for a monthly service. The steamships will touch at Charlestown, P. E. I.; Halifax, N. S.; Havana, Cuba, and Progreso, Vera Cruz, Tampico and one or two other Mexican ports. The winter service will be operated direct from Halifax.

By the terms of the contract with the Mexican government, boats may carry cargoes and passengers from Canada to Cuba. Cargoes and passengers are to be carried both ways between Mexico and Canada, but on northbound trips no freight may be handled from Cuba to Canada. The Mexican government objected to subsidizing a line that would be used to build up trade between Cuba and Canada.

It was expected that simultaneously with the establishment of the Atlantic service similar steamships on the Pacific coast between Vancouver and Mexican Pacific ports would be inaugurated. The Mexican government, however, has decided to postpone for the present the establishment of such a service.
