### Fire at Albany.

A fire broke out in the pattern room of the Albany Iron Works Monday evening about 6 o'clock, and before it was gotten under control it had done some \$2500 damages to the patterns and buildings. The fire started over an as my office occupied by F. H. Calpitta. The department was on hand promptly, and in 15 minutes had the blaze confined to the room where it started, and under control.

# Don't Forget

That we are still doing business, and lots of it. We keep the very best of everything for the bicycle, do the best work, and will guarantee to please you. There are other shops, of course, but this is the place where you get the best work at honest prices.

# YELLOW FEVER DATA

## Death Rate Decreases but Exceedingly Warm Weather May Run the List Up Again

New Orleans, Aug. 1.—Although there was a decrease in the number of deaths and new cases in the past 24 hours from yellow fever, the terrific heat of last night may run the list up again. Past Assistant Surgeon Berry, of the marine hospital service, has arrived to assist Dr. Richardson and the city board of health. Dr. Souchon, of the state board, was informed today of a case at Morgan City, the first at that point, and the person stricken was not an Italian. The indications this morning point to the warmest day of the year to date.

New Orleans, Aug. 1.—The financial loss to New Orleans by the fever outbreak and quarantine to date is estimated at from two to four millions.

New Orleans, Aug. 1.—The quarantine panic still continues in Mississippi. Utica wires it wants its mail fumigated in the future, or it could not receive it. Arkansas has quarantined against New Orleans and points where fever exists. The work of cleaning the city continues. A third of the cisterns have been screened. The governor today informed Dr. Souchon, president of the state board, that all cars, both passenger and freight, should be well fumigated before leaving the city. Baton Rouge has ordered out a company of militia to guard the roads. Neither residents or non-residents will be admitted if suspected of having been in the yellow fever district.

New Orleans, Aug. 1.—Reports from Baton Rouge say the effects of the quarantine have not been felt there financially, except at the hotels, and there is no alarm or interruption of business, except in passenger travel. In Mississippi there might as well be a general prevalence of fever throughout the state, so far as business is concerned, for many railroad centers are bottled, and freight traffic restricted to a point where many railroads have abandoned the local trains, and all new enterprises have been abandoned. It is thought at Jackson that normal business conditions will be resumed in 30 days.

# EIGHT YEARS IN THE PEN

Chicago, Aug. 1.—Walter Brown, convicted with President Broderick, of the National Bank of Ekhardt, Ind., of illegally using the bank's funds, was refused a reversal by the state court of appeals, and was sentenced to eight years in the penitentiary.

### Wood Gets Potted.

Washington, D. C., Aug. 1.—General Wood will probably not return to the Philippines at the present time. It is feared the reason the President recently held up the order assigning certain general officers to new stations was due to the uncertainty relative to Wood being able to return to his command. Wood will probably be given the Department of the Lakes, if it develops that he is unfitted for further Philippine duty, by reason of his recent surgical operation. Carter is to remain in the Philippines as commander.

### Ohio Prohibitionists.

Columbus, O., Aug. 1.—Delegates from almost every county are here for the Prohibitionist state convention which is to name a state ticket and arrange plans for the campaign this fall. The convention was formally opened today, but the nominations will not be made until tomorrow. The party aims to nominate a strong candidate for governor, and several names are mentioned in connection with the honor. Prominent among those mentioned to head the ticket are T. J. McLean of Hiram, President George East of Otterbein university and J. L. Peck of Sandusky.

### British Squadron Coming.

London, Aug. 1.—According to the announcement of the admiralty the squadron commanded by Prince Louis of Battenberg sails from Gibraltar today for Canada, the itinerary including visits to Quebec, St. John's, Halifax and Bermuda. The squadron consists of six of the fastest cruisers of the British navy, with the battleship Drake as the flagship.

### WHAT THE CHINESE DESIRE.

Salient Points of Proposed Treaty Under Consideration in Orient. Seattle, Aug. 1.—The Post-Intelligencer publishes today the text of the proposed new treaty on the immigration question, as set forth by the Chinese government. The draft is under consideration by this government, being a substitution for the last treaty between the two governments regarding the exclusion of Chinese laborers from the United States.

On date of signing the treaty, laborers of both countries shall be excluded from the other, laborers being miners, hawkers, washermen, fishers who seek on dry fish for export or local trade. Americans or Chinese not laborers are not within the restriction. The treaty is not retroactive, provision being made for laborers to return to their native countries, certificates being furnished.

