

DAILY CAPITAL JOURNAL

BY HOFER BROS.

OFFICIAL CENSUS SALEM. MAY, 1904, 13,287.

Uniting the Pacific States.

The movement to bring the commercial organizations of the Pacific States into a central co-operative body, will go along way toward carrying into effective action, the friendly spirit that already prevails in the west.

A well-known congressman in discussing the fact that such a united spirit would be a great help to him in his work at Washington, said: "I have had eastern congressmen say to me, 'Why don't you fellows out west get together. If you stand together out in the Pacific States you can have pretty near everything you want.' I think this represents the general sentiment at Washington. I am sure the people of the Pacific states are as one in their desire to see the whole region forge ahead to the front.

It is believed by those new actively interested in the project that this United action will greatly add to the prestige of the Pacific States in national affairs. While the commercial organizations of the Pacific States will advocate after careful consideration certain necessary Pacific public improvements in the various states to consummate which government appropriations are desired, and will lend moral support to the movement, they will in no way enter into political issues but will work for all the Pacific States.

No other region has obtained less from congress than that vast area embraced in the Pacific States, and this is not because there is opposition to the growth of this great section, but because there is opposition to the growth of this great section, but because there has never been a united effort in its behalf. When the Pacific States stand together in all the larger matters that make for the welfare of the whole coast, everyone will be glad to help along the great movement. The people of the Pacific Coast are already united; they realize that the prosecution of a great public improvement in one section will be of advantage to the whole coast. Their motto is "one for

Scrofula

It is commonly inherited. Few are entirely free from it. Pale, weak, puny children are afflicted with it in nine cases out of ten, and many adults suffer from it. Common indications are bunches in the neck, abscesses, cutaneous eruptions, inflamed eyelids, sore ears, rickets, ontarrh, wasting, and general debility.

Hood's Sarsaparilla and Pills

Eradicate it, positively and absolutely. This statement is based on the thousands of permanent cures these medicines have wrought. "My daughter had scrofula, with eleven sores on her neck and about her ears. Hood's Sarsaparilla was highly recommended and she took it and was cured. She is now in good health." Mrs. J. H. Jones, Parker City, Ind. Hood's Sarsaparilla promises to cure and keeps the promise.

The Time To Begin

Saving money is when you begin to earn it.

No matter how small your income you can save a little of it. This alone, if regularly done, will make you independent.

We receive deposits of one dollar or more and pay interest at the rate of 3 per cent per annum, compounded semi-annually.

Savings Department CAPITAL NATIONAL BANK

For Coughs and Colds

There is a remedy over sixty years old - Ayer's Cherry Pectoral. Of course you have heard of it, probably have used it. Once in the family, it stays; the one household remedy for coughs and colds. Ask your own doctor about it. We have no secrets! We publish the formulae of all our medicines. J. C. Ayer & Co., Lowell, Mass.

all and all for one." No Pacific state can hope for aid from the government when its request is opposed by its sister states, but with the Pacific Coast united, and all states helping one another, the results will be sure to come and if not all that is asked shall be done, at least more will be accomplished than could be attained by disconnected effort.

Day of Atonement.

Following closely upon the Jewish New Year's festival comes the feast of Yom Kippur, or the Day of Atonement, which is being observed today by Jews the world over. This is celebrated on the tenth day of the month Tishri. The days intervening between the New Year's Day and Yom Kippur are known as Asseret Yemi T'shuvoh, the ten penitential days, which are devoted to repentance and prayers.

Yom Kippur is held as a strict fast day by the orthodox Jew. It begins, as do all the fasts and festivals in the Jewish calendar, in the evening, and continues until the following evening. During the twenty-four hours from sunset to sunset, the orthodox Jew does not partake of food or drink of any kind whatever.

The orthodox Jew is confined mostly to European countries. Of course, there is the orthodox Jew traveling man, orthodox in quite another way.

"Don't Hustle the Boss."

Teddy (aged eight) in the morning had received instructions from his father "never to hurry his elders,"—once he had asked for a thing he should rest patiently, waiting their convenience to get around to it.

Teddy in the evening climbed into bed without saying his usual prayers. The intimate connection between those two events transpired a moment later, when Teddy's mamma asked why the prayers had been neglected.

"I've asked God for t'ree nights to make Teddy a good boy, an' if I ain't it's 'cause God's ben kep' busy som'er's else. Pop says: Don't ever hurry the boss; an' I guess I ain't a-goin' to hurry God. He'll get round to me jes' as soon as he has time."

Smiles From the Typewriter.

This is the day for opening the national beauty show in Madison Square Garden, New York.

The Portland papers are so jealous of Salem that they dare not even have Salem appear in State news items.

A mile and a half extension of street car lines, two miles of street paving, don't look as if Salem were going to sleep.

The only display of royalty permitted on American soil is the American Royal Livestock Show at Kansas City, opened today.

Honey has made such a reputation in Oregon land fraud cases that he is to be the Democratic candidate for governor of California.

American Bankers association is in session at Washington, D. C. If they need any money to pay their hotel bills they can draw on the editors.

It ought not take President Roosevelt long to decide who should be federal judge of Oregon, when Justice R. S. Bean is the proud father of five stalwart sons.

The Washington, D. C., Presbytery meets today to vote on whether they shall establish a national cathedral, isn't that getting a little "high-churchy" for the followers of John Knox?

State Chairman Baker may surprise all the politicians by having no program up his sleeve, by having no slate to fix, and by turning loose the Republican state conference to take care of itself.

