BY HOFER BROS.

OFFICIAL CENSUS SALEM.
MAY, 1904, 13,287.

THE WAY TO ELECT A SENATOR.

The state papers are very shy about telling the people how to proceed to elect a senator to succeed Mitchell.

THERE IS ONLY ONE RIGHT WAY, AND THAT IS TO COMPLY WITH THE LAW IN EVERY RESPECT.

Under the Oregon Direct Primary law candidates for the senate should go directly before the people for the nomination.

They should make a campaign for the nomination, and tell the people what their views are on important matters.

Then they should follow that up with a campaign for the election on the Australian ballot, according to the Mays law.

IF, AFTER TWO CAMPAIGNS, THE LEGISLATURE WOULD NOT BE SUFFICIENTLY IMPRESSED TO ELECT SUCH A CANDIDATE HE WOULDN'T BE WORTH ELECTING.

But any honest man of brains and ability should have enough energy to impress himself on the people as meaning something definite, and the legislature would respect a man who went about telling what he believed and proposed to do after he was elected.

The day of muzzled and padlocked and owned senators should be over in Oregon, where we have all the machinery to elect a senator by the direct vote of the people, if it can be done anywhere in the world.

HARMONY A GOOD THING.

The effort of the state chairman, Hon. Frank Baker, to hold a harmony conference is commendable.

IT IS STATED CLEARLY AND EMPHATICALLY THAT THIS IS IN NO WAY TO BE AN EFFORT TO SET ASIDE THE DIRECT PRIMARY LAW.

With that understanding all Republicans can unite in a jollification on the date set by Mr. Baker.

It is good for brethren to dwell together in peace and harmony, and we cannot have too much of a good thing like that.

It would not be a bad idea to hold a harmony conference in each county in the state, and let the underlings practice harmony.

Some of the counties are as badly cut up with factions as the party in the state and need harmonizing to a considerable extent.

A Marion county conference will not be out of place, and it should be made to include all the rambunctious cattle who have bucked and balked at different times in the past.

LET THEM COME OUT AND BELLOW AND PAW THE AIR AND HOOK UP THE DUST AND WORK OFF THE ACCUMULATION OF POLITICAL RILE.

Then with their political livers in better order, or their paunches reduced to normal size from over-feeding at the crib, and their cinchas tightened up from lean and hungry desire, they can go down to the state pow-wow and not convert the whole thing into rival warring of two hostile Indian tribes.

Here's luck to you, Brer Baker, in your effort at harmonizing the G. O. P. in a state where it is much needed.

WILL CAUSE DISCUSSION.

It is seldom that a single number of the magazine contains so much material likely to arouse discussion and lead to conclusions of importance as the September number of the Atlantic.

President H. B. Pritchett considers the momentous question which is now so much discussed in academic circles.

Your Salary

Is only a temporary means of support. You ought to have money laid by to provide for yourself and family during a temporary loss of position. Better begin now by laying aside a fixed amount each week or month in a savings account. The joy of living will then be greatly enhanced by the absence of fear of future adversity. We receive deposits of one dollar or more, and pay interest at the rate of three per cent per annum.

Savings Department
CAPITAL NATIONAL BANK

lers, "Shall the University Become a Business Corporation?"

W. S. Rosser, of the Census Bureau discusses, "The Problem of Federal Printing," pointing out the conspicuous costliness and waste of the printing that is now done by the government, with some brief suggestions for reform.

In the first of two papers upon "President Roosevelt's Railway Policy," William Z. Ripley discusses "The Problem" with an incisiveness that should interest every American citizen.

In his notable series of papers upon "The Tenth Decade of the United States," William Garrett Brown comes to the discussion of "Lincoln's Policy of Mercy."

X-RAYS

Maybe Britt is afraid Nelson carries knock-out drops.

Oregon is not alone in throwing rocks at Harriman.

Maybe the Japs can make Harriman get a sidetrack for himself.

Perhaps the Japs thought Harriman needed a little rock ballast.

There is more room in Oregon for railroads, anyway, than there is in Japan.

Taft weighs 280 pounds, but as a presidential candidate he is a lightweight.

Taft has told the emperor of China that the boycott on American goods was in violation of the treaty, and now the trouble should be over, and the blue-eyed heathen be good.

Britt being a Native Son, and Jeffries being a Native Son, and the fight coming off on California's Mission Day, there seems to be reason in Nelson's objections to the referee.

The Colonel's Waterloo.

