OFFICIAL CENSUS SALEM.
MAY, 1904, 13,287.MCKINLEY
MEMORIAL

Springfield, Mass., Oct. 26.—The memorial to the late President McKinley just erected here will be unveiled this afternoon with elaborate ceremonies. The memorial consists of a bronze bust of McKinley of heroic size, resting on a granite shaft, with a bronze figure representing Fame reaching upward with a palm bough in her hand. The monument was designed and executed by Philip Martiny of New York and stands in a commanding position on Peconic hill, in Forest park, where it can be seen for miles up and down the Connecticut river. The memorial cost \$15,000 and was paid for by public subscriptions, varying from \$1 to several hundred dollars.

The program of the unveiling ceremonies will consist of prayer by one of the local ministers, the presentation of the monument to the city by James T. Abbe, chairman of the McKinley Memorial Commission; its acceptance by Mayor Frank W. Dickinson, the unveiling by Miss Sallie Leeds, granddaughter of Elisha Morgan, the original chairman of the memorial commission, the address of the day by Lieutenant Governor Curtis Guild, Jr., and music by the Second Regiment Band.

Several thousand visitors have been attracted by the event and the city presents a festive appearance. The schools are closed to enable the school children to attend the unveiling ceremony. Nearly all business houses will be closed in the afternoon in honor of the event.

Canada's Thanksgiving Day.

Ottawa, Ont., Oct. 26.—In accordance with the proclamation issued by the government, Thanksgiving Day is generally observed throughout Canada today. As a rule the change of the day from the middle of November to the middle of October has given satisfaction, as the weather is milder and more pleasant for outdoor enjoyment. Not so well satisfied are the Canadians with the choice of Thursday as Thanksgiving day. It is argued that inasmuch as the selection of the day is entirely arbitrary, it would have been much better and more convenient had a Monday been selected for the purpose. That would have made it possible to hold family reunions extending over two or even three days.

Don't Borrow Trouble.

It is a bad habit to borrow anything, but the worst thing you can possibly borrow is trouble. When sick, sore, heavy, weary and worn out by the pains and poisons of dyspepsia, biliousness, Bright's Disease, and similar internal disorders, don't sit down and brood over your symptoms, but fly for relief to Electric Bitters. Here you will find sure and permanent forgetfulness of all your troubles, and your body will not be burdened by a load of debt disease. At J. C. Perry's Drug Store. Price, 50c. Guaranteed.

How Many Birthdays?

You must have had 60 at least! What? Only 40? Then it must be your gray hair. Ayer's Hair Vigor stops these frequent birthdays. It gives all the early, deep, rich color to gray hair, checks falling hair, and keeps the scalp healthy. Lowell, Mass.

LOW RATES
IN ENGLAND

But the multiplicity of special excursion and week end rates makes it possible to travel almost anywhere at almost any time for a fraction of the regular fare. These low rates usually apply to only third class in this locality, but are sometimes extended to the first, when one may travel first-class at less than ordinary third-class fare—that is, for less than 2 cents a mile in a compartment nearly equal to the American Pullman or parlor car. For instance, the regular fare from Nottingham to Skegness, a seaside resort seventy-three miles distant, is \$2.37 first class and \$1.50 second class one way. Round trip week-end (from Friday to Tuesday) tickets cost \$1.94 first class and \$1.21 third, or 11.3 cents a mile first class.

Every week one or more special attractions in London give occasion to offer low excursion rates, and, in addition, every Saturday round-trip reduced rates are given on one-half day up to six-day tickets. The regular third class fare from Nottingham to London, 125 miles, is \$2.40. The special round trip fares are \$1.03 for half a day, \$1.82 for one day and \$2.31 for two days, \$2.67 for five or six days and \$3.40 for eight days. Only the half-day tickets are limited to special excursion trains. The others are good on ordinary trains. Most local people who can arrange to return within the time limit go to London on these tickets. As would naturally be expected, people who do not intend to return often buy day or half day tickets because they are cheaper than the regular one-way fare and sell or give away the return coupon in London, but in spite of this the railways are evidently finding advantage in continuing such rates.

Similar reduced fares are constantly being given to both near-by stations and distant points on the islands, and for the round-trip are less or little more, depending on limit of ticket, than the regular fare one way. In short, if the traveler can suit his convenience to the particular days of the week when reduced rates are given, and to trains, of which there is often a choice of several, he need never pay more than half the scheduled passenger tariff on English railways. The same of cheap traveling in this country was reached this summer. Once or twice each week railroads give excursion rates from London and provincial towns to seaside resorts which range from five to nine miles for a penny (2 cents). These are not on slow way trains, made up of obsolete cars, but on fast expresses, some being non-stop and composed of new corridor cars. Taking account of all these reduced fares, it is probable that English railway travel is the cheapest in Europe, and, without the English railways and their service are inferior to none.—Consul Mahin of Nottingham.

Interstate Commercial Law Conference.

Chicago, Ill., Oct. 26.—Several thousand delegates, representing commercial, industrial and other organizations in all parts of the United States, are in attendance at the Interstate Commerce Law Congress, which opened at the Auditorium today. Mr. E. P. Bacon, of Milwaukee, who had signed the call for the conference, opened the session and delivered an address, in which he explained the object of the meeting and the importance of its action in impressing congress with the necessity of passing laws extending the power of the Interstate Commerce Commission, in accordance with the recommendation contained in President Roosevelt's message to Congress.

In his last annual message President Roosevelt recommended: "The Interstate Commerce Commission should be vested with the power, where a given rate has been challenged, and after a full hearing found to be unreasonable, to decide, subject to judicial review, what shall be the reasonable rate to take its place; the ruling of the commission taking effect immediately, and to obtain unless and until it is reversed by the court of review." The conference will seek to arouse public interest in the movement and to exert sufficient pressure upon congress to bring about the passage of the desired laws.

