state, hence it was that that state, with a third less area, can boast of 1600 miles more railroad and other things to correspond.

On the south of us, as we have heretofore pointed out, they discover the system, which dominates this state pouring out money by the millions in the way of betterments. They note that money made here is spent there to make of that transcontinental highway the best the country boasts. They see adequate ocean facilities at that port and they note a diversion of traffic from here that is far from stimulating. And so they awake to the conviction that they are between the upper and nether millstone of the transportation problem with the usual result of being squeezed.

Going to Be Built, Sometime.

Is there any hope on the horizon? There are the 453 miles of new road promised (that is if they have been promised) by Mr. Harriman. Of these 159 miles are being jointly built by the Harriman and Northern Pacific systems, not so much to benefit the country as to save the railroads themselves. Then there are the two extensions, Drain to Marshfield, Shaniko to Bend. When are they to be undertaken? Is it not possible to set a specific time when the work will be begun and to set a definite date when it will be finished to a certain point on the proposed line?

Nobody knows when the dirt is going to fly. All they know is that the road is going to be built, sometime. After the first flush of enthusiasm this is the natural query and no satisfactory answer is forthcoming. So outside of the joint undertakings there is a certainty that the road from Arlington to Condon will be built because it is built and there are some contracts being let for the road from Elgin to Joseph. Elsewhere we haven't even heard of surveys.

Oregon Only a Pawn.

But these after all are incidental, however important they may be directly to the people as developing agencies. The conclusion that the people are coming to is that the state is simply a pawn on the checkerboard to be moved according to the fancy or interests of the railroad magnates. Oregon has got the worst of it in the past, and it looks as though it were not going to get very much the best of

it in the future. The real interests of the Harriman syndicate are south of us. There is the real terminus of its transcontinental line. All of this has operated to divert in that direction the net earnings of the roads leading here. It has operated to throw traffic in that direction and it is operating to reduce to a minimum the value of Portland as the only fresh water seaport on the coast. What we are driving at is that the burden of proof is on the Harriman system. The people are reaching that stage when they will no longer tamely submit to the treatment that has been accorded them in the past. If the system is really inclined to do the decent thing to this section it must show it by the act, not by promises, there must be fewer professions of friendship and more performances, fewer baleful suggestions of what we (that is, the railroad magnates and the corporation attorneys) will do in the event everything does not turn out quite to suit them.

It would be unwise as it would be unfortunate for the representatives of the company to mistake public sentiment. For the first time in their history the people of the state are determined to get a square deal and nothing short of that will satisfy them.

ONLY A MASK.

Many are not being benefited by the summer vacation as they should be. Now, notwithstanding much outdoor life, they are little if any stronger than they were. The tan on their faces is darker and makes them look healthier, but it is only a mask. They are still nervous, easily tired, upset by trifles, and they do not sleep well. What they need is what tones the perfects digestion, creates appetite, and make sleep refreshing, and that is Hood's Sarsaparilla. Pupils and teachers generally will find the chief purpose of their vacation best subserved by this great medicine, which, as we know, "builds up the whole system."

Back from Siletz.

Connell Dyer, of this city, and Will Looney, of Jefferson, returned last night from the Siletz country, where they have been for the past two weeks on a hunting and fishing trip. They report a fine time and lots of fish. Connell says the streams are literally full of salmon, and they caught them by the hundreds. This is very early for salmon, but in that region it is more than plentiful.

Grave Trouble Foreseen.

It needs but little foresight to tell, that when your stomach and liver are badly affected, grave trouble is ahead, unless you take the proper medicine for your disease, as Mrs. John A. Young, of Clay, N. Y., did. She says: "I had neuralgia of the liver and stomach, my heart was weakened, and I could not eat. I was very bad for a long time, but in Electric Bitters I found just what I needed, for they quickly relieved and cured me." Best medicine for weak women. Sold under guarantee by J. C. Perry, Druggist, m, Or., at 50c a bottle.

A Gallant Tar.

Charming Visitor—Could you tell me, Mr. Sailor, the spot along the coast from which the prettiest view is to be seen?

Gallant Jack—Well, I think personally, miss, that nothing prettier could be seen than from this very spot—Sloper's Half-Holiday.

The Reason.

"I don't see why he still keeps growling."

"My dear friend, it's from disappointment."

"Disappointment?"

"Yes; he can't find anything to growl about."—Atlanta Constitution.
