charge double the price asked for ready-made clothing. The factory product is the result of the combined efforts of hundreds of skilled experts working with highly perfected machinery. The clothing we offer you embodies all the desirable features in style, workmanship and choice selections of fabrics at prices 20 to 30 per cent lower than regular stores ask for the same quality.
