

BEECHAM'S PILLS

Never permit yourself to become constipated. Whenever the bowels fail to act regularly, the clogging and stoppage generate poisons that sicken and endanger the whole body. It is vitally important to guard against a condition that will soon wreck the health unless the cause is promptly removed.

When troubled with costiveness or constipation do not resort to violent purgatives or cathartics which only injure the delicate lining of stomach and bowels, and have no constitutional effect.

A Safe Laxative

for men and women, old and young, is found in Beecham's Pills. They regulate the bowels more quickly and effectually than any other medicine. They gradually tone the digestive organs, gently stimulate the liver, soothe the mucous membrane of the stomach and bowels, increase the natural secretions and soon establish a complete cure. Unlike other laxatives it is not necessary to constantly increase the dose to get the desired effect.

Beecham's Pills are a natural laxative and may always be depended on to restore normal action to the bowels, liver and kidneys. Buy a box.

PAY OF ACTORS IN EUROPE

According to a writer in the Neue Zeit, in Berlin there are twenty-five theaters open on an average for ten months. These theaters employ about 1500 persons, of whom 1026 receive from nothing to \$50 monthly, an average of \$300 yearly; 253 persons receive from \$50 to \$100 a month, an average of \$745 per year; 222 persons receive over \$100 a month, an average of \$2,240 per year, which high average is produced by the one or two very high salaries. In the Viennese and Hamburg theaters the results are about the same as in Berlin: One hundred persons with a yearly average of \$2240 per year, 110 with \$765 and about 600 with \$300 per year. In all the other theaters the number is 1300 persons with \$1750 income per year, 700 persons with \$750 and about 2160 with \$400. If now we take into consideration the artists of every description, including the salary derived from summer engagements, we find that 16.5 per cent have an income over \$500, 12.5 per cent between \$400 and \$500, 43 per cent between \$250 and \$400, 20.5 per cent between \$200 and \$250, 5 per cent up to \$200 and 2.5 per cent receive nothing. The average income of the 18,360 persons was \$470 per year, or a monthly income of \$40.

The writer in the Hamburger Nachrichten gives his attention to conditions in France. According to this authority France supports 30,000 theatrical people. But, as the German writer observes, the public has no idea how unevenly the wages are distributed. It is constantly being proclaimed that Coquelin earns many hundred thousands of francs each year; that Sarah Bernhardt, at the Renaissance Theater, receives \$300 for every night's performance; that Madame Hecqne is paid \$160 for every night in vaudeville, and the opera stars are as generously rewarded. For example, Lassalle receives \$2200 per month; Jean de Resake, \$1200, and his brother, \$1000 per month. But when these salaries are paid not much is left for the lesser lights. Of the different classes of stage artists the opera singer has the best chance. If this person does not become ill, he or she may reasonably count on a care-free life. Even in the French provinces tenors earn \$200 to \$1400 per month, and in comic opera \$200 to \$500 per month. The case of the actor, however, is different. If we do not consider the few public favorites, an actor of the first rank only makes \$160 to \$200 in the provinces per month. In Paris the same is true. For the lesser lights, in both drama and opera, the average salary is \$40 per month and over less. Those who fare the worst, however, are the actors and singers in the cafes. At these places the best paid persons only receive \$300 to \$400 per month, but the wages of the others are on the average but \$40 to \$50 per month.—Public Opinion.

Vinol's Reliability

Prominent Physicians Join Our Local Druggists, G. W. Putnam Co., in Praising This Meritorious Preparation.

Countless physicians and druggists are now prescribing and endorsing Vinol as the most valuable cod liver oil preparation known to medicine, and it is fast superseding all other forms of cod liver oil and emulsions.

This is because Vinol is guaranteed to contain in a highly concentrated form all the medicinal, curative elements of cod liver oil, actually taken from fresh cods' livers, but without a drop of the useless, system-clogging oil to upset the stomach and retard its work.

