

The Delicious Fragrance

from a hot Royal Baking Powder biscuit whets the appetite

ROYAL Baking Powder improves the flavor and adds to the healthfulness of all risen flour-foods. It renders the biscuit, bread and cake more digestible and nutritious.

Royal Baking Powder makes hot breads wholesome. Food raised with Royal will not distress persons of delicate or enfeebled digestion, though eaten warm and fresh.

THE PRESIDENT'S MESSAGE.

The annual message of President Roosevelt to Congress, which met Monday, was delivered, Tuesday, and is longer than usual.

It consists of about 25,000 words, more than any ordinary man or woman cares to read, even from the chief executive.

Contrary to its usual custom, The Journal only gives the best points in a condensed form in the words of the author.

He makes prominent mention of corporations and the trusts, and the necessity for their subordination to the interests of the people.

One radical proposition, and it will prove catchy with many people, is that any rebate be made a basis rate by means of a commission.

He also proposes government control of the great insurance companies. All these schemes will only hasten general acceptance of socialism.

The government regulation of these great trusts does not amount to much when they "finance" the campaign managers of the government.

To fine the managers of the beef trust \$5000 each, instead of putting them in jail for violating law, is like fining a common law breaker 5 cents.

The people will appreciate all that can be done against the great robber trusts if the doing it does not really strengthen it.

Brownsville Times: Portland will make a mighty effort to capture the successor to Senator Mitchell.

Observant Albany Democrat: Men! Not many trains between Albany and Portland without a spoony couple on board.

If the people really want a man in an office they will rise up in their majority and put him there when they get ready.

If Willamette University can play congressional politics as well as it plays football its candidate will cut quite a swath.

The horse editor man has not the heart to oppose woman suffrage. Take it in school elections, they always want good schools and good directors and good teachers. Besides a lady gave him a bouquet once.

The Oregonian says: "The editor of a great newspaper is not going off, in his advancing years, in pursuit of baubles." From which it may be inferred that Bro. Scott has discovered his limitations and will make no further attempt to butt into the United States Senate.—Pineville Review.

A young dog, answering to the name of Rover, kind to children and a good watch dog (and has other virtues) has come to live at my house. I do not need another dog. His politics is right—neither chases cats, sucks eggs nor kills chickens. Anybody can have him and no questions asked. E. Hofer, Lincoln Park Place.

Furious Fighting.
"For seven years," writes Geo. W. Hoffman, of Harper, Wash., "I had a bitter battle with chronic stomach and liver trouble, but at last I won, and cured my disease by the use of Electric Bitters. I unhesitatingly recommend them to all, and don't intend in the future to be without them in the house. They are certainly a wonderful medicine, to have cured such a bad case as mine." STATE NEWS

Sumner is the only town in the Coos Bay country that has a rural free delivery.

The steamer Pomona made the trip to Corvallis Sunday, being the first boat to reach that point this fall.

The Underwood residence, one of the finest in Eugene, has been sold to E. J. Frazier, together with the property. He will improve the place, and erect a two-story building nearby.

The poultry show held in Corvallis last week closed Saturday. It was the most successful ever held in Benton county. There were over 400 entries of fine chickens, and, in addition to this, there were turkeys, geese, fancy pigeons and many varieties of pheasants.

The 5-year-old daughter of James Inman, residing near Crow, Ore., was severely burned one day last week. The child was playing near a brush fire, and her clothing caught fire, and, before assistance could be rendered, the little girl's clothing was in flames. Her father put out the fire as soon as he could reach her, being attracted by her loud screams.

The Senate adjourned Monday in memory of Senator Platt, of Conn. cut. If only enough Senators would die to keep every day that way, something might be done towards giving the interstate commerce commission more than just grinning power.

A Natural Result.

It is very reasonable to suppose if the foundation of a structure was removed that the building itself is bound to come down. This simple principle can be applied to disease. Take medicine into the system that will remove the cause of the sickness, and illness will leave of itself. Dyspepsia, indigestion, sick headache and biliousness have their foundation in stomach disorders. Remove this weakness and the other symptoms are no more. There is one cure for this that all druggists sell for 25c per box; it is Dr. Gunn's Improved Liver Pills. They get right at the beginning of the disease and make the cure by taking away the cause.
