JIM HILL GETS MAD

Lenox, Mass., July 17.—"We are in a period which breeds pull, and pull in turn promotes graft," said President James J. Hill, of the Great Northern, in an interview given at his son's home in the Berkshire hills. There are too many quack political theories which clash with sound business. We are dilly dallying with South American Trade, trying to build a Panama canal, while we have no ships or protecting laws for a merchant marine. I shall certainly never again build a ship under the American flag. What is needed in this country over all is a great awakening and revival in its business, and higher commercial standards. This will have to come before we are a world power.

Fire in California.
San Rafael, Cal., July 17.—The western peak of Mount Tamalpais is on fire and the wind is fanning the flames in the direction of the railway station. The fire was started by campers. A number of parties have been sent out to fight the flames.
A million dollar cotton concern will locate at Hood River if that city will give the site and power.

JOHN R. KING COMMANDER.

Death of General Blackmar, of Boise, Promotes Him.

Washington, July 17.—John R. King, of Baltimore, senior vice-commander of the G. A. R., becomes commander by reason of the death of General Blackmar, at Boise, Idaho, yesterday.

Boise, Idaho, July 17.—Phil Sheridan Post, G. A. R., of Boise, has taken charge of the remains of General Blackmar. The body was embalmed, encased in a metallic casket and conveyed to Grand Army hall, where it lay in state until 3 o'clock this afternoon, when it was taken to the depot. Mrs. Blackman leaves tonight with the remains for Boston.

X-Ray Development.

Berlin, July 17.—Some astonishing developments in X-ray photography are reported by Prof. Rieder and Dr. Joseph Rosenthal of Munich. These two scientists have been collaborating in X-ray work and declare that they have succeeded in obtaining in less than a second of time X-ray photographs of the human chest, the patient ceasing to breathe meanwhile. Having proceeded thus far, they sought to take pictures of the human heart between its beats, as it was found that the beating of that organ impaired the exactness of the photographs. Having first of all accurately gauged the time elapsing between the beats, they, by the use of the most sensitive films procurable, and the strongest possible X-rays, obtained good photographs in one-enth of a second. It had not hitherto been thought possible to take such photographs.

Montana Week at Portland.

Portland, Ore., July 17.—With an unusually interesting program of special events and a large attendance of visitors in prospect the present week, which has been designated Montana week, promises to be one of the most notable at the Lewis and Clark exposition. The events of the week were inaugurated with the celebration of Anaconda day today, the city officials and a large delegation of other prominent citizens being on hand from the Montana metropolis to make the occasion a huge success. Bozeman, Butte, Helena, Billings and Great Falls also have days set apart of their celebrations during the week.

Canal Laborers Leaving.

Panama, July 15.—Owing to dilatory methods of paying laborers, a general exodus of workmen is taking place among the employees of the canal. Reports from Culebra indicate that, because they cannot get paid, laborers are quitting in scores, and have taken to the woods for bananas and other tropical fruits to ward off starvation. Unless a speedy change is made in the method of paying wages, the canal will be without laborers.

Narragansett Park Racing.

Providence, R. I., July 17.—A three weeks' running meeting under the auspices of the Narragansett Breeders' association opened today at Narragansett park. Elaborate improvements have been made to the track and grounds recently and with the large number of fast horses now in the stables the meeting promises to be one of the most successful in the history of the association.

Power Boat's Long Race.

Chicago, Ill., July 17.—The longest power boat race ever held is scheduled to start from Chicago today under the auspices of the Chicago Power Boat club. The objective point is the Straits of Mackinaw, a distance of 225 miles. There are nearly 30 boats entered for the contest and it is expected that if the weather is favorable the long trip will be made by some of the fleet little craft in 24 hours or less.

To Fill Staff Vacancies.

Washington, D. C., July 17.—Pursuant to the call of the acting secretary of war a board of general officers convened here today to recommend details to the general staff of the army to fill existing and prospective vacancies. There are no two vacancies on the staff, caused by the detachment of Brigadier General Tasker H. Bliss, who has been ordered to the Philippines, and Lieutenant Colonel Benjamin Alvord, who has been transferred to the military secretary's department.

New Grain Rates for Chicago.

Chicago, Ill., July 17.—The new schedule of grain rates from the Northwest through Chicago and St. Paul to the east were put in effect today. The change in rates tends to place Chicago and St. Paul on a more even basis with respect to grain in the Northwest, which might be regarded as tributary to both gateways.