Vinol is not a patent medicine, as everything in it is named on the label, and it can be seen that it is absolutely free from drugs and all injurious ingredients.

A prominent physician writes: "I believe Vinol to be the most valuable cod liver oil preparation, the best body-builder, health-restorer, and strength creator known to medicine today, and I should be very sorry to have to do without Vinol in my practice."

A member of the above firm says, "In cases where cod liver oil, emulsions and other tonics fail, Vinol will heal, strengthen and cure."

In the strongest manner we endorse and guarantee Vinol to create strength for old people, weak, sickly women and children, and after severe sickness, and to cure hacking coughs, chronic colds, all throat and bronchial troubles or return money if it fails. G. W. Putnam Co., Druggists.

Arrested in Los Angeles.

The following item from the Los Angeles Times evidently refers to Salem's late lamented Davenport of Jim Jitsu fame, who faked the Salem public pretty severely less than a year ago. The picture which accompanies the sketch would go a long way toward identifying him as the same man. "Julius Berg, alias J. W. Davenport, was confronted yesterday with two charges of burglary and one of assault with intent to kill.

"Berg's identification was established beyond a doubt. He is an escaped convict from the Minnesota state reformatory, where he was serving a long sentence for burglary.

"Berg was arrested Tuesday afternoon after a sensational pursuit by members of the Santee street engine company. His apprehension was due principally to the courage displayed by C. K. Chamberlain, a driver for Engine Company No. 8, who was shot at four times.

"Berg is a desperate character, as his record in the hands of the police officials give evidence. He is a man of 30 years, and has every indication of being a desperate criminal. His records show repeated arrests in all the principal cities of the country on various charges, the majority being for burglary."

The Roseburg-Myrtle Point stage met with a serious accident recently, while going over Sugar Loaf mountain, five miles east of Myrtle Point, in making a turn in the road the rear wheels left the grade, overturning the coach, throwing the driver and four passengers out on the embankment, which at that place is about 200 feet down to the river. Two horses were killed, and the driver seriously injured. Among the passengers were F. W. Valle, division superintendent of the railway postal service, P. E. Whitney, chief clerk, both of Portland. Mr. Whitney received a scalp wound.

A Dismal Calamity.

It is a dismal calamity, when you lose your health, because indigestion and constipation have sapped it away. Prompt relief can be had in Dr. King's New Life Pills. Mark Richard, of Corvallis, shot a hybrid—a cross between a China pheasant and a grouse—last week. It is a large and well-developed bird. Mr. Richard says that in flying it differs from the China pheasant, as it spreads its tail. The feet and legs of the bird are those of the grouse, and in appearance it looks a great deal like the pheasant.

Grading Begins today. Actual work commenced this afternoon at 1 o'clock on the improvement of South Commercial street. At that time the Warren Construction Company, which holds the contract for paving, put 20 men at work with scrapers, preparing the road bed for its crushed rock.

From now on the work will be hurried to completion. According to Superintendent Labey of the company, the job will be finished within the contract time, December 18th.

The crusher south of the city has been at work three or four weeks preparing rock for the street. There is a large supply now on hand, and it will soon be hauled to the city over the special track constructed for the purpose.

The Commercial street improvement, in South Salem, is one of the most important ever made in this city. The total cost will be \$10,400. The mending of the thoroughfare is supposed to be only a forerunner of more extensive paving work to be done soon on the central business streets of the city.

A Pleasant Way to Travel.

The above is the usual verdict of the traveler using the Missouri Pacific railway between the Pacific coast and the east, and we believe that the service and accommodations given merit this statement. From Denver, Colorado Springs and Denver there are two through trains daily to Kansas City and St. Louis, carrying Pullman's latest standard electric-lighted sleeping cars, chair cars and up-to-date dining cars. The same excellent service is operated from Kansas City and St. Louis to Memphis, Little Rock and Hot Springs. If you are going east or south, write for particulars and full information.

