Samples of Fine Grain.

About 20 samples of as fine grain as was ever grown in any country have been collected by Mr. Taylor, and taken down to Portland this morning, to add to the Marion county exhibit. The samples were collected from different parts of the county, and include wheat, oats, chest and timothy. Perhaps the most remarkable sample of all was of wheat grown on the farm of W. H. Savage, on the Garden Road. It stands over six feet high, has heads nine inches long and there are from four to seven grains in the masses. The sample of oats, which was much higher than a man's head, was taken from a field which will easily yield 75 bushels to the acre. One fine sample of timothy in the lot was nearly seven feet high. Mr. Taylor is confident that this exhibit will not be surpassed nor even equaled by anything at the fair, and that it will add greatly to the Marion county exhibit.

Live Stock Exchange Meets.

Buffalo, N. Y., July 20.—The annual convention of the National Live Stock exchange began a three days' session in this city today. Delegates were on hand from Chicago, Indianapolis, Cincinnati, Kansas City, Omaha, Milwaukee, St. Joseph and numerous other cities. During the morning an executive session of the officials was held, the formal open sessions of the convention not beginning until afternoon.

The subject slated for consideration by the convention include the following: The advisability of requiring all salesmen to hold memberships in the exchange where they operate; the equalization of commission charges among all exchanges; the advisability of doing away with the traveling solicitor; the advisability of giving the interstate commerce commission more power; the expediency of requiring all stockholders of corporations to hold memberships; the establishment of a commercial credit system.

Great Swedish Song Feast.

Chicago, Ill., July 20.—Representatives of Swedish singing societies throughout the country are gathered in Chicago to take part in the annual festival of the American Union of Swedish Singers. The festival opens with a mammoth concert tonight in the auditorium. Miss Anna Hellestrom, the famous soprano of the royal opera at Stockholm, will be the principal soloist, while the chorans members of the program will be rendered by a grand chorus of several thousand voices recruited from societies all over the country. Another concert will be given tomorrow night. The two following days will be given over to outdoor festivities at Riverview park. Arriving trains today brought many visitors from all directions and the attendance promises to be of record-breaking proportions. The Dakotas, Minnesota, Iowa and Wisconsin will be especially well represented.

Negro Murderer Gets Reprieve.

Philadelphia, Pa., July 20.—This was the date originally fixed for the hanging of Joseph Gibson, who murdered John Thomas, the old watchman of the Houston club of the University of Pennsylvania, but Governor Pennypacker has granted a stay in order to allow the board of pardons to consider an application for a commutation of the sentence to life imprisonment. Thomas' murder was one of the bloodiest and most brutal that has ever been committed in Philadelphia. The watchman detected Gibson in the act of robbing the building at night, whereupon Gibson set upon him with a hatchet and beat the old man almost beyond recognition. Gibson is a West Indian negro, and it is asserted by his counsel that he is not mentally responsible.

Bank Clerks in Session.

Minneapolis, Minn., July 20.—The eyes of active bank clerks throughout the country are now turned toward this city, where the third annual convention of the American Institute of Bank Clerks opened today. This annual gathering of the younger generation of bank men bears the same relation to the clerk as the convention of the American Bankers' association does to the officer. Papers are read on practical banking topics, debates held and business of the institute is transacted during the three days while the social side is not neglected. The present convention is attended by about 250 delegates, representing 45 cities of the United States and Canada.

Planning Arcanum Fight.

Boston, Mass., July 20.—In line with similar action in other states the Massachusetts grand council of the Royal Arcanum met today and adopted strong resolutions of protest against the action of the supreme council in advancing the insurance rates of the order. Under the constitution of the order if a majority of the grand councils petition the supreme regent that official will be required to call a special meeting of the supreme council to reconsider its action. Should the supreme council then continue in its refusal to rescind the increase in rates it is considered probable that many members will withdraw and unite in forming a new order.

Another Hoch.

New York, July 20.—The police announce that they have evidence to show that Frederick Carlton has married at least six women, as follows: Helen Murray, Nebraska; Lula Kittering, Covington, Ky.; Mildred Peterson, whom he married under the name of Martin; Jennie Smith, Brooklyn, who died supposedly of tetanus; Mary Dorman, Brooklyn, death ascribed to the same disease, and whose body was discovered yesterday. The police today discovered in Carlton's trunk a number of bottles, powders and pills, which were overlooked.

REFORM SCHOOL RECRUITS.

Boys Steal Melons, and the Father Gets Roasted.

While a carload of melons was standing on a switch near the depot yesterday afternoon it was raided by 20 boys, and, as a result, the three leaders of the bunch, who have been a continual annoyance to the police court, will be given a chance to spend terms in the reform school. The three boys are Leslie, James and Ross Garber, aged respectively 15, 13 and 11. Their home is out on 22d and Mill streets. Since the first of the year Leslie has appeared in the police court twice, James once and Ross three times, so it was due more to their past record than anything else that they received their sentence to the reform school.

The father of the boys appeared before Recorder Moores this morning to make a plea for his boys, and the recorder took occasion to give him such a roasting as few fathers would care to receive. The judge seemed to think that the father was responsible in a large degree for the conduct of the boys, and the evidence would appear to justify him in such a belief. The boys took some of the stolen melons home, and they were eaten by the family apparently without any inquiry as to where they came from. One of the other boys that was in the melon-stealing, stated that Leslie Garber had said, when they were taking the melons, that they must take some of them home, as their father would get after them if they did not. Recorder Moores told Garber that he either could not or would not control the boys, and that he thought it would be better for the boys and the community if they were placed somewhere, where they would be subject to discipline. Garber said that if the boys were let go this time he would take them out of town, but as he had promised to do this on former occasions, the recorder stated that it was too late now, and that the boys would have to go to the school.

There were 17 other boys in the scrape, but as this was their first offense, they will probably be let off with a good lecture by the recorder tomorrow morning. Six of the boys were caught yesterday afternoon while they were in swimming, and consequently could not get away, while the others were rounded up this morning.

"Colonel" Jack Thomson was severely bruised about the hip, and will probably be laid up for several weeks; C. Dick Richards was slightly injured about the head and arms.

Plymouth Twine

Good twine, and plenty of it. This implement house has sold Plymouth twine continuously for eight years, and has found by actual demonstration that it is the most satisfactory twine on the market. If you've never used any of it, it's up to you to try a ball, Mr. Farmer. The best proof of a good twine is in the binder box. Plymouth runs so even. That's why they all like it.
