**TWO  
HEADED  
SNAKE**

**Perfect Specimen Found Near  
the Capital City**

John Doyens, who lives at the Petty-  
john Ferry, five miles south of Salem,  
brought to The Journal office today a  
two-headed snake, alive, well and hap-  
py in the possession of the double dose  
of head-pieces. It is of the water  
snake variety, and his little niece, ary,  
found it near the river, along a little  
brook. The animal has four eyes, two  
tongues, and the heads are joined on  
one body at the back of the neck. The

snake catches flies and bugs, swims and  
dives in a pan of water, and the chil-  
dren have made quite a pet of it. The  
snake is nine inches long, and has a  
greenish color. After showing the curi-  
osity he took it home with him, and  
will raise the serpent for a living curio.

**Incredible Brutality.**  
It would have been incredible bru-  
tality if Chas. F. Lemberger, of Syra-  
cuse, N. Y., had not done the best he  
could for his suffering son. "My boy,"  
he says, "cut a fearful gash over his  
eye, so I applied Bucklen's Arnica  
Salve, which quickly healed it and  
saved his eye." Good for burns and  
ulcers, too. Only 25c at J. C. Perry's  
Drug Store.  
The best is none too good. You get  
this at Farrington's meat market.
