

# CITY COUNCIL MEETS

## Discusses Streets, Licenses and Parks, But Does Little Business

Good streets was the principal subject of discussion before the city council last night. The large sum in the city treasury accruing from the collection of the \$3 road tax from every man in the city, most of the councilmen thought should be expended for the purpose for which it was collected. Roads leading to the city, and city streets were falling into disrepair. There is sufficient money on hand to put these in condition, but it has not yet been applied to the work.

There was a difference of opinion among the councilmen how it should be applied. Some favored a distribution of the money, as, for instance, \$1000 should be expended on the streets in the old city limits, \$200 for the sixth ward, an equal sum for the seventh ward, and \$500 for the fifth ward. This manner of diverting the money was objected to, and the matter was finally referred to the street committee and the street commissioner, who was given authority to expend such money for street repairs in outside wards as he considered necessary.

The gambling ordinance also can be for the council for discussion. The committee in charge reported on it, submitting a number of amendments, the most important of which was one promising informers immunity from prosecution. This amendment provoked considerable discussion, and Councilman Bayne submitted a motion that it be stricken out, which was carried affirmatively.

The question of the city assuming control and care of the library was left in abeyance. The committee on ways and means, to which the matter was referred, requested further time to report.

The council, on motion of Skafte, decided to reconsider its intention of issuing one license to E. Eckerlon, that would authorize him to sell liquor in his saloon and restaurant. The matter was referred to committee.

Authority was given the committee on health and police to compel all persons owning property along mill ditch running through the city to remove all nuisances that may pollute the water.

The park committee submitted a regular report, as did the canvassing board that went over Monday's election returns. Both reports were adopted.

It was announced in the council that work on South Commercial street, which had been interrupted through inability to obtain supplies, would be resumed this morning.

The council audited the monthly bills against the city and ordered them paid.

### Furious Fighting.

"For seven years," writes Geo. W. Hoffman, of Harper, Wash., "I had a bitter battle with chronic stomach and liver trouble, but at last I won, and cured my diseases by the use of Electric Bitters. I unhesitatingly recommend them to all, and don't intend in the future to be without them in the house. They are certainly a wonderful medicine, to have cured such a bad case as mine." Sold under guarantee to do the same for you, by J. O. Perry, druggist, at 50c a bottle. Try them today.

### A Great Feast.

The ladies of the Unitarian church will serve a chicken dinner this evening from 5 to 8 o'clock. They are prepared to feed more hungry people than ever before. Their dinners are becoming famous among those who eat church dinners.

### YOU HAVE SOMETHING.

Before sending away money come and buy a bank draft. You save something by so doing. Our drafts are good throughout the United States and Canada. And our charges are as follows:

- On Portland and other Oregon points: On each item not exceeding \$20 .05
- On each item over \$20 and not exceeding \$100 .10
- On each additional or fractional \$100 .05
- On San Francisco, New York and other points: On each item not exceeding \$5 .05
- On each item over \$5 and not exceeding \$100 .10

## PALE FACES

By Some Thought to Denote Refinement.

"What a mistake! In place of refinement pale faces denote debility. A bloodless face indicates anemia or impoverished blood, pure and simple.

"What is the result? A weakened condition of the entire system, the development of humors, disfiguring eruptions, and finally a general collapse.

"We wish your paper would tell every man, woman and child in Salem, yes, and every old person, that we are so sure that our famous cod liver oil preparation, Vinol (delicious to taste and without oil) will make rich, red blood, create strength and restore them to a normal condition, that we will pay for all the Vinol they take if it does not succeed.

"Why are we so sure? Simply because Vinol contains in a highly concentrated form all the vital, medicinal principles of cod liver oil, actually taken from fresh cods' livers, and without the useless system-clogging oil to upset the stomach and retard its work.

"Vinol in a natural manner will tone up the stomach, make rich, red blood, and strengthen every organ in the body to do its work as nature intended. We do not ask the people of Salem to take our word for it, but simply to try Vinol on our guarantee." G. W. Putnam Co.

