ABOUT FREE SEEDS

Santa Yammer Criticizes the System, and Grows Contented

A dispatch yesterday, dated at Washington, D. C., stated that the agricultural department was about ready to begin the distribution of 38,000,000 packages of free seeds to the great American public, regardless of sex, age or color, and being assisted by the congressmen and senators.

It is worse than a lottery in its other workings. The man who wants to grow celery or tomatoes gets a prize package of string beans, carrots and sugar beets; while the lady who prepares little corners around the porch for honeysuckle, woodbine or roses, finds that she is up against Early York or Flat Dutch cabbage, or mammoth pumpkins.

These little idiosyncrasies are to be expected, and should be borne with equanimity. It is the pamphlets prepared by the department giving full instruction for planting and cultivation that lead one to believe the civil service is deucedly uncivil, or else the clerks have developed a sense of humor that borders on the fiendish.

A Little Experience. It was only a few years ago that a neat little package of variegated beans together with some slips looking like licorice root, reached our quiet little home through the post-office. Recognizing the package by its frank expression, where the postage stamp should have been, we turned it over to the partner of our bosom and sharer of our wealth, troubles and other things.

that had set her thinking. Experience had taught us to be very careful when she did that, and we were just preparing to take a short walk for our health when she looked up with a puzzled expression in the eyes that assisted in our finish in pre-nuptial days, and remarked, "I don't quite understand this, do you?" We confessed at once that we didn't, and clinched it with the statement that if she could not understand it, it was surely incomprehensible. We thought that ought to fetch her, but it didn't. She passed the parcel over to us with the request that we read it, and this is what we read:

Some Minute Directions. "The enclosed slips should be planted in May, also in the ground. They should be set in a well made bed, the soil being worked up until perfectly loose. The slips will sprout in two weeks and when in bloom a wooden block should be inserted in the flower. The blocks should be changed and a larger one inserted each day, until the slips become large enough for your pillows, when the bed should be spaded for a new crop. The variegated seeds, if planted in patches, will soon make a crazy quilt over each bed, and

Tell Why They Endorse Vinol So Highly.

First: Vinol contains in a concentrated form all of the medicinal curative elements of cod liver oil, actually taken from fresh cod's livers, but without a drop of oil to nauseate and upset the stomach, and retard its work, therefore where old-fashioned cod liver oil or emulsions will do good Vinol will do far more good.

Second: Because Vinol is not a patent or secret medicine; it contains no injurious drugs to react upon the system, and you know just what you are taking, as everything it contains is printed on the back of every bottle.

Third: Because Vinol acts first upon the stomach, creates a healthy appetite, tones up the digestive organs, purifies and enriches the blood, and in a natural manner health is restored, and strength is created.

Fourth: Since we have put Vinol on the market our admiration for it has steadily increased, because it rarely disappoints a customer, in fact we can truthfully say we never saw a medicine more satisfactory to create strength for old people, weak, sickly women and children, nursing mothers and to build up strength after a severe sickness.

Again Vinol is endorsed by eminent physicians and guaranteed by over two thousand of the leading druggists of this country. These are some of the reasons why we believe in Vinol. G. W. Putnam Co., Druggists.

by the use of a few newspapers the beds can be provided with sheets, which may also be used for shams. The bed, if made early, will have its own spring, and a few castor beans at the corners will provide both the castors and the oil for the bed posts, thus permitting the bed to be taken in when it rains without disturbing the plants. The department requests you report the results of your experiments."

What's the Use? We confessed our inability to throw light on the subject, and, for a wonder, our better half did not insist on our making the experiment. That's what we object to about the seed business. Why should the tolling masses be taxed to furnish vegetable bacteria to burrow in the earth's epidemics? Why should the unwary and unwisdom husbandman be made to bow his back by an enthusiastic husbandwoman in a futile attempt to raise blue roses from mustard seed, that cost the government \$8 an ounce, Troy, and the postage, too?

Why should he be compelled to delve in the earth with a misfit shovel and an overgrown hoe in a vain attempt to grow figs from cactus, or radishes from dandelion down, and all the while smile at a measly woman with her head tied up in a sling, or a sunbonnet, and smile again, and be that much more a villain? Why should he be forced to undertake to grow prize pumpkins on a city lot that cost him \$100 a front foot, and blow himself for \$7.75 for garden tools to do it with, when he can buy all the 'punks' he wants in a year for two bits, Mexican? We tried a whole package of seeds once and under our best girl's all compelling eyes worked like a Senegambian helot beneath the lash of a Spartan master for a whole summer, and produced the finest crop of jimson ever raised in the state. We also produced nine varieties of useless vegetation unknown to these parts, that stumped all the botanical savants, including E. L. Smith of Hood River and Dr. Withycombe, besides the senior class at the O. A. C., and the fish hatchery experts on the Clackamas. These were accompanied by a crop of mixed profanity also unknown to Oregon, but indigenous to Nevada. Down with the seed scheme. If our congressmen cannot be elected without the aid of assorted profanity germs put up by a \$1500 a year dudefit in Washington, let them stay at home. A department that gets up a scheme of subsidizing for those who plow the raging canal, is not calculated to superintend the selection of seeds for the uninformed, and the suggestion, made by it, that by planting an almanac a good crop of dates might be raised, places it beneath contempt.

