OFFICIAL CENSUS SALEM.
MAY, 1904, 13,267.

A REPUBLICAN CITY TICKET.

Indications are there will be Republican Aspirants for Alderman in each ward.

The time for filing nominations has been extended to Thursday, November 2d, at 5 p. m.

The direct primary will be held Saturday, November 4th, in the afternoon in each ward.

Indications are that there will be several Republicans to choose from in each ward.

Several of the gentlemen who have served the city the past two years will be candidates.

IF THEIR RECORDS HAVE BEEN FAIRLY SATISFACTORY, THERE IS NO REASON WHY THEY SHOULD NOT.

It takes about as much knowledge of parliamentary law to be an alderman as to sit in the legislature.

This is only gained by study and by actual practice. It is a valuable qualification.

It is to be hoped as many competent business men and experienced parliamentarians will be picked up as possible.

Public business would not suffer by their being elected aldermen.

Chamberlain Goes to Klamath.

Governor Chamberlain is going into the Klamath country, and will talk to the people.

The Democratic governor owes his office to his ability to talk enterprisingly.

HE IS A PRACTICAL POLITICIAN AND NOT AFRAID TO TACKLE A LIVE WIRE ONCE IN A WHILE.

The ticket of any political party these days cannot be filled up with mere clerical ability.

In order to win the hearts of the masses there must be candidates who have convictions, and the courage and ability to express them.

The old Portland machine had a horror of a man who could "talk to the people."

They preferred the silent and padlocked dummy style of candidate for governor.

THE NEXT REPUBLICAN CANDIDATE FOR GOVERNOR WILL PROBABLY BE A MAN WHO CAN TALK TO THE PEOPLE.

Candidates should also be men about whose personal honesty and integrity there is not a particle of doubt.

If there are any number of people who believe that he has been a grafter in any form, such a man better keep off.

Distress After Eating

Nausea between meals, belching, vomiting, flatulence, fits of nervous headache, pain in the stomach, are all symptoms of dyspepsia, and the longer it is neglected the harder it is to cure it.

Hood's Sarsaparilla and Pills

Radically and permanently cure it—strengthen and tone the stomach and other digestive organs for the natural performance of their functions.

Accept no substitute for Hood's. "I had dyspepsia twenty-five years and took different medicines but got no help until I began taking Hood's Sarsaparilla. Have taken four bottles of this medicine and can now eat almost anything, sleep well, have no cramps in my stomach, no burning and no distress." Mrs. WILLIAM G. HARRIS, 14 Olney St., Providence, R. I. Hood's Sarsaparilla promises to cure and keeps the promise.

OPPORTUNITIES

Opportunities for making money come to every man, but only those with available funds can take advantage of them.

Get ready for your next opportunity. Start a savings account and keep it growing. It will surprise you how fast it grows. It's a sure way of getting ahead in the world.

One dollar will open an account. Interest paid at the rate of three per cent, compounded semi-annually.

Wake up Your Liver

Not too much, just a little, just enough to start the bile nicely. One of Ayer's Pills at bedtime is all you need. These pills act directly on the liver. They cure constipation, biliousness, dyspepsia, sick-headache. Sold for 60 years. W.C. Ayer & Co., Lowell, Mass.

the ticket of any party in the Roosevelt era.

In the meantime Chamberlain goes to Klamath.

Valuable Man to Oregon.
One of the most valuable men to Portland, Oregon, the past two years has been Wm. D. Fenton.

While he is chief counsel for the Southern Pacific, and The Capital Journal has not always agreed with him, the fact remains

Reared in the Willamette valley, coming up from among the farming stock of Yamhill county, he has strong sympathies with the producer.

As one of the executive committee of the Lewis and Clark fair, he has **STOOD FOR THE INTERESTS OF THE STATE AT ALL TIMES.**

He was instrumental in bringing Governor Pardee and the California commission to a realization of the importance of this exposition.

Fenton, a year ago last spring, worked hard with the Commercial club to secure restoration of the \$3.10 lumber rate.

While he made an argument against enacting a flat passenger rate of three cents a mile, **HE ASSISTED IN THE VOLUNTARY ESTABLISHMENT OF THAT RATE BY ALL THE MAIN LINES IN THE STATE.**

In the fight for the development of Western Oregon Wm. D. Fenton has stood up for new lines and branches and feeders to the Harriman lines.

He has been one of the heartiest promoters of the line to Coos Bay, and is working today to secure approval of a line through from the Willamette valley into the interior and across the state.

That kind of a man, in the position he is in, is very valuable to Oregon.

HOMER'S AUTOBIOGRAPHY.
The Pacific Monthly for November has the first installment of Homer Davenport's life, written by himself.

It is nicely illustrated, and will run through several numbers of the magazine.

It is quite appropriate that the sketch of the foremost Pacific coast cartoonist should appear in the Pacific Monthly.

Mr. Davenport spent the summer at Portland, and made many old acquaintances new, and revived many reminiscences.

The sketches contain his most notable cartoons, and will be brought up to date with some new work.

Editor Wells, of the Pacific Monthly, is to be congratulated on this very timely scoop on all the other magazines.

New Method of Speed Testing.
Washington, D. C., Oct. 25.—The new protected cruiser Charleston, which will be tested for speed today, is the first warship tested in accordance with the new system of speed testing. Formerly the vessel was given a run over a staked course of a definite number of miles or knots. Under the present system the revolutions of the screws during a run in the open sea are watched, after the propellers had been carefully standardized. This method was shown at the recommendation of former Engineer-in-Chief Melville, and is regarded as the most scientific and accurate method yet devised for ascertaining the sea speed of a steamship. The Charleston will be given a run of four hours.

STATE PRINTER WHITNEY

Talks Salem Development and Incidentally Mentions Second Term

(Oregonian.)

"Salem people are pretty confident that within a year they will be connected with Portland by an electric road," said State Printer J. B. Whitney, at the Imperial hotel, yesterday afternoon. "The same firm controls Salem and Eugene street railways, and we are inclined to believe it is only a matter of a short time before all of the valley towns will be connected by an interurban railway. There are those at Salem who say they have inside information that electric cars will be running from Portland to the Capital City within a year."

"I haven't such a fat job as some people think I have," said Mr. Whitney, with a laugh, "but it is good enough for me to be after it for a second term. You may not believe it, but some persons think that all of the \$60,000 appropriated by the legislature to cover the printing of two years goes to me. They forget that paper and binding costs something, and that unless printers are not in the habit of working for nothing. If the printing should be let out by contract it would cost fully as much, if not more, than it does now. This has been proven in several instances."