### Christmas at the Pen.

The prisoners at the penitentiary, in preparation of the usual Christmas buying, have prepared hundreds of trinkets which they are anxious to sell to the public, to be used for presents or souvenirs. The convicts, despite their unfortunate condition, think that the holiday may be made pleasant to a certain degree for them, if the public would show a liberality and purchase the mementoes they have made in their cells during spare time. The money thus realized the prisoners would use in purchasing little articles of comfort or pleasure.

The convicts, or a portion of them, are at present greatly interested in rehearsals for a minstrel show, to be given Christmas week. There is considerable talent among the prisoners, and they are getting up a creditable show. It has not yet been decided whether or not the public will be admitted to see the entertainment.

### Indoor Baseball.

For the second time this season the Y. M. C. A. boys defeated the soldiers last night in a very warmly contested game of indoor baseball. It was anybody's game until the last minute, and the final score was 19 to 18.

The remarkable feature of the game was the wonderful improvement which the military team had made since the last encounter with the association players. The game was fast and furious, much good ball being played, and some that was not so good. The winners may be said to have won the victory because of their ability to run bases.

A large crowd was out last night, and a great deal of interest is being taken in the series of games which is to be played during the season.

### Opposition to Churchill.

Editor of Journal: You express surprise at the large vote for P. A. Thomas, when, as you say, many people did not know he was running. The opposition to Mr. Churchill is not political or personal, but because he has stood in with a few of the old city politicians, who refuse to allow any of the taxes we pay to be expended in the SIXTH WARD.

### Broke His Arm.

About six weeks ago C. W. Claggett broke his left arm just below the elbow. The bone was mending rapidly, and it would have been well in a short time, but last Wednesday he fell and broke the arm again, in the old place, and also above the elbow.

### Re-Union Friday.

A social and entertainment will be given at the rooms of the Capitol Business College Friday, December 9, 1905. A short program will be rendered, followed by games. Refreshments will be served during the evening. All students cordially invited.

### In New Quarters.

Fratt & Harrod have moved into the new brick barns at the rear of the Y. M. C. A. building, on Chemskeka street, where they will in future carry on the livery business. We have an entire new stock of rubber-tired buggies. When you want a first-class livery rig, ring up the old telephone number, Main 73, the Red Front stables.

## X-RAYS

The federal officers appointed in this state are unanimous in not having the endorsement of Senator Fulton.

It would make a path a yard wide, that a man traveling 20 miles a day, would require 18,000 years to travel—but what's the use?

Oregon has 60,000 square miles of land in one bunch, that has no railroad facilities. This would make a belt 2 1/2 miles wide around the earth.

Mrs. Vanderbilt kissed one of the horses at the recent horse show in New York. Men must have deteriorated or women become particular in the far east.

Oregon's 60,000 square miles of land that awaits railroads would, if strung out, make a roadway a quarter of a mile wide to the moon, with land enough left over for a garden patch for the man who lives there.

Oregon's 60,000 square miles of railroadless land now has a population of about 60,000, or one to the square mile. How long would it be after the railroads furnish transportation facilities before it will have ten times that?

From the line of the Oregon and California railroad to the eastern boundary of the state the distance averages 300 miles, while from the ends of the Heppner branch and the Columbia Southern to the southern boundary is about 200 miles. That's a pretty good-sized ranch.

Oregon's 60,000 square miles of land at present, without railroads, would, if put in a strip two and one-half feet wide, reach to the sun, and then put a belt around it. It would take electricity, traveling 180,000 miles a second, and that is going some, 10 minutes to travel the length of it.

### A Natural Result.

It is very reasonable to suppose if the foundation of a structure was removed that the building itself is bound to come down. This simple principle can be applied to disease. Take medicine into the system that will remove the cause of the sickness, and illness will leave of itself. Dyspepsia, indigestion, sick headache and biliousness have their foundation in stomach disorders. Remove this weakness and the other symptoms are no more. There is one cure for this that all druggists sell for 25c per box; it is Dr. Gunn's Improved Liver Pills. They get right at the beginning of the disease and make the cure by taking away the cause.

### Refused to Honor Requisition.

Governor Chamberlain yesterday refused to honor the requisition of the governor of Alabama for the arrest and return to that state of J. L. Hill, who was accused of converting to his own use property in which he had only a part interest. The requisition was refused because of the conversion of partnership property is not a crime under the statutes of either Oregon or Alabama, and for the further reason that the extradition papers were not properly authorized.