Portland should have the United States senator by all means. Portland suburbs should name both Oregon congressmen. Portland will need all the federal appropriations for the next ten years. We might as well all move to Portland or leave the state.

One good thing about making public school teachers pass another examination before a committee of the school board, there are some men necessary on the board who can examine a teacher properly. This work has usually been monopolized by city or county superintendents.

Of course, a man or woman who has had a public office or a government

clerkship all his life ought to have a pension. Extend the civil service system to include everybody; get everybody on the pension roll, and we've got European officialism in full flower. Next will come the revolution.

Can the Republican party get out from under the thralldom of ignorant domination, and a policy that has demanded the head of every man who dared to have an opinion of his own? With Mr. U'Ren for its brains, the Oregonian for its mouthpiece, and Geo. H. Williams for its prophet, it has had a rather checkered career.

The railroads are growing poorer and poorer. The Reading, Pa., shows net earnings for the year ending June 30, approximating \$10,000,000. This is an advance of nearly 2,225,000 over the net earnings of the three Reading companies for the fiscal year 1904, and is nearly \$5,000,000 in excess of the net earnings of 1903.

The Journal isn't running a beauty show but the reception accorded its Bargain Day was a surprise from a financial standpoint. Hundreds of people saved a dollar apiece by getting to the counter on that day, saving us bookkeeping and time and trouble all around. The best premium is to help the subscriber to save his money.

Bids for Sewer.

Notice is hereby given that sealed bids will be received by the City of Salem at the office of the undersigned at the City Hall at Salem, Oregon, up to 10 o'clock a. m. of October 18th, 1905, for the construction of a six-inch alley sewer through the Charles Cartwright addition to the City of Salem; thence across Capitol street, and thence through lot No. 2, in block No. 86, in said City of Salem, Oregon, to connect with the alley sewer in said block No. 86, to be built in accordance with the plans and specifications thereof now on file in the office of the City Recorder.

Each bid must be accompanied by a certified check to the value of ten per cent of the amount of the bid submitted, as a guarantee that the bidder will qualify by giving bonds as provided by said specifications, to be approved by the mayor, and enter into a contract with said city for the construction of a sewer in accordance with specifications and bid submitted within six days after having received notice of the acceptance of his bid, said certified check to be forfeited to the City of Salem in case the bidder fails to qualify and execute said contract as aforesaid.

The City of Salem reserves the right to reject any and all bids, and the bid of any person who has bid before or contracted for such work and been delinquent therein will not be received.

Plans and specifications can be seen at the office of the undersigned at the City Hall.

By order of the Common Council. W. A. MOORES, City Recorder.

Weak, Nervous People.

We have received letters from all parts of the U. S. highly recommending Dr. Gunn's Blood and Nerve Tonic, until the faith we had in the remedy has been fully sustained. We had confidence from the very beginning that this medicine should make cures, but lacked that assurance that comes after many successful trials. Now that we have been upheld in our belief we want to impart to others our confidence. Nervous, and unsteady people, weak, fleshless people, pimply, pale, or sallow people are all victims of weak, watery blood. Make new, rich blood, to be forced through the system by the way of the arteries, and disease cannot remain. This tonic cures disease by giving you strength to resist it. All druggists sell it for 75c. per box, or 3 boxes for \$2. The tablets are to be taken after each meal. They turn the food you eat into rich, red blood. Persons who take this Tonic gain in good, solid flesh from 1 to 3 pounds per week.

Last Hope Vanished.

When leading physicians said that W. M. Smithart, of Pekin, Ill., had incurable consumption, his last hope vanished; but Dr. King's New Discovery for Consumption, Coughs and Colds, kept him out of the grave. He says: "This great specific completely cured me and saved my life. Since then, I have used it for over ten years and consider it a marvelous throat and lung cure." Strictly scientific cure for Coughs, Sore Throats or Colds; sure preventative of Pneumonia. Guaranteed, 50c and \$1.00 bottles at J. C. Perry's drug store. Trial bottle free.

Financial and Industrial Notes.

Mississippi reports a very large sugar and syrup cane crop this season. A large yield of the famous ribbon cane syrup will be placed on the market this fall, and a yield of from 300 to 500 gallons per acre, which will sell at the uniform price of 50 cents per gallon, is expected.

Articles of incorporation of the Las Vegas and Tonopah Railroad company have been filed in Utah. Senator Clark is the chief promoter of the project. The company plans to build a line from Las Vegas on the Salt Lake line through the Bullfrog and Goldfield mining districts to Tonopah.

By far the largest electrical power plant in Colorado and probably the second largest in the country is now being erected near Durango. It will be capable of producing 75,000 horsepower when running at full capacity and will also have the distinction of producing power more cheaply than any other similar plant in the world, with the single exception of that at Niagara Falls. Water under heavy pressure will be utilized, a large part of the Animas river and Cascade creek being diverted for miles through iron pipes until the proper fall is obtained.

From present indications the production of oysters in Louisiana this year will be almost double that of last season.

Kansas harvesters are now harvesting the most valuable corn crop ever grown in that state. The lowest estimate of the yield is 250,000,000 bushels, while some experts predict that it will go 25,000,000 bushels above that figure.

The United States leads all other nations in the total consumption of tobacco, while Belgium stands at the head of tobacco-consuming countries so far as the per capita consumption is concerned. Germany and Russia are the only other two countries besides the United States which show a total consumption of over 100,000,000 pounds per year.

The Northern Mexico and Gulf Railway company has been incorporated in New Mexico to build a line from Santa Fe, N. M., to Durango, Colo., and Salt Lake City, Utah. The road will make close connections with the Santa Fe Central, at Santa Fe, N. M.
