

WRIGHT JURY HUNG

After Being Out All Night, Fail to Agree, and Are Dismissed

After being out all night, the jury in the Wright case finally announced this morning, at 11 o'clock, that they could not agree, and were therefore dismissed. The case will not come on for trial again before the October term of court, as the witnesses in the case are now all scattered.

That some of the jurors were convinced of his guilt there is no doubt, since no verdict of acquittal was brought in. It is not known, however, on what point they disagreed. It is possible that they all thought him guilty, but could not agree as to the degree of guilt.

As stated in yesterday's Journal, a large portion of the testimony covered the same ground as that introduced at the trial of Charles Monte, who was jointly indicted with Wright. In an attempt to prove the whereabouts of the defendant at the time of the murder of Guard Frank Ferrell, of the Oregon penitentiary, by Convicts Tracy and Merrill, contradictory evidence was introduced, and no effort was made by either the prosecution or defense to establish the unreliability of the other's witness. Alvin Jones, of this city, testified positively that Harry Wright was in Salem June 8, 1902, while A. Hara was equally positive that the defendant was in his employ at Georgetown, Wash., on the same date.

One of the new witnesses in this case was Mrs. Alvin Jones, of this city, who testified that when Wright was released from the penitentiary in May, 1902, he visited at her home on several different occasions, and during one of his visits made the remark that there would be a hot time at the penitentiary on June 8th. She said he saw a gun in her home, and wanted to take it with him.

Her husband was the next witness called, and he swore positively that he saw Harry Wright in this city on June 8, 1902, the day before the outbreak. He testified that he saw him at three different times during the day, but did not converse with him. He said he was positive in the matter, as he had been looking for Wright, intending to prosecute him for writing an improper let-

ter to his intended wife, now Mrs. Jones.

A. Hara, of Georgetown, Washington, was the star witness for the defense, as he corroborated Wright's testimony in regard to his being in Washington from June 3 to June 16, 1902.

J. T. Lacy, of Portland, upon whom the defense relied to impeach the testimony of Capt. Riley, was worse mixed on cross-examination yesterday than he was the day before in the Monte trial. It is not thought that his testimony had much weight with the jury. William Bents, Harvey Hartman and Fred Nendel, three jurors in the Monte trial, were called to contradict the testimony given by Witness Lacy, but most of the questions propounded to these witnesses by District Attorney McNary were objected to by the attorneys for the defense, and the objections were sustained by the court.

The arguments before the jury showed special efforts both on the part of the prosecution and the defense, and particularly those of Hon. P. H. D'Arcy and Deputy District Attorney C. L. McNary, who closed the argument for the defense and state, respectively, were exhaustive and covered every particle of the testimony introduced. The instructions given to the jury by Judge Burnett were along the same lines as those given in the Monte trial and covered the verdict of murder in the first and second degrees and manslaughter.

FIEND KILLS .ELEVEN

Hondurans Have no Capital Punishment but Will Torture Him

New Orleans, July 12.—A shocking story of murder, with robbery as the motive, was brought to this city today by Captain Hans Holm, of the Norwegian fruiter Brattan, which plies between New Orleans and Honduras ports. It was confirmed by the officers of the fruit steamer Rosina, which came in later in the evening with additional details. The little island of Uvilla, lying off the Honduran coast, and whose population is an indiscriminate mixture of whites, Caymanites and Caribs, was the scene of the tragedy, in which twelve lives were sacrificed.

The captain of the schooner Olympia was about to make a trip to Ruatan, Truxillo and Belize. She had about 1400 soles and was to buy cattle at Truxillo to sell at Belize. She carried a crew of four and quite a number of passengers, making a total list of people on board thirteen. Among these were two women and two children. The vessel left the harbor of Uvilla at 11 o'clock Friday night, June 30, and after she had been under way less than an hour everybody was aroused by a shot, and, rushing on deck found a negro armed with a rifle shooting down men one after another. This negro was Robert McGill, and as it afterward developed, he had stowed away on board with the intention of robbing the captain and then swimming ashore.

After he had killed all but one of the men, he ordered the last survivor to go below and scuttle the ship. When the unfortunate reappeared on deck and reported, the negro shot him dead. He then put the two women, Miss Elsie Morgan and her sister, Mrs. Walter Rose, in the dory with Mrs. Rose's six-weeks-old infant, steering for the mainland.

He changed his mind about allowing the women to live and killed Mrs. Rose and her infant. Then he began shooting at Miss Morgan, who had leaped overboard, and wounded her in the arm. He fired at her ineffectually, but his ammunition evidently gave out, for he promised immunity from harm if she would come back in the dory. She started back, and, when within an oar's length, he struck her on the head with an oar, stunning her. Believing she was dead, he rowed away toward the mainland.

