RUSSIAN METHODS

(Four O'clock Edition.)
Pekin, Sept. 25.—At the Pekin railway station today, as a train carrying one of the four missions ordered abroad to study foreign political methods was leaving, a bomb was exploded inside a private car, killing four minor officials and wounding over 20 other persons. The wounded include Prince Tsai Tohe, who is the head of the most important of the missions, and Wu Tung Fang, ex-minister to the United States, both of whom received slight injuries. The perpetrator of the outrage, who was in the car, was blown to pieces. The affair has created a profound sensation, and caused apprehension regarding the safety of the members of the court and the leading officials of the government. The government offices and railways are now strongly guarded. The edict appointing the missions mentioned in the foregoing dispatch was issued July 10th. A dispatch from Pekin August 29th says the missions were appointed to study foreign systems of government because the Dowager Empress intended to issue a decree at the new year for the establishment of a parliament 12 years hence.

SHIPPERS DICTATE RATES

Railroad President Says the Roads Are at the Mercy of the Packers

Chicago, Sept. 25.—President A. B. Stickney, of the Chicago & Great Western, was a witness for the defense this morning in the suit in the federal court in the case of the interstate commerce commission against 18 railroads. He said: "The packers practically dictate to the railroads the rates they shall pay. The roads were unable to refuse their demands. The packers ask a rate, the roads quote one, and the packers demand lower rates which were granted. The packers demand another reduction, saying some roads will make it. The roads are distrustful of each other, and the packers never fail to get the rate it wants."

GREAT BLAZE AT BUTTE

Fire Yeeterday Destroyed Six Full Blocks, Doing Damage of \$1,000,000

Butte, Mont., Sept. 25.—Fire causing a loss estimated at about \$1,000,000 today consumed the entire business portion of Butte lying between the Shodair block and Renshaw alley, on the south side of West Park street, and half destroyed the public library. The fire call was turned in at 8:40 a. m. At noon the entire four-story Symons structure was a mass of flames and the public library and other places were burning simultaneously. At 1 o'clock Mayor MacGinniss announced the fire under control. Had the blaze once crossed Main street into the old buildings on the north side of Park street, or had it not been checked at the Renshaw Hall building, Butte would be suffering today from a \$5,000,000 fire.

As it became evident that the blaze was liable to sweep the town out of existence neighboring towns were notified, and responded promptly. The fire brigades from the big mines also turned out, and in a little while all the fire machinery and men in Silver Bow county were at work on the blaze. The fire started at 8:40 Sunday morning, and was not under control until 2:40 in the afternoon. The total loss is estimated at \$1,000,000.

Butte, Sept. 25.—Revised estimates of the fire loss yesterday places the figures at between \$800,000 and \$1,000,000. Late this afternoon the blocks of debris still gave out a volume of smoke, and the firemen are still working. Twelve business houses were destroyed, and numerous others seriously damaged. Fires started in many building blocks from the scene of the fire, but prompt work by firemen averted the spread of the flames. The origin of the fire remains a mystery, but it is believed to be due to an explosion of coal gas boilers. Eight persons were more or less hurt by falling walls.
