

# AUTOS MAKE A RUN

## After Vanderbilt's Cup and the Money and Glory At- tendant Thereon

New York, October 14.—The second international automobile race for the William K. Vanderbilt, Jr., cup, is run today over the famous Nassau circuit on Long Island. For many weeks everything has been prepared for the great event and when the first car started over the circuit this morning, every expert in automobile racing admitted that the arrangements were as nearly perfect as they could be made, under existing conditions and that everything had been done to eliminate, as much as possible, the danger of serious accidents. The 29 miles of road over which the racers were to speed, had been put in the best condition and thoroughly oiled to prevent the stirring up of dust, in itself one of the greatest dangers in a race.

Notwithstanding the early hour at which the start was made, many thousands of people of all classes were distributed along the course. The grand stand, which occupied a site on the rise of the hill on the Jericho Turnpike, East Williston, was filled with about fifteen hundred racing enthusiasts, including W. K. Vanderbilt, Jr., the donor of the cup, Alfred Gywnne Vanderbilt, Alexander C. Young, Clarence Gray Dinmore, W. J. P. Moore, Mrs. Clarence Mackey, James L. Broese, Arthur G. Hoffman, Charles J. Glidden, O. H. P. Belmont, W. Gould Brokaw, Harry Payne Whitney, Howard Gould, Adrian Iselin and many other prominent society and sporting men.

Five hundred men were scattered along the route and kept a sharp watch to prevent accidents, permitting nobody to trespass upon the road. Special men were stationed at the telephones which had been stationed at short intervals along the road. An arrangement had been made with the Long Island railroad, to keep trains from blocking the crossing at Albertson and flagmen were posted at the crossing to prevent accidents from collision. For half a mile on each side of the finish line no one except those

## How Is Your Heart?

Is your pulse weak, too slow, too fast, or does it skip a beat? Do you have shortness of breath, weak or hungry spells, fainting, smothering or choking spells, palpitation, fluttering, pains around the heart, in side and shoulder; or hurt when lying on left side?

If you have any of these symptoms your heart is weak or diseased, and cannot get better without assistance.

Dr. Miles' Heart Cure strengthens weak hearts, and rarely ever fails to cure heart disease. Try it, and see how quickly you will find relief.

"About January 1st, 1902, I took down with weakness and droopy, and gradually grew worse. I was told by my family physician that my case was hopeless. My neighbors and family had given me up to die. My limbs and body were swollen to one-third larger than normal size, and water had collected around my heart. For at least three months I had to sit propped up in bed to keep from smothering. I sent for five bottles of Dr. Miles' Heart Cure, and by the time I had taken them all I was entirely cured. I feel better than I have for twenty years, and I am able to do any kind of work on my farm. My attending physician told me that if it hadn't been for Dr. Miles' Heart Cure I would now be in my grave."

W. T. CURRY, Wilmore, Ky.  
Dr. Miles' Heart Cure is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails he will refund your money.  
Miles Medical Co., Elkhart, Ind

on the official reviewing stand were allowed on or near the track.

It was shortly before half past six this morning, when the powerful racers made ready for the big race. The order of the starting had previously been decided by lot and there was no difficulty or confusion, as each machine bore its respective number and was held in readiness to line up for the start when its turn came. The start was made from the grand stand north of Mineola. At the crack of the starter's pistol at 6:30 a. m. the 120 horsepower Mercedes car, entered by Robert Graves, of the German team and driven by Janatzky, leaped over the starting line and was soon lost to sight. The spectators on the grand stand cheered enthusiastically when the first machine started on its course and every one of the machines came in for its share of cheering, but the American cars received more than their share.

Duray, on a 130 horsepower De Dietrich, entered by the French maker, was the second to cross the line and he, in turn, was followed by Dingley on a 60 horsepower Pope-Toledo, entered by A. L. Pope. Then followed Lancia, the great racer, on an Italian Fiat car of 110 horsepower, entered by Hollander & Tangemann. Everything went like clockwork and there was not the slightest hitch in the starting. One after the other the puffing and snorting machines were released by the starter's pistol, and sped away like miniature tornadoes. They followed each other in the following order: After Lancia came Warden in a 120 horsepower Mercedes, entered for Germany by John B. Warden; then Wagner in an 80 horsepower Darracq, entered by Darracq & Co.; Tracy, in a 120 horsepower Locomobile, entered by Dr. H. E. Thomas; Nazzaro, in a 110 horsepower Fiat, entered by Hollander & Tangemann; Campbell, in a 90 horsepower Mercedes, entered by S. B. Stevens; Salsz, in a 90 horsepower Renault, entered by Renault Freres; Christie, in a 60 horsepower Christie, entered by James L. Broese; Cadrino, in a 110 horsepower Fiat, entered by Hollander

& Tangemann; Keene, in a 120 horsepower Mercedes, entered by himself; entered SHREDLUDE-HKSEND. CMPW Heath, in a 120 horsepower Panhard, entered by the manufacturers, Panhard & Levasseur; Lytle, in a 90 horsepower Pope-Toledo, entered by A. L. Pope; Chevrolet, in a 90 horsepower Fiat, entered by Hollander & Tangemann; Werner, in a 120 horsepower Mercedes, entered by C. O. Dinmore; Henery, in an 80 horsepower Darracq, entered by the manufacturers; White, in a White steam car, entered by himself and Sartori, in a 90 horsepower Fiat, entered by A. G. Vanderbilt.