Only One Woman Escapes.
Miss Morgan swam back to the island, where she was thrown on the beach by the waves, exhausted. She feared that the negro would follow her so she hid in the bushes, and for two days suffered from the heat and exposure until found by a woman from her neighborhood and rescued from starvation.

In the meantime the dory had been washed ashore, and there was excitement on the island, as it was believed the Olympia had gone down with all hands. When Miss Morgan told her story, an immediate search was instituted for McGill, and the authorities on the mainland were notified. They caught him at El Porvenir, a little town on the road to Celba, and

"IT SAVED MY LIFE"

PRaise FOR A FAMOUS MEDICINE

Mrs. Willadsen Tells How She Tried Lydia E. Pinkham's Vegetable Compound Just in Time.

Mrs. T. C. Willadsen, of Manning, Iowa, writes to Mrs. Pinkham:

"I can truly say that you have saved my life, and I cannot express my gratitude to you in words.

"Before I wrote to you, telling you how I felt, I had doctored for over two years steady and spent lots of money on medicines besides, but it all failed to help me. My monthly periods had ceased and I suffered much pain, with fainting spells, headache, backache and bearing-down pains, and I was so weak I could hardly keep around. As a last resort I decided to write you and try Lydia E. Pinkham's Vegetable Compound, and I am so thankful that I did, for after following your instructions, which you sent me free of all charge, my monthly periods started; I am regular and in perfect health. Had it not been for you I would be in my grave to-day. I sincerely trust that this letter may lead every suffering woman in the country to write you for help as I did."

When women are troubled with irregular or painful menstruation, weakness, leucorrhoea, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, flatulence, general debility, indigestion and nervous prostration, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound at once removes such troubles.

No other female medicine in the world has received such widespread and unqualified endorsement. Refuse all substitutes. Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

there was a demonstration, but he was protected and his life was saved through the presence on the coast of President Bomond who was on an inspection tour.

Will Torture McGill to Death.
The Honduran warship La Tumbia was brought into service and the murderer placed aboard and sent back to the island. Up to last Sunday he was still alive, though it is firmly believed that he will be tortured to death. The laws of Honduras prohibit the infliction of capital punishment, but the people will take the case into their own hands.

Miss Elsie Morgan, the only surviving one of the terrible experience, visited New Orleans three years ago, and is a well educated, refined woman of 25 years.

FOREST GROVE KICKS

Would not Stand for Southern Pacific's Offer of Trains

Forest Grove, Or.—At a mass meeting of the citizens Wednesday, it was voted to protest against the extra train service which has been offered by the Southern Pacific company. Senator Haines read a letter from General Manager O'Brien, offering an extra train each way daily between Forest Grove and Portland.

The hours offered were not satisfactory, and it was the sense of the meeting that the new service should include at least two round trips daily. Prominent members of the board of trade spoke against the proposal, and the motion to reject the offer passed unanimously.—Oregonian.

New Hotel at Newport.
The Grand Pacific hotel opened this week at Newport. It is the property of Mr. Leak, of Corvallis, and is a swell summer resort hotel. Mr. Fitzmorris is manager, and a dock has been constructed for the steamers to land.

Salem Citizens Gladly Testify.

It is testimony like the following that has placed the "old Quaker Remedy" so far above competitors. When people right here at home raise their voice in praise there no room left for doubt. Read the public statement of a Salem citizen:

James A. Tanner, farmer, corner of 13th and Lewis streets, says:

"So many suffer from kidney complaint that for a time I was alarmed about myself, for I was troubled with my back aching in the region of my kidneys. I think it was caused first by a strain from heavy lifting I did two years ago. I kept getting worse instead of better, and finally consulted a doctor. He told me I had gall stones in the bladder. Not only did I suffer from stone in the bladder but trouble with the kidney secretions existed and their too frequent action disturbed my rest from fifteen to twenty times in a night. This was very annoying and I was in a bad way when I read of Doan's Kidney Pills and procured a box at Dr. Stone's drug store. To say I was surprised at the speedy effect of their use is putting it mildly. I have recommended Doan's Kidney Pills to others, and will always have a good word for them."

THE LIVER QUARANTINE

"TAKING HIS MEALS OUT."
Hastened eating has ruined many a man's stomach. The digestion-destroying process is gradual, often unnoticed at first. But it is only a short time until the liver balks, the digestive organs give way, and almost countless ills assail the man who endeavors to economize time at the expense of his health.

A torpid liver causes a quarantine of the entire system. It locks in the diseased germs and body poisons and affords them full play, inviting some serious illness. In families where August Flower is used, a sluggish liver and constipation are unknown, so are all stomach ailments, as well as indigestion, dyspepsia, heartburn, headaches and kidney and bladder affections. No well-regulated family should be without this standard remedy.
