OPENING OF COOS BAY.

For forty years the influence of the power that has been exerted to keep Coos Bay harbor among the minor ports of entry, a mere flyspeck on the map commercially.

Portland influence have been exerted to keep lines of steamers out of there and appropriations have been doled out with a sparing hand by our congressional delegation.

All efforts to build a railroad in there have been forestalled by San Francisco influence, and thus far the Coos Bay country has been kept as far from the centers of civilization as the wilds of Africa.

Heavily and stubbornly have the people of that section of Oregon stood up against the adverse currents of non-development that have been directed against Western Oregon in general.

But now the opening of Coos Bay has become an impending possibility and it will take all the engineering skill of the powers that have controlled the non-development of Oregon far, in these many years to head it off.

The declaration of the Harriman system that it proposes to go into Coos Bay from Drain will have to be thwarted if possible, and there is all kinds of fine work being done.

The great aviation at public expense gives Jim Hill at Portland is believed to be a club to warn Harriman if he dare go into Coos Bay he will lose Portland business and have Portland for an enemy.

The backing given the opening of Coos Bay by the Willamette Valley Development League has put behind that project practically all the commercial bodies of Western Oregon.

The reception accorded the representative of Coos Bay at the Eugene convention was hearty and enthusiastic, and the whole organization will fight for the opening of Coos Bay by railroad and by deep sea harbor.

The election of the next congressman and the next United States Senator may hinge on the issue of opening a deep sea harbor on the west coast and the improvement of all coast harbors.

To head this off Portland has sprung the deepening of the channel of the Columbia to forty feet, a project that will cost incalculable sums and is in a high degree impractical—all to head off Coos Bay harbor.

WORKINGS OF NEW PRIMARY LAW.

Nominations for state and county offices in Oregon next April in the Re-

Peculiar To Itself

In what it is and what it does—containing the best blood-purifying, alterative and tonic substances and effecting the most radical and permanent cures of all humors and all eruptions, relieving weak, tired, languid feelings, and building up the whole system—is true only of Hood's Sarsaparilla

No other medicine acts like it; no other medicine has done so much real, substantial good, no other medicine has restored health and strength at so little cost.

"I was troubled with eczema and came near losing my eyesight. For four months I could not see to do anything. After taking two bottles of Hood's Sarsaparilla I could see to walk, and when I had taken eight bottles I could see as well as ever." S. A. HARRISON, Withers, N. C.

Hood's Sarsaparilla promises to cure and keeps the promise.

MONEY VS. MONEY SAVED

It's not the money made, but the money saved that provides a fund for the "rainy day."

Money saved makes you independent, enables you to grasp business opportunities and lays the foundation for financial success.

The way to save is to put it in the bank—then what you put in earns more.

In this bank it earns three per cent interest, compounded semi-annually. One dollar will open an account.

Does Your Heart Beat

Yes, 100,000 times each day. Does it send out good blood or bad blood? You know, for good blood is good health; bad blood, bad health. Ask your own doctor about taking Ayer's Sarsaparilla for this, impure blood.

publican and the Democratic parties will be made under the new primary law. The nominating primaries will be held 45 days before the general election, which will come on the first Monday in June.

Candidates for a given nomination will have their names placed on the primary ballot on a petition of at least 5 per cent of their respective party vote last cast for representative in congress in the electoral district, and the one who shall receive the highest number of votes in the primary will be the nominee of his party for the office and will be voted on in the usual manner in the June election.

PHILOMATH COLLEGE OPENING.

The opening program of Philomath College was given to an appreciative audience of students, patrons and citizens. In his own pleasing manner, Bishop Castle offered most valuable advice toward the making of a strong character. Miss Gertrude Johnson, teacher of oratory, held the audience spellbound during an excellent reading. Miss Edith Sheak, teacher of vocal music, and Mrs. Ethel White, of piano, furnished numbers on the program.

The motto of Philomath College is "Scholarship for Service," and its object is to place within the reach of every young person the possibility of a thorough college education. Its students are taught that both mental and manual labor are honorable. The school is decidedly Christian, but is strictly non-sectarian. An unusually helpful moral atmosphere prevails in this institution.

A wing three stories high has been added to the main brick building and the chapel and commercial rooms are enlarged, adding materially to the facilities of the school.

Last Hope Vanished.

When leading physicians said that W. M. Smith, of Peoria, Ill., had incurable consumption, his last hope vanished; but Dr. King's New Discovery for Consumption, Coughs and Colds, kept him out of the grave. He says: "This great specific completely cured me and saved my life. Since then, I have used it for over ten years and consider it a marvelous throat and lung cure." Strictly scientific cure for Coughs, Sore Throats or Colds; sure preventive of Pneumonia. Guaranteed, 50c and \$1.00 bottles at J. C. Perry's drug store. Trial bottle free.

Lawrence, Ed Swaze, Dr. Richardson.

