World's Zionist Congress.

Basle, July 27.—Between two and three thousand delegates were present today at the opening of the sixth world's congress of the Zionist movement, which has for its object the restoration of Jerusalem to the Jews. Nearly every civilized country of the world is represented at the congress, the large attendance being and indication of the extraordinary importance attached to the present session.

Nearly fifty delegates are here from the United States alone. Included in the number are Mrs. D. Levinson, of Des Moines, William Morris, of Philadelphia, Dr. Coblenz, of New York city, Julius Singer, of Buffalo, Dr. L. H. Landman, of Cincinnati, E. W. Lewin-Epstein, of New York city, Dr. Aaron Ember, of Baltimore, S. Shapinsky, of Louisville, Mr. and S. W. Frank, of Pittsburg, Rabbi Gorowitz, of Rhode Island, Dr. Stephen S. Wise, of Portland, Oregon, Dr. H. P. Mendes, of New York city, Barnett Levy, of Seranton, Leon Zolotkoff, of Chicago, and Miss Eva Magnes, of Brooklyn. The congress was formally opened by Dr. Max Nordau. The first feature of the programme was the holding of services in memory of Dr. Theodore Herzl, the founder of the Zionist movement, who died one year ago today.

There are many important matters to come up for consideration at the present session. One of these is the selection of a new president to succeed Dr. Herzl. Two candidates are mentioned for the position, Max Nordau, the eminent French doctor and author, and Herr Wolffsohn, of Cologne.

Another important matter that must be decided is the acceptance or rejection of the offer of the British government to furnish a large tract of land in British East Africa for the establishment of a Zionist colony. The special commission sent to the site of the proposed colony by the Zionist movement last spring has prepared a report against the acceptance of the offer of the British government and it is expected that the congress will adopt the report, though some opposition is expected.

Another matter that will receive attention is the proposed reorganization of the Zionist movement, the change to tend toward decentralization, which change is regarded as necessary since the death of Dr. Herzl. The grand executive committee has prepared a report advocating the appointment of a directorate for the guidance of the Zionist movement, composed of Max Nordau, Professor Wolffsohn, of Cologne, and Professor Warburg, of Berlin.

At the conclusion of the sitting of the congress, memorial services in honor of Herzl were held in the synagogue. All the delegates could not get an entrance, and a fight ensued for seats. The police were unable to cope with the fighting crowds, but a fire brigade dispersed them with a hose.

CHILDREN CRY FOR FLETCHER'S CASTORIA.

Played While the Field Burned.

When it comes to fire and smoke, most ball players will draw the line, but not so with the snappy ball ball-tossers who are seen upon the passenger grounds during train times. These artistic oval-chasers are mostly composed of cab drivers, hotel runners, news boys and expressmen, and when this combination goes on the ball field, there is always something doing in the line of broken fingers. When the team was called on the grounds which lie just east of the depot, at 11 o'clock today, they found their ball field covered with fire, as the section hands were burning the dry grass, which grows abundantly upon that spot, but this apparently made no difference with the boys, and they at once proceeded to start the game, playing in the fire and smoke, as though they were accustomed to eating fire when playing ball. The team from now on will go by the name of "The Fire Eating Mixture Team," of which Doc Tucker is elected captain.