"Them" is the sentiment of SANTA YAMMER. Faith and Fact. Faith is one thing and fact is another, it sometimes takes any amount of faith to produce one fact. Years of earnest work and faith have produced one fact about medicine that is deserving of mention here. If people who are troubled with general weakness through overwork, dissipation or exposure can get a remedy that will make rich red blood from the food they eat, their return to health is assured. Good blood is the life of the body as well as the nerves. Weak, sickly, pale people who suffer with indigestion, dyspepsia, sick headache, loss of strength and ambition, having dizzy spells and always tired, can be cured sound and well with Dr. Gunn's Blood and Nerve Tonic. Sold by druggists for 50 per box, or 3 boxes for \$2. This Tonic acts in a common sense way, curing disease by giving strength to resist it.

Unseen Danger is on our Track. From the time of our birth till we die from the last time. The best defense from the dangers of disease is vigor of body and activity of the natural functions. The kind of assistance is important. It must not be stimulation for that gives but temporary effect, and the reaction is more than depressing. Take a tonic—one that will re-establish normal digestion and assimilation and prove a reconstructive rather than a promoter of waste. This will give nature a fair chance to put in motion normal work of repair and tissue building. Such a tonic was grown in Nature's Laboratory, hidden in the ground and brought thence forty years ago by Dr. R. V. Pierce, who has made the treatment of lingering diseases his life-long study and care. He uses glyceric extracts instead of alcoholic ones, exactly proportioned and combined by processes of his own invention, first used in his private practice and now given out freely to the world in his "Golden Medical Discovery," which is composed of Golden Seal root, Queen's root, Stone root, Black Cherry bark, Blood-root and Mandrake root. Mrs. A. T. Jones, of 933 Hayes Street, San Francisco, Cal., writes: "An a child I was delicate, and great care was taken of me because some of my relatives had died of consumption, although my father and mother were healthy. I grew up with only the ordinary diseases of all children, but about two years ago I contracted a severe cold, which would not yield to such home-treatment as was handy. Doctors were tried, but after three months of this treatment I was only worse. Then I was advised to try Dr. Pierce's Golden Medical Discovery, and I had to say that three bottles not only cured me of the cold and cough, but made me feel better than I ever had before. I will always have a bottle of this medicine in the house. These tiny, sugar-coated anti-bilious granules regulate and invigorate stomach, Liver and Bowels. Do not forget the "pill habit," but cure constipation. One or two each day for a laxative and regulator, three or four for an active cathartic. Once tried, always in favor. Put up in vials; always fresh and reliable.

As a winter health and recreation resort Newport is the one par excellence. Recognizing this, and wishing to give the people an opportunity to breathe the fresh, pure ozone of the ocean, the Southern Pacific and Corvallis and Eastern railroads will resume the sale of tickets through Yaquina bay Saturday, October 21, and will sell same throughout the winter and spring on every Wednesday and Saturday. The rates will be the same as during the summer and will be good for return 30 days from date of sale. Dr. Minthorn's Sanitary Sea Baths will be in operation during the entire winter, and treatments will be given daily. Hot and cold salt water baths can be taken every day in the salt-tarium, and for anyone desiring rest, recreation and health, no place on the Pacific Northwest can be found equal to Yaquina bay. Other Health Resorts Closed. During the winter nearly all other health resorts are closed or difficult to reach, and none of them have the advantages of Newport and vicinity as regards climate, points of interest, recreation and amusement. For parties desiring to enjoy fishing, hunting, or seeing the ocean in sunshine and storm this famous resort is unequalled. The surroundings are ideal—beautiful scenery, climate mild, healthful and invigorating. Cottage and Rent Cheap. Neat clean cottages, either furnished or partly so, can be rented in the immediate neighborhood of the sanitary baths at about \$5 per month. Plenty of fresh milk, vegetables, honey, fruit, and all household necessities can be obtained at the lowest possible cost, while all kinds of fish and the famous rock oysters can be had in abundance for the trouble of securing them. People troubled with the loss of appetite, insomnia, rheumatism or run down from any cause, will find Newport an ideal place to regain their health and vigor, or for rest and pleasure. Full information as to rates, checking of baggage, etc., can be obtained from any S. P. or C. E. agent, or from A. I. Craig, general passenger agent S. P. Co., Portland; or J. C. Mayo, general passenger agent C. & E. Albany, Oregon. Rates from Salem to Yaquina, \$4.50.