Long before the last car had started, some of the first cars had rounded the circuit and passed in front of the grand stand on their second circuit. They were loudly cheered, when they flashed by. Excellent speed was made and it is expected that some records will be broken. The Italian and French cars seem to be the favorites, and it is believed that the race is between them. It will be some time in the afternoon before the race will be finished.

### Weak, Nervous People.

We have received letters from all parts of the U. S. highly recommending Dr. Gunn's Blood and Nerve Tonic, until the faith we had in the remedy has been fully sustained. We had confidence from the very beginning that this medicine should make cures, but lacked that assurance that comes after many successful trials. Now that we have been upheld in our belief we want to impart to others our confidence. Nervous, and unsteady people, weak, fleshless people, pimply, pale, or sallow people are all victims of weak, watery blood. Make new, rich blood, to be forced through the system by the way of the arteries, and disease cannot remain. This tonic cures disease by giving you strength to resist it. All druggists sell it for 75c. per box, or 3 boxes for \$2. The tablets are to be taken after each meal. They turn the food you eat into rich, red blood. Persons who take this Tonic gain in good, solid flesh from 1 to 3 pounds per week.

## LICK

San Francisco's leading convenience and family hotel centrally located. Convenient to all car lines, and places of amusement and interest. Cafe and Grill attached. Rates \$1.00 per day and up. Street cars direct to hotel from and to all depots.

## INLAND PAPER TALKS

### Crook County Journal, From Williamson's Home, Talks Politics

A new cast is thrown over the political complexion of the Second District by the conviction of Congressman John N. Williamson, says a Telegram dispatch from The Dalles. While the situation is not altogether different from what it has been for several months, it has become permanent. With the conviction of Mr. Williamson, before twelve of his peers he passes out of the arena as an active political entity.

But there might have been another outcome. If the star defendant in the federal court drama had been acquitted, he could and, his friends say, would have come out for vindication; and he might have been re-elected. There might have been a reaction of sentiment in his favor.

Who is the man that will take his place? is a weighty problem among the Republicans of this congressional district. The answer is yet to come, but it is said there is a strong likelihood that Malcolm A. Moody will undertake to win back the seat he lost two years ago at the Second district convention. Then Moody's representative on the floor of the convention sounded Williamson's nomination. Moody was an active candidate for the place then, but was overwhelmingly defeated. He lost graciously, however, and made no new sore spots.

Moody has been talked of for United States senator and for governor. He has made no public announcement of his plans. Some say his private business is taking all his time. But those who are close to him believe that he is most likely to seek re-election to congress.

Still, there is promise of a bitter fight should Moody come out after Williamson's seat in congress. Friends of the convicted felon are sore deep down. That Moody has been credited with having instigated the prosecution was made evident at the Williamson trial in some of the correspondence offered in evidence. This is almost certain to leave its impression on the two factions, and it is a safe prediction that if Moody is a candidate some at least of the Williamson forces will strain every energy to encompass his defeat.

The Williamson following in Eastern Oregon is strong, but whether it is sufficient now to undo Moody or a man of his choice at the primaries or at the polls is questioned. With the convic-

tion of Williamson his organization is certain to suffer in many degrees.

With the exception of Moody, no other likely candidate has put in an appearance thus far. Frequent mention has been made of Dan J. Malarkey as a possible candidate, but Mr. Malarkey denies that he has at this time any ambitions in that line. It is known that he will be a candidate for president of the Oregon state senate at the next session of the legislature, and some regard him as a congressional possibility, but the senator says he is not, at this time.

John L. Rand, too, has been mentioned for the office, and the name is true with regard to the United States senate. The Baker City man is known to be a candidate for federal judge, and thus what his real designs may be is only conjecture at present.

Attorney H. B. Wilson, who aided in Williamson's defense, is also mentioned as a possibility in the field for nominations.

Some Democrats express a hope that

a candidate of that party will have a chance, and Judge A. S. Bennett and H. H. Gilfray are spoken of as candidates.—Crook County Journal.

### Cheated Death.

Kidney trouble often ends fatally, but by choosing the right medicine, E. H. Wolfe of Bear Grove, Iowa, cheated death. He says: "Two years ago I had kidney trouble, which caused me great pain and suffering and anxiety, but I took Electric Bitters, which effected a complete cure. I have also found them of great benefit in general debility and nerve trouble, and keep them constantly on hand, since, as I find they have no equal." J. C. Perry, druggist, guarantees them at 50c.
