STATE NEWS

Glendale has a new jewelry store. Snow is two and three feet deep in the Blue River country.

Thomas Dine, aged 37 years, of Roseburg, died at that place Sunday.

George Kanpp sold \$75 worth of chittim bark off his place on the Stuslaw last week.

"Busty gold" in large quantities has been discovered in the mud at Gold Beach, Curry county.

The closed season for salmon fishing began last week. The run of silver-sides was light this year on Siuslaw.

Judge Lionell R. Webster, of Portland, will deliver the memorial address at the Elks' memorial service at Roseburg Sunday.

It is stated from the state salmon hatchery on Lake creek that up to November 20th they had taken 1,700,000 chinook salmon eggs, and expect to get at least 2,000,000 more before the close of the season.

Five thousand turkeys was the number shipped out by Roseburg merchants this week for Thanksgiving dinners. Some of these went to San Francisco, but the heavier shipments went to Seattle and Tacoma. The prices paid were 16 cents per pound for live birds and 18 cents for dressed. With an average dressed weight of over 12 pounds each, the price realized by the growers approximates \$2.25 per head.

Catarrh Cannot be Cured with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

F. J. CHENEY & CO., Props., Toledo, O.

Sold by Druggists, price 75c. Take Hall's Family Pills for constipation.

A Queen as a Dramatist.

Rome, Nov. 28.—It is reported from Naples on the best authority that Dowager Queen Margherita has just finished a play which she has been writing during the last two years, and that it will soon be presented at one of the theaters of this city. No information is regarded to the plot or details of the play has been given out, but it is believed that the plot of the drama is of an historical character. The preparations for staging the play have begun already.

The Business Man

Is rare indeed who does not realize the advantage of keeping a bank account. Yet while aware of the benefits many men hesitate to open an account because they think their transactions are not large enough. They are in error. The banking system is for the man of small means as well as large affairs.

THE SALEM STATE BANK.

Is at the service of every one. It will open an account just as willingly with the man of small means as with the capitalist. If you have been hesitating, don't do it any longer. Start an account today, even if it is only with one dollar.

SOCIAL EVENTS

THANKSGIVING BALL.

Modern Woodmen Preparing for a Grand Time Thursday Night.

The arrangements have all been completed for the Thanksgiving ball, which the Modern Woodmen are to give in Tioga hall Thursday night.

The committee has left nothing undone that would add to the pleasure of those who enjoy "tripping the light fantastic." The dreamy waltz, the lively two-step and the stately lancers will all have a place on the program. The best of music has been secured.

Ladies will be admitted free, while gentlemen will be admitted upon the payment of 50 cents. Tickets can be purchased at either of the cigar stores, at E. L. Irwin & Co's shoe store, and at Anderson's barber shop.

Open at Last.

After several weeks of delays, consequent upon slow freight, detained goods and unfinished work about the store, I am at last able to say positively that my new jewelry and optical establishment at 125 Commercial street will be open Wednesday morning, November 29th. Don't fail to come in just to see us and our handsome new place of business. We have all the newest things in our equipment, such as show cases, wall cases, machinery and appliances of every kind. Every wearer of eyeglasses will be interested in our new machinery by which we can manufacture the most complicated lenses known to the profession. Everything else in keeping. Without exaggeration this is the most modern up-to-date small establishment on the coast, and there are none in the East of its size that can excel it. Come in for a friendly call and see the new things.

CHAR. H. HINGES.

To Preserve Multnomah Falls.

The fight to preserve Multnomah Falls is now on in good earnest. This morning the state land board authorized Arthur C. Spencer, of Portland, to contest on behalf of the state the claim of George Weatherby to 53 acres of land just above the falls, which he has purchased from the government, as attorney in fact for Adolphus W. Weir. Weatherby filed on the land above the falls, tendering the government soldier script in payment. Spencer, who is general counsel for the O. R. & N., will contest the filing on the ground that the land in dispute belongs to the state as swamp land, and that the government consequently had no right to dispose of it.

It is understood that if Weatherby is successful he will divert the waters of Multnomah creek and use it to develop water power, destroying the beauty of the falls. The railroad company, on behalf of the people of the state of Oregon, is anxious to take up the fight to preserve the cataract. At present all railroad trains are stopped at the falls to give passengers an opportunity to view the natural wonder. If Weatherby's plans succeed, water will no longer dash over the brink of the mighty cliff, but every drop of it will be drawn away, and sent down to the lower level in pipes for the control of its power.

It is expected that Attorney Spencer will enter suit immediately against Weatherby. He will fight the cause in the courts absolutely free of all cost to the state, which was the one condition imposed by the land board when it authorized him to commence litigation in the name of the state.

Thanksgiving Dinner.

From 5:30 to 7:30 p. m., at the Wilamette hotel. Telephone number of plates you want reserved.

Ready to Build Alaskan Railroad.