ROUND TRIP FRIDAY

If 200 go to Corvallis, Special Train Will Bring Them Home—Tickets \$1.35

Travelling Passenger Agent Jones has notified Manner Savage of the Willamette University football team that if 200 people will agree to go from here to Corvallis next Friday to see the big game, that a rate of \$1.35 will be given for the round trip and a special train will be sent to bring home the crowd after the game. Going up, the trip will be made on the regular train leaving Salem at 11 o'clock and reaching Corvallis soon after 1, but as there is no train returning after the game the company has made arrangements to send a special train for the return trip.

A great deal of interest is being manifested in this game and it promises to be even a better game than the one between Oregon and Willamette or the one between Oregon and O. A. C. Neutral persons who have seen both teams play, say that they both play the same style of game, that they are evenly matched, and that it will be a battle royal.

The local boys, though saying that they are going to win, are nevertheless practicing as if they were expecting the hardest game of the season, and well they may, for the farmers have a bunch of players who are in the game all the time.

Manager Savage must know by Wednesday night how many are going and for that purpose has left papers at both of the book stores, Meyers' barber shop, Waters' cigar store and Wiprut's cigar store. Anyone wishing to go should see that his name is on one of the lists at once, as it comes on a school day not so many students will be able to go as went to Portland for the Multnomah game, but coming on Friday many business men and their employes will be able to get off, who have not yet been able to see one of the Saturday games played in this city.

In Corvallis all the business houses will be closed and people for miles around have been planning for weeks to see this, which they consider the greatest game of the northwest, for this or any other season.

TWO MAIDENS.

A Silly Little Fable, but One That Points a Moral.

Once there were two maidens who sought to catch a nice young man, who was also a good thing. And it was a false start in the eyes of the underscorer, for the one was exceedingly fair to look upon and dressed stylishly, while the other was plain of countenance, and her wit was always showing through her pompadour. The pretty girl smiled sweetly on the nice young man, who was also a good thing, and talked to him till she dazzled him with her wit. The plain one gazed wonderingly at him, and made him talk to her of divers things, while she listened entranced at his wisdom and learning. He took the pretty girl out riding and to the theater and bought her candy and flowers, and all the knowing ones said she has struck a winning gait on the home stretch, when one day he married the plain girl and took her on an automobile wedding tour of Europe.

The pretty girl had made him very much pleased with her, but the plain girl had gone her one better and made him very much more pleased with himself.

WHEN IS A MAN DRUNK

The Oakland, Cal., Tribune facetiously asks "When is a man drunk?" and adds: "Men differentiate in their 'tank' capacity. Some men will stand up to the bar and ladle it in till the scalding tears they shed will light an alcohol lamp, without getting drunk. Moreover, John Barleycorn's influence operates so variously on different people, it will make one man sing, another dance, a third silent, a fourth gurgling, a fifth anxious to fight, a sixth in love with everybody. According to temperament men grow condoling or suspicious, liberal or parsimonious, amorous or thin-blooded, courageous or cowardly, when in their potations. One man's legs get limp while his brain is clear. Another grows maudlin of speech while his legs are steady and his form erect." This is all by way of a discussion of that degree of pollution which fitly demands the appellation "a skato wit a load of peaches."

It's easy! He's drunk—good and drunk—when his wife catches him at it. He may be able to wobble in a straight line and say "Constantinople" and "Chickamauga" and "truly rural" until the cows come home—but she never makes a mistake. Her scent is keen and her intuition superhuman and discriminating! When she rises on her elbow and hisses like an escape valve, "John Henry Jones, you're drunk! DRUNK!" there's no use in taking a brace and denying the allegation. You're drunk, you know it, and you've been "caught with the goods on," as slang parlance has it. The thing to do is to help her forget it as soon as possible. There's no use in cherishing jag memories anyhow—but, to cease digression, I hope none of my readers ever get druer—I mean—caught! There is really no good excuse for keeping a woman rolled up settling the hard problems of life such as, "When is a man drunk?" and "How to be happy though married."
