A Knowledge of Fitting Shoes Is as Essential as Good shoes

It seldom follows because a salesman consumes a great deal of time fitting your feet that he is taking an unusual amount of care. It is far more reasonable to believe he is lacking in foot knowledge. Did he possess that thorough understanding that is most requisite to success, he would at once diagnose your requirements for shoes, as your doctor would if you were ill. That knowledge which our shoe men possess will save you much time and trouble.

GIRLS BODY FOUND

Late this afternoon the body of Ida Schindler was found in the river several miles below Salem. The news was at once telephoned to the anxious family. Details of the discovery could not be obtained in time for the last edition of this paper, but the body gave evidence of having been in the water over 48 hours. It is believed that the girl drowned herself at the steambath landing, where she had early in the morning tried to find a boat to take her down the river. The current is supposed to have carried the body under the surface a considerable distance, before allowing it to come to the surface. The body will be brought to the Higdon undertaking parlors and prepared for burial.

FINED TWO CENTS AN ACRE

Omaha Nov. 14.—Bartlett Richards and James G. Comstock appeared before Judge Munger in the Federal court Monday and pleaded guilty of having illegally fenced 212,000 acres of government land in Sheridan and Cherry counties, Nebraska. They were fined \$500 each and assessed the costs of the case, amounting to about \$500. They were also sentenced to remain in the custody of the United States marshal for six hours. This latter part of the sentence was merely a formality to meet the requirements of the law, and both men were permitted to go to their hotel without escort.

The Comstock and Richard ranches were the largest in the country, and the cases have been before the court for two years. Defendants filed affidavits and other evidence several months ago, signifying their intention to fight the case. This decision, however was changed.

FORGED SMALL CHECK

Forgery seems to be a family trait with the Stocks, a scion of which family was arrested in this city last night, charged with the passing of a worthless check. While the young man, Percy Stock is in the hands of the local police, his father is being hunted by the Portland officers, also for the crime of forgery. He is said to have obtained money in that city on a worthless check drawn on a Seattle bank.

A letter found on young Stock when he was arrested yesterday, may lead to his father's arrest. The letter was written by Stock's step-mother, and stated that the father was ill in San Francisco. The Portland authorities have been notified of the fact.

Percy Stock forged a check with the name of Fred Williams, and pawned it with a local saloon keeper for \$5. The check was drawn for \$25. Later Stock returned and tried to get \$15 additional from the saloon keeper, who became suspicious, investigated and found that the check was fraudulent. Stock's arrest followed. The young man has a very prepossessing appearance. At the preliminary hearing this afternoon he was bound over to await trial for forgery before the circuit court, and is now in the county jail.

A Pleasant Way to Travel.

The above is the usual verdict of the traveler using the Missouri Pacific railway between the Pacific coast and the east, and we believe that the service and accommodations given merit this statement. From Denver, Colorado Springs and Denver there are two through trains daily to Kansas City and St. Louis, carrying Pullman's latest standard electric-lighted sleeping cars, chair cars and up-to-date dining cars. The same excellent service is operated from Kansas City and St. Louis to Memphis, Little Rock and Hot Springs. If you are going east or south, write for particulars and full information.