Colonel John M. Fuller, of Honey Grove, Texas, nearly met his Waterloo from liver and kidney trouble. In a recent letter he says: "I was nearly dead of these complaints, and, although I tried my family doctor, he did me no good; so I got a 50c bottle of your great Electric Bitters, which cured me. I consider them the best medicine on earth, and thank God who gave you the knowledge to make them." Sold and guaranteed to cure dyspepsia, biliousness and kidney disease, by J. C. Perry, druggist, at 50c a bottle.

The Chance of a Lifetime.

To get in on the ground floor of a producing mine that will be on a dividend paying basis in November of this year.

Dr. W. B. Morse and J. C. Lee & Co., of Salem; R. B. Montague, Dr. Hodges, H. A. Cleek, P. B. Nutting, of Albany, have recently bought the famous Sterling Quartz Mine, of Siskiyou county, California. This property is owned by three tunnels, aggregating seventeen hundred feet; has more than one million dollars' worth of ore blocked out ready for the mill; is equipped with a ten-stamp mill, an incline automatic tram, and all necessary buildings. The plant is now in full operation, running night and day.

For the purpose of raising immediate funds to put in our winter supply of provisions and two concentrators, we are selling a small block of this stock at 15 cents per share, stock to be issued fully paid and non-assessable, immediately after the corporation has been completed. This stock will advance to 25 cents per share on Wednesday of next week, as the company will be incorporated on that day, and will advance again as soon as the November dividend is paid to 50 cents per share.

Not more than two thousand shares of this stock will be sold to any one person at 15 cents per share. Don't wait until tomorrow if you want a block of this stock.

For full particulars and specimens of ore call at our office.

J. C. LEE & CO.,
337 State Street, Salem, Oregon.

Startling Mortality.

Statistics show startling mortality, from appendicitis and peritonitis. To prevent and cure these awful diseases, there is just one reliable remedy, Dr. King's New Life Pills. M. Flannery, of 14 Custom House Place, Chicago, says: "They have no equal for constipation and biliousness." 25c at J. C. Perry's Drug Store.

Two weeks thrashing in the Grand Ronde valley has shown that the wheat yield will average from 25 to 35 bushels to the acre. Barley and oats are also yielding well, some of the foot-hill barley crops averaging 35 to 65 bushels.

SOCIAL EVENTS

Pratt-Cochran Wedding.

One of the prettiest church weddings that has taken place in Salem for some time was that at the First Presbyterian church last evening at 8 o'clock, when Rev. H. T. Babcock united in marriage Miss Lucia Helen Cochran and Mr. George T. Pratt.

In the church decorations the color scheme, pink and green, was just a delight, the green foliage forming the background, while the pink Japan lilies arranged in tall vases, were everywhere. From behind the screen of green came the soft tones of the organ, played throughout the ceremony by Miss Lettie Pratt, sister of the groom.

Misses Harriett Warfield, Ethelwyn Albright, Marie Falk, Alice Ross, Ruth Flinn and Emily Jeffries acted as bridesmaids, three of whom wore white over green and three white over pink, thus carrying out the color scheme very cleverly. They carried sweet peas.

The bride was given in marriage by her father, and was very pretty in her gown of cream silk, made en train. She carried a large shower bouquet of bride's roses, and wore a veil. Miss Gertrude Potter, who was maid of honor, wore a pretty costume of white Persian lawn trimmed with Valenciennes, and carried "Homer" roses.

The groom was attended by James Thompson, of Albany, one of his fellow students at the Theological College in Auburn, N. Y. Messrs. Charlie Stuart, Frank Stellmacher, M. H. Acheson, Joe Bairston, Gates Cochran and C. C. Bryant acted as ushers.

Immediately after the ceremony the bridal party went to the home of the bride's parents, where they received about 30 of their friends.

Here the decorations were in red and green, red geraniums and dahlias producing a magnificent color effect. Refreshments were served by the Misses Edna Knight, Anna Pigler, Leoline Skaffe and Eleen Falk.

Rev. and Mrs. Pratt left last evening for their new home, and Salem has lost one of its most deservedly popular young ladies. Rev. Pratt last year completed his course in the theological school in New York, and has been appointed pastor of the First Presbyterian church at Glendale, Oregon.

Among the guests from out of town were the groom's parents, Mr. and Mrs. Pratt, and three daughters, of Albany; Misses Harriett Warfield, Camille Carroll and Ruth Flinn, of Eugene; Ethelwyn Albright, of Oregon City; Mary Stuart, Alice Ross and Violette Smeigh, of Albany; Messrs. John Cochran, of Oregon City; Charles Stuart, Frank Stellmacher, M. H. Acheson, Will Barrett, C. C. Bryant, James Thompson and Joe Bairston, of Albany.

Incredible Brutality.