Weak, Nervous People.

We have received letters from all parts of the U. S. highly recommending Dr. Gunn's Blood and Nerve Tonic, until the faith we had in the remedy has been fully sustained. We had confidence from the very beginning that this medicine should make cures, but lacked that assurance that comes after many successful trials. Now that we have been upheld in our belief we want to impart to others our confidence. Nervous, and unsteady people, weak, fleshless people, pimply, pale, or sallow people are all victims of weak, watery blood. Make new, rich blood, to be forced through the system by the way of the arteries, and disease cannot remain. This tonic cures disease by giving you strength to resist it. All druggists sell it for 75c per box, or 3 boxes for \$2. The tablets are to be taken after each meal. They turn the food you eat into rich, red blood. Persons who take this Tonic gain in good, solid flesh from 1 to 3 pounds per week.

Notice of Dissolution.

Notice is hereby given that the firm of Turner & Inman, attorneys at law, is this day dissolved by mutual consent. All parties indebted to the said firm are requested to make immediate payment to either member of the late firm who are each authorized to receive and receipt for the same.

We shall each continue the practice of law in Salem, and will endeavor in the future, as in the past, to treat our clients right.

Dated at Salem, Oregon, this 7th day of October, 1935.

24-Hour Service at Eugene.

Master Henry Fleisher, as director of the mechanical department, and E. W. Hall, as local manager, are here from Salem and have taken charge of the Lane County Electric Company, on behalf of the new company. These gentlemen are busily engaged in familiarizing themselves with the operation of the plant. Mr. Hall authorizes the good news that, beginning with next Monday, the city will be furnished with 24-hour service.—Eugene Register.

Saleswomen's Peril

GRAVE DISEASES, DUE TO STANDING

Facts About Miss Merkley's Dangerous Illness and Complete Cure

Have you ever thought why so many women or girls rather walk an hour than stand still for ten minutes?

Miss Margaret Merkley

It is because most women suffer from some derangement of their delicate organism, the discomfort of which is less trying when they are in motion than when standing.

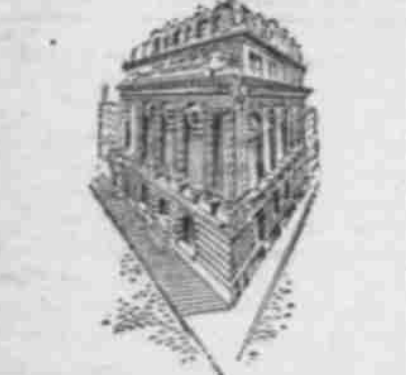

In some states laws compel employers to provide resting places for their female employees.

But no amount of law can regulate the hard tasks of these women. They must get the strength which this work demands or run the risk of serious diseases and the surgeon's knife.

Read about the experience of Miss Margaret Merkley, 275 3d Street, Milwaukee, Wis.

Dear Mrs. Pinkham— Gradual loss of strength, nervousness, bearing-down pains and extreme irritation compelled me to seek medical advice. The doctor said I had ovarian trouble and ulceration of the womb, and advised an operation if I wanted to get well. I objected to this and decided to give Lydia E. Pinkham's Vegetable Compound a trial. I soon found that all the good things said about this great medicine were true. The ulceration soon healed, backache, headache and nervousness disappeared, and in a short time I was strong, vigorous and perfectly well. I wish every working girl who suffers would try Lydia E. Pinkham's Vegetable Compound."

Lydia E. Pinkham's Vegetable Compound is a vegetable tonic which invigorates and strengthens the entire female organism, and will produce the same beneficial results in the case of any sick woman as with Miss Merkley.

The Monitor Double Disc Drill A Wet Weather Drill. A Dry Weather Drill

From now on it's likely to be a tussle with the weather to get the grain in. The Monitor Double Disc Drill will seed perfectly, as wet as you care to go on the ground. The Disc Bearings are perfect fitting, dirt and dust proof, and the front shield and rear scrapers effectually clean them so they will not "ball up" or clog, no matter what the soil or the weather. They have been in use all over the hills, prairies and bottom for four years, so they are no experiment. There's a big difference in disc drills. Be sure you get a Monitor and you'll not need to worry.

Benicia Hancock Disc Plows Still Leads the Procession

They have the essential features that have made them famous as the plow that stays put and works anywhere, besides being strictly up-to-date in all the conveniences and having features that are not found on other plows.

Are You a Hill Farmer

Have you used a disc without a controller? Have you noticed that if it's anything but a Hancock with a rear wheel controller, the rear furrow is too big for the front, and your plowing is ridged? Get a Hancock with our own patented rear wheel controller and the rear furrow will be just like the front. Besides you can turn to the right or left and square yourself back again without leaving the seat. Call and investigate.

Here's the Side Hill Reversible. It's a great plow for the man with steep hills than anything else. In use in all directions and giving excellent results.
