EXAMINE WATER MAINS

The four-inch water mains, to whose lack of sufficient water pressure was attributed a great deal of the department's difficulty in coping with the late cannery fire, was thoroughly tested Monday afternoon by a council committee, accompanied by Chief Savage of the fire department. This examination of the mains is preliminary to a report to be made to the council this evening, when the question of installing a number of new fire hydrants will be settled.

At a meeting of the council the matter of placing several new fire hydrants, to be erected on four-inch mains, was delayed until the members could have a report of the efficiency of a four-inch main in fighting a fire. At the time a number of councilmen objected to using any more four-inch mains for fire hydrants, as the pressure from such mains, they said, would not send a stream of water more than twenty feet from a hose nozzle.

Others demand that even such a supply of water was better than nothing, especially at the North school, which had absolutely no fire protection, and in the neighborhood of the Gideon Stols plant, which has petitioned the council for more fire hydrants.

If the mains are found to give an inadequate pressure, the council will take up immediately with the water company the question of the construction of six inch or larger mains wherever required. The council is now thoroughly interested in the matter of sufficient water supply in case of fire, and is trying to supply as quickly as possible whatever deficiencies exist in water service.

Ripe Red Raspberries.

Berries ripe on the bush are still being picked in Salem and vicinity, though Thanksgiving day has already been proclaimed, and turkeys are already beginning to appear upon dinner tables. This morning a branch fairly laden with red, ripe raspberries was brought into The Journal office by Mr. William Wisener, who stated that he had cut it from a bush in Bunkhorn's berry patch, on the west side of the river, on the Wallace road. Mr. Wisener said that less than one month ago Mr. Bunkhorn was still busy crating berries and shipping them to the Portland market. The bushes still bear large numbers of berries, either ripe and ready for the picking, or rapidly becoming so.

An English Author Wrote.

"No shade, no shine, no fruit, no flowers, no leaves,—November!" Many Americans would add no freedom from catarrh, which is so aggravated during this month that it becomes constantly troublesome. There is abundant proof that catarrh is a constitutional disease. It is related to scrofula and consumption, being one of the wasting diseases. Hood's Sarsaparilla has shown that what is capable of protracting scrofula completely cures catarrh, and taken in time prevents consumption. We cannot see how any sufferer can put off taking this medicine, in view of the widely published record of its radical and permanent cures. It is undoubtedly America's greatest medicine for America's greatest disease—catarrh.

WINTER RATES TO YAQUINA BAY

Oregon's Greatest Recreation and Health Resort at the Newport Beaches.

As a winter health and recreation resort Newport is the one par excellence. Recognizing this, and wishing to give the people an opportunity to breathe the fresh, pure ozone of the ocean, the Southern Pacific and Orville and Eastern railroads will resume the sale of tickets through Yaquina bay Saturday, October 21, and will sell same throughout the winter and spring on every Wednesday and Saturday.

The rates will be the same as during the summer and will be good for return 30 days from date of sale. Dr. Minthorn's Sanitary Sea Baths will be in operation during the entire winter, and treatments will be given daily. Hot and cold salt water baths can be taken every day in the sanitarium, and for anyone desiring rest, recreation and health, no place on the Pacific Northwest can be found equal to Yaquina bay.

Other Health Resorts Closed.
During the winter nearly all other health resorts are closed or difficult to reach, and none of them have the advantages of Newport and vicinity as regards climate, points of interest, recreation and amusement. For parties desiring to enjoy fishing, hunting, or seeing the ocean in sunshine and storm this famous resort is unequalled. The surroundings are ideal—beautiful scenery, climate mild, healthful and invigorating.

Cottage and Rent Cheap.
Neat clean cottages, either furnished or partly so, can be rented in the immediate neighborhood of the sanitary baths at about \$5 per month. Plenty of fresh milk, vegetables, honey, fruit, and all household necessities can be obtained at the lowest possible cost, while all kinds of fish and the famous rock oysters can be had in abundance for the trouble of securing them.

People troubled with the loss of appetite, insomnia, rheumatism or run down from any cause, will find Newport an ideal place to regain their health and vigor, or for rest and pleasure.

Full information as to rates, checking of baggage, etc., can be obtained from any S. P. or O. E. agent, or from A. L. Craig, general passenger agent S. P. Co., Portland; or J. C. Mays, general passenger agent C. & E., Albany, Oregon.

Rates from Salem to Yaquina, \$1.50.

American Federation of Labor.

Pittsburg, Pa., Nov. 14.—The twenty-fifth annual convention of the American Federation of Labor, coincident with the silver jubilee of the organization, which was founded in this city a quarter of a century ago, was opened here today. Samuel Gompers, the president of the federation, called the convention to order and delivered the opening address, in which he outlined the various important questions which are to be considered and acted upon by the convention. The number of delegates attending the meeting is about 600. The representation is distributed on the following basis: From national or international unions, for less than 4000 members, one delegate; for 4000 or more, two delegates; 8000 or more, three delegates; 16000 or more, four delegates; 32,000 or more, five delegates; 64,000 or more, six delegates, and so on at the same ratio. From central labor bodies and state federations, and from local trades unions, not having a national or international union, and from federal labor unions, one delegate.

Among the most important matters which will come for consideration in the convention are the questions in regard to the exclusion of Mongolian labor, the matter concerning the movement among printers all over the country in favor of an eight hour working day and the proposition of forming a Farmers' union to be affiliated with the American Federation of Labor. It is stated on good authority that the convention will insist upon the rigid enforcement of the laws excluding Chinese labor from this country. It is also stated that the movement in favor of an eight hour day for the printers will be warmly supported by the Federation.

It is understood that a determined

effort will be made on the part of the Federation of Labor to bring about the unionization of the farmers of this country and their affiliation with the American Federation of Labor for mutual benefit and protection. In Wisconsin and Minnesota a number of farmers' unions have been formed already and, according to the statement of the officials of the Federation, the affiliation of these farmers' unions with the American Federation of Labor is merely a matter of time. The leaders of the Federation are highly enthusiastic over the prospect of an alliance with city wage workers with the farm hands and farmers all over the country. The Western Farmers' Unions have sent delegates to the convention, and it is not expected that the proposition of an affiliation will meet with any serious opposition.

There is a strong faction which advocates not only the exclusion of Chinese labor, but also of Japanese, Koreans and others, and it is expected that an extension of the existing exclusion laws will be strongly advocated. As to European immigration it will probably recommend to order of educational tests and a poll tax. Other important matters which will be given considerable attention are the question of a universal eight hour day, child labor, sweat shops and federal injunctions.

Among the entertainment features of the convention will be a banquet for the delegates and a trip in a special train over the great terminal circuit about this city, which has become famous during the past year by the great number of important societies and individuals who have inspected the tonnage producing districts and the method of handling the traffic.

Son Lost Mother.

"Consumption runs in our family, and through it I lost my mother," writes E. B. Reid of Harmony, Me. "For the past five years, however, on the slightest sign of a Cough or Cold, I have taken Dr. King's New Discovery for Consumption, which has saved me from serious lung trouble." His mother's death was a sad loss for Mr. Reid, but he learned that lung trouble must not be neglected, and how to cure it. Quickest relief and cure for coughs and colds. Price 50c and \$1.00; guaranteed, at J. C. Perry's Drug Store. Trial bottle free.
