NOTES FROM NEWPORT

Tennis, Yachting, Driving, Evening Dresses, Coiffures and Gossip

Fashionable life is now in full swing and gaities of all sorts keep the sojourners at this beautiful summer capital busy. Fashions worn by the elect at Newport set the modes for general autumn wear. Not only are the designs seen now in any summer fabrics and cool linens copied in more substantial materials by the purveyors of smart styles, but the cool days that frequently come in August in this fortunate spot, and the cool evenings that almost invariably bring out French creations in materials that will be the highest fashion during the coming season. Henriettas are making their ap-

Illustration.

pearance in long wraps for driving or evening wear, and in dainty cape suits for early fall apparel.

Garb for Auto Tours.

For wear on the auto car there is an unusual variety of fabrics and colors, but whatever style is chosen it is essential that the material be dust proof and water proof if the wear is to be satisfactory and the smart, new look of the garment is to be retained. Cravenettes of all kinds are the preferred choice for auto costumes and as the cravenette is a process applied to all sorts of fabrics one can indulge in silk, mohair, broadcloth or serge and be proof against dust or rain.

Bathing, Tennis and Golf.

Tennis is the favorite sport at Newport, but the younger set frequently go down to the "Pier" as Narragansett is termed, for a dip in the sea, and then also golf is a fashionable amusement. Newport is more stately, but the Pier at the bathing hour is a joy to the beholder. Pretty women in well-cut costumes of materials that neither

eling nor stand out stiffly—water-proofed silk in many cases. Men well built and bronzed becomingly, children picturesque and happy, great tumbling waves, wide beach and blue sky combine to make a fascinating picture that lingers in the memory.

Out Door Life Trying.

There is no doubt that all this out door life, however delightful, is trying to the complexion and the thickened skin and wrinkles that result from the exposure to hot summer sun, wind and dust are woeful souvenirs of happy days. A little care and attention to the proper treatment of the skin will prevent these ill effects, and make for both comfort and beauty. On returning after such exposures, bathe the face in water as hot as can be borne; dry with a soft towel, dabbing not rubbing the skin, then apply Pond's Extract freely, letting it dry in, and renew the application several times where the burn is deep and the skin irritated. Dust on a little good powder and not only will you be comfortable, but all future evil results will be avoided. The use of a good face cream before going out helps to prevent sunburn.

Thanks are due to the McCall Fashion Co. for designs of modish costumes shown above.

Evening Entertainments

Are as fascinating in their way as the out door sports. The flash of costly jewelry, the frou frou of elegant silks or of lace over silk gives an unwonted brilliancy to assemblies of the beau monde. Princess dresses are now assumed by those possessing fine figures, and one of Renaissance lace, with narrow white satin ribbon run through the interstices of the lace of the skirt, and in tiny bows on the waist and sleeves, was so unique as to attract attention even here.

Low Coiffures.

Are now quite as fashionable as high ones, and of course jeweled combs add to the general effect. The old fashioned hand bracelet has been revived, and safe to say, jewelry of all kinds is more worn than has been the case for many seasons past.

LUCY CARTER.

Telegraphers' Strike Ended.

H. Dickenson, city passenger and ticket agent of the Great Northern Railway Company, at Portland, received a telegram from the St. Paul offices* of that company yesterday, which announced that the trouble with the striking telegraphers had been adjusted, and the strike entirely broken. Trains are running upon schedule time at all points, except in the extreme West, it was said, where the heavy passenger traffic and the enormous fruit shipments are responsible for some delays. On the Northern Pacific also, things are now back to their normal condition. Train No. 1 arrived yesterday in Portland on schedule time, and it is probable that from now on all trains will reach Portland more nearly on time than they have for some time past. This marks the end of a strike which has caused considerable annoyance to the railroad companies and to the public. At no time, however, has it completely blocked traffic, although for several days it was a serious menace. The strike commenced August 1st.

Senator Fulton will deliver the address of welcome on the occasion of the arrival of Lewis and Clark at Astoria, tures of the regatta.

Mrs. George Malar, of Astoria, has been chosen to represent Sacajawea at the regatta. She is one of the handsomest matrons in that city, and a prominent member of the daughters of Pocahontas.

Hit the Trail on Sundays.

Commencing with Sunday, August 9th, the Trail at the exposition and all the amusement features, as well as the exhibit buildings, were thrown open, and hereafter will be running the same on Sunday as on other days. In fact the exposition will be practically as complete on Sundays as on week days. The Southern Pacific Company have on sale Saturday to Monday excursion tickets, \$2.30 for the round trip, which enables visitors to go to Portland Saturday afternoon and remain until Monday night, or return Sunday evening, as they may desire. 8-7-17

Location Was the Cause.

Some curiosity has been expressed as to why the city council refused a saloon license to Mr. John Gantenbein at its session Tuesday. The license would have been granted quickly enough as far as Mr. Gantenbein was concerned, but there was strong opposition to a saloon being established in that block. The location of the proposed saloon was in the building next to the Lamp-horn harness shop.

Teachers' Meeting.

The Pacific coast Indian teachers will meet in Portland the 21st of this month and the Education Congress will convene in that city August 28th.

Hop Baskets

Patented and improved for 1905.

Place your orders now and avoid the rush.

Walter Morley

90 Court Street, Salem

Sam Morris Heard From.

"Poplin, Mo.—Sam Morris, Joplin's Indian pitcher, this afternoon met at Sedalia with the remarkable score of only 27 men facing him during the entire nine innings. The score was 2 to 0 in favor of Joplin. Morris just got out of the pethouse." Where have we heard that name before? Morris must be getting back into his old form when he surprised the natives of Portland with his ability. Evidently he is doing some startling work in Missouri.—Telegram.
