### Opening the Metropolitan Season.

New York, Nov. 20.—The opening performance of the season at the Metropolitan Opera House this evening promises to be the most brilliant event of the season. Mr. Couriel, the director of the opera, has selected Goldmark's grand opera, "Queen of Sheba," for the opening night, and has made the most extensive preparations to make the performance a notable one. The opera will be sung in German and the cast will include Mme. Nordica, Miss Walter, Knot, Van Rooy and Miss Alton. The staging, to which Mr. Couriel paid particular attention, will be on the most magnificent scale. One thousand, two hundred and fifty-four new costumes, designed by a famous German artist, were made in Vienna for this performance, and a large quantity of properties of the most exquisite make have been imported for the same purpose.

The audience will be unusually brilliant at the opening performance. Every box in the house has been engaged by members of the exclusive society, and every seat in the large house was sold out several weeks ago.

## BRONCHITIS

G. W. Putnam Co. Tell the People Quickest Means to Cure It.

Asked one day in his store the question "What is good for bronchitis?" a member of the above firm answered: "For years old fashioned cod liver oil has been known to possess the most remarkable curative and healing properties for throat, bronchial and lung troubles of anything known to medicine, but on account of the grease which enveloped its curative principles, it has been impossible for many people to take enough of it into their systems to combat a thoroughly settled disease without clogging the system and upsetting the stomach."

"Now, however," continued he, "we have Vinol, which contains in a highly concentrated form all of the medicinal curative elements of cod liver oil actually taken from fresh coas' livers, without a drop of oil or grease to upset the stomach and retard its work, and physicians agree that it is the greatest cure for all throat, bronchial and lung troubles known to medicine."

Miss Anna Ray writes us that after suffering for five years with bronchitis, and trying all kinds of medicines without relief, Vinol cured her, and we have hundreds of just such letters.

We wish every person suffering from chronic colds, coughs, bronchitis, and every aged, weak or convalescent person who needs a healing, strength-creating and blood making tonic would try Vinol on our guarantee to return the purchase money if it fails. G. W. Putnam Co., Druggists.

## WILL MAKE STOVES

The contract for convict labor at the state penitentiary, which includes the operation of the large shops located in the prison yards, was let Saturday by Governor Chamberlain. The Lowenberg-Going Company will again operate the stove foundry, agreeing to continue for two years, though the governor reserves the power to revoke the agreement after six months' notice.

The new arrangement goes into force today, when the shops will reopen after having undergone a complete renovation. The changes and repairs that have been made were described in The Journal last week.

The new contract binds the Lowenberg-Going Company to pay the state an annual rental of \$2400 for the shops, an increase of \$400 over the former rental. The company also agrees to pay the state 3 1/2 cents per hour for convict labor, and to employ a minimum of 100 prisoners daily. This rate is the same as has been paid heretofore.

**Digger Must Come Back.**  
Requisition papers were issued this afternoon by Governor Chamberlain on the governor of Missouri for the return of Willis Digger, indicted in Sherman county for the crime of larceny by bailies. The papers were brought to this city by S. B. McCoy, deputy sheriff of Sherman county, who will go East after the prisoner.

Digger is accused of selling mortgaged goods, and appropriating the proceeds. He fled from Sherman county, and was captured in Polk county, Missouri, where he is now being held.

**Willamette Locks Business.**  
The Portland General Electric Company today filed with the governor a quarterly statement of the business done and passengers and freight carried through the Willamette locks. The report is of importance on account of the pending suit of the state against the company, claiming ten per cent of the profits accruing from the operation of the locks, since the year 1874.

The amount involved in the suit aggregates about \$30,000, though the company claims there have been no profits to share with the state. The report submitted today shows an immense amount of business has been done during the last three months. A total of 10,259 passengers passed through the locks, paying 10 cents per passenger for the privilege; 2282 tons of freight also went through, in addition to 235,179 feet of logs, and a great amount of miscellaneous freight, lumber, livestock, etc.