I would have been incredible brutality if Chas. F. Lemberger, of Syracuse, N. Y., had not done the best he could for his sneering son. "My boy," he says, "cut a fearful gash over his eye, so I applied Bucklen's Arnica Salve, which quickly healed it and saved his eye." Good for burns and ulcers, too. Only 25c at J. C. Perry's Drug Store.

To the Mining Congress.

Governor Chamberlain yesterday appointed the following delegates to the eighth annual convention of the American Mining Congress to be held at El Paso, Texas, November 14 to 18, inclusive: L. Zimmerman, J. Frank Watson, Walter Mackay, and E. J. Godfrey of Portland; Colonel James Panting, H. T. Hendryx, Al. Geiser, and Frank S. Balfie of Baker City; F. D. Fuller, M. T. Kane of Sampter; Grant Thornberg of Grants; Emil Melzer of Bourne; Dwight L. Lawton of Grants Pass; H. G. Moulton of Eugene; F. J. Hard of Bohemia, and Thomas K. Muir of Portland.

HOP PICKING

Does not interfere with the Excursion to Newport next Sunday, September 10th.

EXCURSION TRAIN WILL LEAVE ALBANY AT 7:30 A. M. RETURNING LEAVE NEWPORT AT 5:30. THREE-DAY TICKETS FROM SALEM GOOD GOING OR RETURNING ON EXCURSION TRAIN AT \$3.00 FOR THE ROUND TRIP. FROM ALBANY, CORVALLIS AND PHILOMATH THE FARE IS

\$1.50 for the Round Trip

Girl

Toilers

Gain Strength for Work

In office and factory, shop, store or kitchen girls are at work all over this land, and, alas! far beyond their strength. Young women who work are especially liable to female ills. Too often the girl is the bread winner of the family and she must toil unremittingly, no matter if her back does ache, her limbs and abdomen throb with dull pain and dragging sensations, and dizzy spells make her utterly unfit for work. These are the sure signs of female irregularities which kill beauty and youth.

Lydia E. Pinkham's Vegetable Compound

builds health and strength for all women who work and are weary. It creates the vitality that makes work easy. From the thousands of grateful letters written by working girls to Mrs. Pinkham we quote the following:

DEAR MRS. PINKHAM:—I feel it my duty to tell you the good Lydia E. Pinkham's Vegetable Compound and Blood Purifier have done for me. Before I took them I was very nervous, had dull headaches, pains in back, and monthlies were irregular. I had been to several doctors and they did me no good.

Your medicine has made me well and strong, I can do most any kind of work without complaint, and my periods are all right.

I am in better health than I ever was, and I know it is all due to your remedies. I recommend your advice and medicine to all who suffer.

MISS ASBY F. BARNOWS, Nelsonville, Athens Co., Ohio.

Oh, if American girls who work would only realize that they have but one life to live, and make the most of their precious health and strength!

Mrs. Pinkham extends to every working girl who is in ill health a cordial invitation to write her for advice. Such letters are always kept strictly confidential, and from her vast experience Mrs. Pinkham probably has the very knowledge that will help you—and may save your life.

Lydia E. Pinkham's Vegetable Compound Cures Where Others Fail

Smiles from the Typewriter.

Harry V. Gates, of Hillsboro, may well be called the "water king" of Oregon. He has established more water plants, and made them a success, than any man in the West, and is still at it.

The jaded and worn out mothers and fathers who have been giving their families an outing in the mountains or at the coast are now beginning to come home and rest up.

Abraham Rubenstein, the great Russian pianist, is coming on his first American tour. Come along, Abe. We have had a great many of your people who played on our sympathies, and we are glad of a change of instruments.

The business manager of this paper has gone to Glendale to open a bank in that thrifty mining and lumbering town of Southern Oregon. No wonder some of the Oregon politicians would like to get hold of this paper, and make a little money honestly.

They have a paper down at Coos Bay that actually believes that there will be a city of 50,000 people down there in a few years. What is worse, there are lots of other people beginning to believe that same thing. If Harriman really intends to build a line in there

Oregon will get an awakening that will be felt in every part of the state.

Great Northern Declares Dividend.

At a meeting of the board of directors of the Great Northern Development Company, held at the company's office in Eugene, Wednesday evening, September 6th, a dividend of one-fourth of one per cent per share was declared and checks for same were ordered to be issued and mailed Thursday, the 7th.

This dividend is the product of a four-stamp mill. The Huntington mill is now on the ground, and will be in

operation by the 20th of this month. It will increase the present milling capacity five times; the dividend is expected to increase at the same ratio.

TALL CORN.

White & Son have on exhibition in one of their show windows four stalks of corn from the S. F. Williams' farm, on Mission Bottom, that measure 8 1/2 feet high. The corn is of the yellow dent variety, and the ears are well filled and perfect.