Stock Breeders and Dairymen Meet. Macon, Ga., Oct. 26.—The first annual meeting of the Georgia Dairy and Livestock Association, which was formed by the combination of the Dairymen's and the Live Stock Breeders'

Associations, opened here today under the auspices of the Macon Fair Association. The opening session this morning was opened by President George A. Smith with a brief welcoming address. Then Professor W. J. Spillman, agriculturist of the Bureau of Plant Industry of the United States Department of Agriculture, was introduced and delivered an address on "Grains and Grasses for the South." The second speaker of the morning session was Professor J. P. Dugger, of Auburn, Ala., professor of agriculture in the Alabama Agricultural College and director of the experiment station. He spoke on "Leguminous Plants as Forage and Soil Improvers." Mr. Gettys, the noted breeder of Jerseys of Athens, Tenn., the last speaker on the program, spoke on "Dairy Farming in Georgia." Then the delegates and members adjourned for lunch.

A woman makes her toilet with care and content. But in bad health it often happens that the gratification of being well attired is lost. There is hardly strength to brush and dress the hair, and there is small courage to make the effort to keep up appearances.

Dr. Pierce's Favorite Prescription makes weak women strong, by making them well. The common cause of feminine weakness is found in a diseased condition of the womanly organism. "Favorite Prescription" establishes regularity, dries encrusted drains, heals inflammation and ulceration, and cures female weakness. The tonic effects of this medicine are remarkable; it soothes the nerves, encourages the appetite, and induces refreshing sleep. It gives comfort and courage to prospective mothers, and practically does away with the pains commonly experienced at maternity.

There is no alcohol in "Favorite Prescription" and it is entirely free from opium, cocaine, and all other narcotics. Women suffering from disease in aggravated form are invited to consult Dr. Pierce by letter free. All letters are read in private and womanly confidences held in absolute secrecy. Address Dr. R. V. Pierce, Buffalo, N. Y.

A Surprised Her.

"I enjoy good health, thanks to Dr. Pierce's Favorite Prescription and Golden Medical Discovery," writes Mrs. J. J. Schuyler, of Pontiac, Livingston Co., Ill. "I have taken six bottles of each kind. I was taken sick last February and the doctors here called it 'Grip.' I lay for four weeks in bed, and then when I got up I found I had 'displacement.' Had each ache and pain in my back and limbs and did not stand any length of time. I knew that my home doctor would insist the first thing on an examination, and that I would not submit to it, unless I was dangerously sick, and then it would be too late to do any good. My son had your book, Common Sense Medical Adviser, and I thought from reading it that Dr. Pierce's medicines would do me more good than all the home doctors—and so it has. If any one had told me it would do me so much good I would have said 'Oh no, not that much good.' I can say now I was surprised at the benefit I received. I can do all my washing and also tend my flower garden. In fact I am as my feet used to be. An old friend of mine said to me, 'Why, what is the matter with you? You are getting young again.' I told her I had taken six bottles of Dr. Pierce's medicine, and that if she would do likewise she would feel two years younger, too."

Five Physicians Helpless.

"I feel it my duty to write to you and let you know how much your medicine has done for me," writes Mrs. Wm. Hachett, of Breckport, Cheshire Co., N. Y. "It is one of the best that I ever used in my life. Before I began to use your medicine it seemed as though I would never be well again. Could not stand on my feet five minutes without fainting. Could not walk to my neighbors. Would have a vomiting spell that would last three hours at a time. My limbs would tremble so I could not even stand on myself. Then I had a severe time of chronic inflammation of the liver, then uterine trouble, then heart disease. I had five of the best physicians that could be found. They said to my friends 'there is no help for her.' One said I could not live the winter out, one told me that if I got temporary relief that was all that could be done. My mother said to me one day when she was there. 'Do you know you cannot get well?' I told her I did. She said 'What are you going to do about the baby? Do you want me to care for her—or some one else?' It seemed as though she had pierced me with a sword, to think of leaving my little girl without a mother. It seemed as though I could not stand it, and when my friends were telegraphed to that I was dying, and seeing them weep by my bed, that seemed as though I could never stand to hear them repeat that they would 'take care of the baby and give her a good home.' I think if ever any one has been through with such a terrible thing they can sympathize with me."

"There are a great many ladies that I have begged to use Dr. Pierce's medicine and told what it has done for me. With the first two bottles of your 'Favorite Prescription' and 'Golden Medical Discovery' it seemed as though I was getting worse. With the next two I was feeling so well that I could do my work and be real jolly. With the next two I felt like a new being."

For Actual Expenses Only.

In response to a query from Judge Scott, the attorney-general yesterday afternoon rendered an opinion in which he holds that the \$500 appropriated by the legislature for the purpose of defraying the expenses of good road conventions, can only be used in paying the actual expenses of such conventions. He held that the traveling expenses of the officers of the state good roads association and their hotel bills would not come under the head of actual convention expenses.

Advertising
Creates Value

One of the receivers of the National Salt company testified in court that a certain trademark was considered "a valuable asset," as it was the brand of salt that brought the highest price and had a good market.

Asked how this salt was different from other salts sold by the company, the receiver, testifying, admitted that there was no difference; that they all came out of the same kettle. When the court then inquired what caused the high price and good market for this particular product the witness replied:

"Simply the extensive and attractive advertising the brand got."

One thought suggested by this curious confession is the testimony it bears as to the efficacy of advertising to create "a valuable asset," even where, as in this—let us hope exceptional—instance, the advertiser was not quite candid about the quality of the goods.—New York Herald.