Philadelphia, Pa., Nov. 28.—D. A. McKeazie, the manager of the Alaskan Railroad company, has gone to Pittsburgh to supervise the shipment of the large amount of railroad material which has been contracted for to be used in the construction of the Cordova road from Cordova Bay, Alaska, to Eagle City, on the Yukon, a distance of 500 miles. The actual work on the line will be begun in the spring. The surveys were completed in September and contracts for the material needed and for its shipment to Alaska were at once made.

It is proposed to establish big terminals at Cordova Bay. The road will be built up the Copper river and through one of the richest copper sections of Alaska. The Copper river valley is a section comprising about 35,000 square miles, with copper and coal deposits of immense value, and in addition to the main line of the road branches will be constructed to all the sections that are being developed at this time. It will take about three years to complete the entire system, but as fast as the road reaches any of the freight producing regions it will be placed in operation.

X-RAYS

If robbers don't quit blowing bank safes pretty soon the cashiers will have to form a union and boycott them.

Honey's visits to Washington are neither few nor far between.

Wonder if Portland will let the first congressional district have a chance to select its congressman.

Coos Bay looms up as about the biggest thing on the map of Oregon just now.

Honey, the balloonist, has been using his parachute ever since he made the San Francisco ascent in his threat to put Beaf in the penitentiary.

Is it not about time for that insurance investigation to stop, and a wholesale prosecution of the grafters to begin?

Fine weather for the farmers to get in their fall wheat, but it will have to last to next July to accommodate all of them.

The Commoner devotes a whole page to advertising the merits of "Liquorzone." This may not be so honest as Mr. Bryan's advocacy of Democracy, but there is coin, gold at that, in it.

Secretary Wilson has issued a very flattering statement as to the country's immense crops. It is safe to say there is whole lots of misinformation besides cotton statistics in that leak.

Hubert Howe Bancroft has sold his library to the University of California. The first thing the directors should do is to fumigate Bancroft's history, which it no doubt contains, soak it in anti-septic, and then burn it.

A British officer has discovered that the Hindus used telephones 2000 years ago—and an Eastern Oregon paper says the proof of it is in that part of the state, as the instruments have been sent there.

Smiles From the Typewriter

The Dallas city council is considering vitrified brick for street paving.

Albany Democrat (always clever): Fourteen hundred of Salem's population are in the insane asylum.

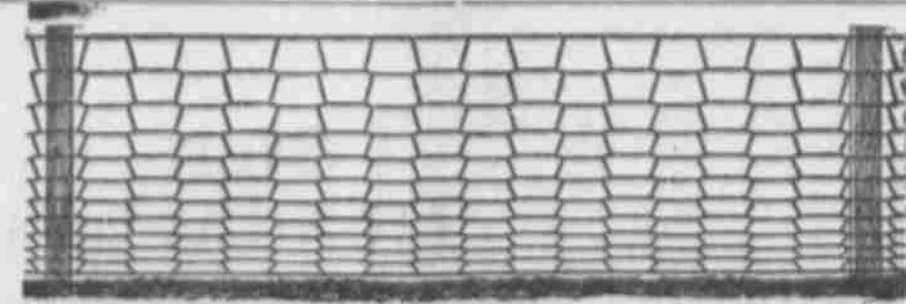

The Eugene Guard, life-long Democratic, has come out as an independent paper. Getting ready to support Roosevelt.

Instead of one fairly good telephone service it seems we are doomed to have to pay for two and neither one of them satisfactory.

The Albany Argus figures it out that no Marion county man stands a ghost of a show of going to congress. It will change its mind.

Of course, Portland has a candidate for secretary of state, and no Marion county man can be represented as having a ghost of a chance.

The Ashland Tribune is one of the first to attack the "patent medicine graft." The same paper says the high license candidate for mayor

Keystone Fencing

Get your order in for delivery from car to arrive in a day or two and save the special price. Keystone Fencing pleases the man who has used it, and you'll agree if you come and examine it.

Notice that the stay wires are continuous and that they interweave with the main wires at every joint. Also that the top and bottom wires are twisted cables, making a very strong yet elastic fence with all the "give and take" in the weave, no kinks being necessary.

All heights on hand. Keystone is solid No. 12 wire. Peoria is same weave, but No. 13 wire.

Fire at the Proving Grounds.

New York, Nov. 28.—A fire at the United States proving grounds at Sandy Hook this morning destroyed a number of buildings, including the shops.

Attention, Illhee Members.

The turkey bowling contest takes place at the club tomorrow evening. Members should not fail to attend.

Diphtheria at Albany.

The 5-year-old daughter of Mr. and Mrs. Charles Ferguson, residing at East First street, died last evening at about 3 o'clock, of diphtheria, and was buried this forenoon. Mrs. Ferguson is just recovering from the disease, and a boy, who is ill with it is gradually improving. Another little girl in the family has not yet taken it, so it is to be hoped will not.—Albany Democrat.