SUPREME COURT DECIDES

Ten Decisions Were Handed Down by the Highest Court Today

Ten decisions were handed down by the supreme court today, as follows:

Case of M. E. Pogue against N. Simon, reversed. Simon got decision below. The action was to recover house and lot in Salem.

Oregon Transfer Co., Cook Kiernan Transfer & Storage Co. and Mary H. Cough against the City of Portland was reversed. The city got the decision below. Proceedings instituted to enjoin the city from making improvements on Tenth street from Washington to Front. Case decided on mere technicality in not following charter. The error was in that the advertisement did not call for continuous improvement, but "skipped one block."

Margaret Barringer against J. W. Loder, et al., affirmed. Barringer got decision below; a mortgage foreclosure.

I. G. Darr against Guaranty Savings and Loan Association, State Institution for Savings and A. Guesmer. Reversed and remanded. Darr got decision below. An attempt to have mortgage declared usurious, and all interest payments above 6 per cent applied on original debt, thus cancelling same. Court held complaint did not state facts sufficient to demand relief sought.

P. Peterson against C. J. Creason, reversed. Creason got decision below. Suit to enforce indemnity contract on Roseburg land.

J. H. McClung against W. E. McPherson. Reversed and remanded. McPherson got decision below. Action to recover possession of "Tremont House" in Portland.

Octavia Ausplund against J. W. Higgins and Aetna Indemnity Co., affirmed. Ausplund got decision below. Action instituted to recover damages for failing to erect a house as per agreement, in Portland.

J. A. McKinnon against J. W. Higgins and Aetna Indemnity Company, affirmed. McKinnon got decision below (same as preceding.)

F. S. West against Higgins Aetna Indemnity Co., affirmed. (Same as preceding.)

The Oregon City meteorite goes to the Oregon Iron & Steel Co. The court held that it was not abandoned property of Indians, and therefore not property of finder.

IDAHO EDITORS VISIT US

The Idaho editors, with their wives, struck the town at 11 o'clock this morning, and there was something doing every minute of the time until 3:32 when they left for Portland on the overland. After doing the state house under the gallant leadership of Al. Tozier, they were taken to dinner at the various hotels, where, after a brief rest, they took a short walk, and, having been raised in an irrigating country, their hosts wisely took them down to the brewery and the ice works. They went down into the cellars, where it is almost two degrees below freezing point, and they sampled the ice and other samples submitted for their inspection, and then they sampled some more ice, of course, and the brewery management gallantly presented each one with a small glass with the Salem brewery cut in it, and they sampled some more ice, and then they were taken in charge by the Electric Light & Traction Co., and given a ride through the city. The party numbered 60, and they each and all expressed themselves as delighted with Oregon's Capital City, and her capital people. They returned to Portland, and will visit the Sound country before returning to the land of sage brush and irrigation ditches, mines, jack rabbits, alfalfa and pretty women.

Mrs. Boynton Insane.

Mrs. Ida Boynton, of Mulina, Clackamas county, was this morning examined as to her sanity by Judge Scott and Dr. Robinson and declared insane and committed to the asylum. Mrs. Boynton is a young married woman, and the cause of her insanity is unknown. She has suicidal tendencies, and tried to end her life by jumping into a well. Judge Scott conducted the examination for the county judge of Clackamas county.

Many of the barley fields around Pendleton will go 60 bushels to the acre.

London Poor Appeal for Work.

London, July 17.—Six hundred ragged women, carrying infants, this morning marched from the slums of the East End through the streets to Parliament Hall, where they appealed to Premier Balfour to aid in the passage of the bill providing work for the unemployed. Balfour went out to the motley array, and promised to do all possible to pass the bill.

Japan Has Money to Loan.

Tokio, July 17.—It is expected the Russian warships Pallada, Pobedia and Poltava, sunk at Port Arthur, will soon be floating. The Korean loan of a million was oversubscribed four times. It is the first foreign loan ever floated in Japan.

Ramblers Defeat Cadets.

By a score of 13 to 11 the Rambler baseball team defeated the Eureka cadets this morning on the old league grounds. Gabrielson saved the day for the local lads by swatting out a home run, with two men on bases, in the last half of the ninth inning.
