SCHOOL BOARD MEETS

Elects an Instructor, and Takes up Matters of Improving Sewerage

At the meeting of the school board held in the police court room Saturday evening a letter was read from Prof. W. F. Fargo of McMinnville, stating that he would not come as an instructor in the science department of the Salem high school for less than \$80 per month. As the board refused to pay more than \$75 the letter was considered as a declination, and Prof. John E. Smith, at present principal of the Roseburg high school, was elected to that position. Mr. Smith is a young man with three years' teaching experience. He is a graduate of the Oregon Agricultural college, being the valedictorian of his class, and also a graduate of the commercial department of the Ruskin college of Chicago. He was principal of the Roseburg school last year and was re-elected for this year but will resign to receive the position with a higher salary. In speaking of him last evening City Superintendent Powers expressed himself as being very well pleased with the selection and thought that Prof. Smith would prove a strong addition to the high school faculty.

The next business of importance to come up for the consideration of the board was the question of sewerage in regard to the Park school. This was brought up by Director Lee, who was in favor of permanently improving the existing condition. He was also seconded in this by Epley and Byrd, but Croisan and Condit were only in favor of a temporary "make-shift." Lee was in favor of establishing a septic sewer tank similar to the one put in at the North School last year and which has given good satisfaction. Croisan suggested that new holes be dug and that the closets be moved. Dr. Byrd stated that the improvement was made at the North School last year with the understanding that one school should be taken up each year until all were provided with sewerage facilities and he thought that the Park school was next in line. After remarks by the members of the board, Byrd moved that the committee on repairs be instructed to investigate the condition and report their findings at the next regular meeting, which is in September.

The closets at the Park school are the old fashioned kind, set over a hole in the ground. This has not only become a nuisance, but is a positive menace to the health of the pupils and the residents of the neighborhood. A great deal of complaint has been made in regard to it and the need of immediate action seems apparent to all. The presence of the creek near the school makes it an ideal sight for the establishment of a septic sewer tank, and this seems to be the logical solution of the problem.

A Preacher Rich From Apples.
Mr. F. Wallen, of Zillah, Yakima county, Wash., is a retired preacher, who went to the Yakima valley about 10 years ago, bought a tract of land, at a low price, and set out an orchard. Three years ago it came into bearing. But Mr. Walden thought he would sell it. He put it on the market, asking \$10,000 for it. He failed to get a buyer that year, and he had the crop on his hands in the fall. The fruit that year brought him \$12,500. The farm has not since been on the market. It is now producing every year from \$12,000 to \$20,000. Mr. Walden lives in Seattle 10 months in the year, and spends the other two months harvesting and marketing his fruit crop.—World's Work.

Hit the Trail on Sundays.
Commencing with Sunday, August 6th, the Trail at the exposition and all the amusement features, as well as the exhibit buildings, were thrown open, and hereafter will be running the same on Sunday as on other days. In fact the exposition will be practically as complete on Sundays as on week days. The Southern Pacific Company have on sale Saturday to Monday excursion tickets, \$2.20 for the round trip, which enables visitors to go to Portland Saturday afternoon and remain until Monday night, or return Sunday evening, as they may desire. 8-7-tf

Capital and Corruption.
Cardinal Gibbons says that "whenever there is an amalgamation of great capital there is sure to be corruption. It is not a new story. It is as old as the world's history. The only reason that it comes so much to the fore at present is that the methods of its detection are daily growing stronger." Such words of obvious truth are occasionally necessary to reassure those who fear the world is daily growing worse.—Boston Record.

A Pleasant Way to Travel.
The above is the usual verdict of the traveler using the Missouri Pacific railway between the Pacific coast and the east, and we believe that the service and accommodations given merit this statement. From Denver, Colorado Springs and Denver there are two through trains daily to Kansas City and St. Louis, carrying Pullman's latest standard electric-lighted sleeping cars, chair cars and up-to-date dining cars. The same excellent service is operated from Kansas City and St. Louis to Memphis, Little Rock and Hot Springs. If you are going east or south, write for particulars and full information.