### Eastern Star Elects Officers.

At a meeting of Chadwick Chapter, No. 37, O. E. S., last night the following officers were elected for the ensuing year: Ruth Brown, W. M.; J. S. Wyant, W. P.; Mrs. S. C. Dyer, A. M.; Mrs. W. E. Hall, treas.; Mrs. Ida M. Babcock, Sec.; Mrs. Lottie C. Smith, Con.; Mrs. Jennie Kyle, Asst. Con.

### Commissioners in Session.

The board of county commissioners are now in session. Among the many things that will come up for consideration at this term of court will be that of the application for a franchise for the running of a street car along the public roads from this city into the Rosedale neighborhood. The franchise will probably be granted.

### Revival Services.

United Evangelical church, on Cottage street, between Center and Marion streets, every night this week, except Saturday. Service begins at 7:30.

## Gladiolus Bulbs

Several thousand very choice, finest strains and varieties, Oregon-grown bulbs, about twice the size of Eastern or imported bulbs, and produce the finest flowers, two to four inches across, and 12 to 20 on a stalk. The bulbs are of two grades. Largest, selected, 50c per dozen, \$4.50 per hundred. Medium large bulbs 35c per dozen, \$3.50 per hundred.

## CITY NEWS

A Collection of Important Paragraphs for Your Consideration.

For quality and price get your meats at Farrington's market.

The China Store, State street, is opening up a new shipment of glassware. Some of the new designs are very pretty. See them.

No advertiser can usurp the field unless permitted to do so. You can do what has been done, and more, in business building, if you advertise in this paper.

The Oriental Importing Company open tomorrow at 403 1/2 State street, with a stock of Japanese art pottery, including the egg-shell thick Coga ware.

That which can be turned one way can be turned another. The purchaser who has been induced to buy the goods of one advertiser can be induced to buy yours, if you offer as good—or better. All the prosperous stores use The Journal.

Girls, if you want red lips, laughing eyes, sweet breath and good looks use Hollister's beautifier known. 35 cents, Tea or Tablets, Dr. Stone's drug store.

Contrary to the usual custom, Salem merchants are reducing prices on their holiday goods before Christmas, and the result is a large increase in the volume of merchandise sold. Watch The Journal advertisements for news of these special prices.

It makes no difference how long you have been sick, if you are troubled with indigestion, constipation, liver and kidney troubles, Hollister's Rocky Mountain Tea will make you well. 35 cents. Dr. Stone's drug store.

Merchants all over Salem are trimming their windows with Christmas goods. They report that holiday trade has started up well, and will be much better than last year.

There have been more people from the country in Salem the last three days than for the same period in several weeks, and it has a stimulating effect on trade.

### Tonight

A fine chicken supper at Unitarian church, 5 to 8 o'clock.

### Will Lay in Supplies.

The state is shortly to advertise for six months' supplies for the Asylum. The sum of \$75,000 will probably be spent in properly provisioning the institution where Oregon cares for the insane. Almost every conceivable sort of article is included in the requisition. Hundreds of tons of groceries, miles of cloth, and car loads of flour, are some of the things that are required.

### German and British Rivalry.

The Cologne Gazette, one of the leading newspapers of Germany, says that in no department has the progress made by Germany within the last decades been so obvious as in the merchant marine. While in 1884 the Hamburg-American Line had registered only 60,000 gross tons, it has now an ocean steamer fleet of 710,000 gross register tons. The North German Lloyd's tonnage in 1884 was 103,000 gross register tons; in 1905, 676,914 tons. These lines stand now at the head of all ocean transportation lines in the world. The largest foreign company, the British India Steam Navigation company, has only 446,000 gross register tons. This success is due to the establishment of regular steamship lines to all parts of the world and to governmental aid in the form of subsidies.

England, Germany's great rival, is to have turbine ships. These will surpass the Lloyd's steamer Kaiser Wilhelm II, with its 19,500 register tons, by about 6000 tons. They are to have 70,000 indicated horse power. The trial trips of these steamers will be watched with great interest in Germany, because German engineers are of the opinion that the advantages which the turbine doubtless possesses in some respects are not so great for fast steamers that it would be justifiable to abandon the piston engines, which have always done such good service. For this reason the North German Lloyd has specified for its latest fast steamer, Kronprinzessin Cecilie, the same conditions and measurements as at the time for Kaiser Wilhelm II. The Hamburg-American line has discontinued the building of fast steamers, and will hereafter build steamers of even larger dimensions, which will, however, have only a speed of 17 miles per hour, but greater comforts for passengers and lower passenger rates.