Chinese laborers for countries other than America shall have the right to pass through the United States, subject to the regulation of the nation. American possessions being different from America proper, Chinese laborers may be admitted into the Hawaiian islands or the Philippines as subjects of other Eastern nations. Chinese subjects, other than laborers, shall be admitted into and permitted to reside in this country, proper certificates being furnished them.

All Chinese subjects who wish to enter America, having proper certificates, shall not be detained or imprisoned. When officials desire to inquire into the rights granted to Chinese subjects admitting them into America, or rights of treaty, said subjects shall be allowed to secure for themselves representatives. The right to appeal from the ruling of officials is granted. Where Chinese have no authority to enter, officials have power to grant entrance or passage through the country. Chinese in America shall be unmolested as long as they are law-abiding, and none shall be arrested without cause.

Chinese, excepting laborers, permanent or transient, shall have the privilege of bringing families to this country, if they present proper certificates. Chinese cannot become citizens; the United States and China have the right to register Americans and Chinese in their respective countries. Disagreements in interpretations of the treaty are to be referred to The Hague, or arbitrators elected with the sanction of both countries. The treaty is to be effective ten years. A year's notice will be necessary to abrogate the treaty.

### WAR WITH BRITAIN IMMINENT.

Berlin, Aug. 1.—A very considerable sensation has been caused by the publication in the Teut Zeitung of a statement that a war between Germany and Great Britain is imminent. The paper says:

"According to the most reliable information furnished to the editor, war between this nation and England may not be averted. All German warships have been fully prepared for prompt action, having received secret instructions that war is considered inevitable."

Tegel is a Berlin suburb, where are located the extensive works of Messrs. Borsig, the well-known machine and gun manufacturers. This firm controls the newspapers and the assumption is that the "reliable information" emanated from that firm.

### Duty on Wheat Temporarily Off.

San Francisco, Aug. 1.—The Kosmos steamer Theben, which sailed today for the southern coast, on her way to Europe, carried 1000 tons of milling wheat for Guaymas, Mexico. For several months past the Mexican government has kept abolished the duty on wheat, owing to the short crop in the Hermosillo district, and steamers sailing from here have received consignments of wheat sufficiently large to warrant them in calling at Guaymas, far up the Gulf of California. The duty will be imposed again on August 31st.

### Portland's Population.

The present population of Portland, according to semi-official returns received by the county assessor yesterday, approximates 110,500, which will not vary 500 from the official figures. This shows a gain of 20,000 since the federal census of 1900, and is equivalent to an increase of more than 22 per cent.

The assessor has been extremely careful to refrain from all "stuffing" of the returns, and the figures indicated are looked upon as the most authentic ever given in connection with the actual number of inhabitants in this city.

### ADDITIONAL PERSONALS.

Dr. J. W. Ransom, of Turner, was a Salem visitor today.

Fred Berger returned last evening from a three-weeks' in the Eastern states.

Mr. and Mrs. Edwards Wilson, two old Iowa friends, who have been visiting the Lewis and Clark fair, dropped in upon F. A. Turner and family last evening, and made a pleasant visit.

# CHICAGO STORE

## SALEM AFFAIRS

All Sorts of Local Paragraphs Left Over From Other Pages.

The cat-tails in the mill race pond near the water works plant are getting ripe, and ready to pull. Nearly every evening several parties go down there and pick a bunch.

Though the weather continues to keep extremely warm, many new members are joining the hand-holders' union, and there is a session every night.

### Urging Bean's Appointment.

Since Judge W. W. Cotton has declined the position of federal judge a number of attorneys in Portland have sent a telegram to the President, urging the appointment of Justice Bean, of the Oregon supreme court, nearly a hundred of the members of the Portland bar signing the request. Yesterday the attorneys of Eugene formulated and sent a similar request to the President, and last evening the members of the bar in this city also circulated a telegram for signatures among the attorneys, recommending Justice Bean for the position. Members of the bar in other parts of the state are seconding the recommendation made by the Portland lawyers.—Albany Herald.

### Will Dive for Body.

The body of Joe Saucier, who was drowned in the Willamette river at Eldridge landing Monday, has not been found. Hugh Brady, the longshoreman of Portland, who recovered J. A. Botan's body here last summer, has been sent for.

### Account of Campmeeting

Of the Church of God at Grants Ore, July 25th to August 5th, the Southern Pacific Company will sell tickets at one and one-third fare for the round trip from all points on Oregon lines.