### East Side Depot.

The new depot at East Morrison street in Portland, will be open and ready for business on and after December 12th. This will be a matter of interest to a great many Salem people, as all passenger trains will stop on the East Side, and tickets can be purchased and baggage checked at that place. Heretofore this was only possible for the local trains. The company will put in a force of employes at the new depot that will be able to accommodate the wants of all passengers.

### Japan to Have New Cabinet.

Tokio, Japan, Dec. 6.—The sudden postponement of Ito's expected arrival today is thought to be indicative of a change in the cabinet. He is expected to arrive December 8th, and a new cabinet may then be expected.

### Chauncey to be Weaned.

Washington, Dec. 6.—Chauncey Depew's resignation from the directorate of the Equitable will be tendered at the next meeting of the board.

**Our Free Christmas Gift**

**Oriental Importing Co.**  
403 1/2 State street, Corner of Liberty, Salem, Oregon.

### HOUSEHOLD CARES.

Tax the Women of Salem the Same as Elsewhere.

Hard to attend to household duties with a constantly aching back. A woman should not have a bad back, and she wouldn't if the kidneys were well.

Doan's Kidney Pills make well kidneys.

Mrs. Wm. Rainwater, wife of Wm. Rainwater, employed in Veal's Chair Factory, residing at 93 East First street, says: "My kidneys troubled me off and on for eight years. Every time I contracted a cold it settled on my kidneys, causing my back to ache often so badly that I could hardly get about to attend to my household duties. Accompanying this was a very annoying and distressing difficulty with the kidney secretions. I was treated by physicians and took a number of highly recommended remedies, but the relief I obtained was only temporary and I was about discouraged. Finally I read an advertisement about Doan's Kidney Pills, and got a box at Poshey & Mason's drug store and began their use. I expected some relief, of course, but to my surprise they went quickly to the root of the disease and I had no more trouble until recently I felt symptoms of a recurrence. Doan's Kidney Pills are the best kidney medicine I ever used, and I have recommended them to my neighbors."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's and take no other.

### Pardoned the Boys.

For shooting one duck each, without the permission of the state of Oregon, Fred Strong and Vilber Girard, of Portland, were yesterday sentenced to five days in jail. This morning Governor Chamberlain, who was told in a petition that the punishment was too severe for the crime, commuted the sentences of the two boys, and they were accordingly released from jail.

The boys had gone hunting without licenses. Each bagged a duck, and was returning home with the game in his possession. A stonyhearted game warden met them, saw the birds, ascertained that the boys had been shooting without a license, and arrested them.

### Chicken Supper.

At Unitarian church tonight, from 5 to 8.

## Bicycle Capes

We are well supplied with all sizes in the medium and long bike capes. These are double on the shoulders, and extra grade rubber. Call and get fitted out. Good for bike riding, plowing or any other outdoor work.

## Storm Aprons

We have a good stock of these in all sizes for buggies and hacks, in the medium and heavy weight rubber carriage cloth.

Also warm lap robes of all sorts at popular prices. Call and inspect. Buggies, whips, axle grease, buggy oils, etc., etc.

## F. A. Wiggins

Implement House, 255-257 Liberty St. Farm Implements, Wheels, Automobiles, Sewing Machines and Supplies.

## Northwest Nurseries

Wholesale and Retail. Fruit trees and shrubbery of all kinds. All stock free from pests and diseases. Large stock of best winter apples, late keepers a specialty. Trees delivered free in Salem. Now is a good time to put out cherries and peaches.

T. D. JONES, Proprietor.

60 YEARS' EXPERIENCE

**PATENTS**

TRADE MARKS, DESIGNS, COPYRIGHTS & C.

Anyone sending a sketch and description will quickly ascertain our opinion free whether invention is probably patentable. Our references strictly confidential. HARRISON PATENT AGENCY, 312 Broadway, New York.
