REPUBLICAN PROBLEMS IN OREGON.

The Republican party in Oregon has several important tasks before it.

One of these tasks is carrying on A PROGRESSIVE AND ECONOMICAL STATE GOVERNMENT.

Another task is the selection of a delegation to congress which shall be efficient and reasonably in accord with the national administration.

When discussing party harmony, the Portland Oregonian wisely says, "Cut out selfishness and harmony will take care of itself."

The same authority also says candidates should be selected for their unselfishness, and their representative character as citizens.

It should also add that they should possess marked ability to fill the office to which they aspire.

They should also have a standard of honesty, morality and a keen sense of public righteousness.

There is no permanent future in sight for the Republicans to keep control of this state on the old machine lines.

It will be futile for men whose activity in politics has led them in the opposite direction from the reform elements of the state, and who have never given a serious thought to remedying the oppressive conditions that have been forced upon the tax payer in the name of government, to try to control the present political situation.

Nominations are going to be made by the people, and if they cannot be made without dictation from the rotten political conditions that have prevailed in the city of Portland they will encounter defeat at the general election.

The people are not going to be dictated to any longer in this matter. A fair and square trial of direct dominations alone will satisfy them.

Any combination of managers or any inner circle of politics that undertake to make a state is going to have it smashed into smithereens at the polls if the people can get onto the fact in time to wake up and do the smashing.

Alleged Republican leadership that will go over a whole session of the general assembly that is four-fifths Republican without ever holding a caucus or conference in the interest of the party or the people is not leadership at all.

It is an absence of leadership and the presence of coyote politics. It is manifestation of Igorrotoe boism, where each canine or vulpine instinct is turned loose to grasp what it may and run with the plunder.

THE FARMER AND HIS HOGS.

A farmer writes The Journal to know what he shall do for pork, as he had to sell his hogs half grown to get money to pay taxes.

HE FEARS HE WILL HAVE NO PORK FOR NEXT YEAR, no bacon or hams in the smoke house; crops were light and he has no money to buy pigs.

The Journal admits his case is a hard one. Had he been able to keep his hogs until fully grown he would have had some money to buy smoked meat with.

But he is hard up. Besides he is out of meat. He has been reading The Journal and believing its promises that taxes would come down.

BUT IT SEEMS THEY HAVE BEEN GOING UP. VALUATIONS HAVE BEEN GOING UP.

He cannot understand how it is that the total assessment of the county can be a million lower and his assessment be higher.

HE IS ONLY A SMALL PROPER-

Do not look upon your talents as an indestructible capital upon which you will always realize interest. They are subject to the exigencies of life; accidents, disease or other misfortune may deprive you of them. Rather build up a lasting capital now with your talents, whose returns will adequately serve you in case of need. A savings account is the most simple and effective method of bringing about the desired result. The systematic saving of a portion of your income weekly or monthly, aided by the compound interest we pay semi-annually, will insure success.

SAVINGS DEPARTMENT
CAPITAL NATIONAL BANK

J. H. Albert, Pres. Jos. H. Albert, Cash.

Ask Your Own Doctor

If he tells you to take Ayer's Cherry Pectoral for your severe cough or bronchial trouble, then take it. If he has anything better, then take that. But we know his answer; for doctors have prescribed this medicine for over 60 years. We have an accolade! We publish the formulae of all our medicines. J. C. Ayer & Co., Lowell, Mass.

TY OWNER. He has but little of this world's goods and but little land, and he has no meat; but he pays more and more.

The Journal hears no complaints about assessments being raised for men of wealth.

The hogs that are eating up the small farmer are not the sordid rooters and grunTERS of the farm.

The Journal is making a fight to reduce the state tax. IT IS TOO HIGH.

We are promised it shall be much lower. We cannot see it.

The last legislature appropriated \$2,400,000 in round numbers.

The people have tied that up by referendum and strictly speaking SHOULD NOT PAY ANY STATE TAXES AT ALL THIS YEAR.

But the tax was levied before the people took the referendum.

The farmer who had to sell his hogs to pay his taxes paid part of a state tax which his own vote nullified.

WHEN HARD UP, AS A RULE, THE PEOPLE GET MAD AND VOTE THE DEMOCRATIC TICKET.

But that don't accomplish very much reform, if it does give them a little satisfaction.

We advise the farmer to lay low, register early, be careful about signing petitions of candidates, read The Journal, keep out of debt if his family has to go without meat, and help The Journal abolish a half of the state tax entirely.

HOLD UP NO INDUSTRY.

This community is up to a real crisis in the failure so far to find a site for the Oregon Nursery Company.

This company has been one of the largest employers of labor, and has achieved a great success as a financial institution.

The city of Salem and no responsible citizen thereof can afford to do anything TO DRIVE THIS MAGNIFICENT INDUSTRY AWAY FROM HERE.

If they cannot get a reasonable lease on the grounds of Willamette University, the city should raise a fund and furnish them ground rent free.

The city of La Grande a few years ago could have got a large sawmill, but parties demanded unreasonable rent, and the city lost the industry.

The state is littered over with dead communities, who, to spite their faces, have bitten off their own noses. THIS DISPOSITION IS FATAL TO ANY COMMUNITY.

The Salem Commercial Club has called a special meeting this evening to express the sentiments of the business men of this community in favor of doing their utmost to keep this industry in our midst.

This community cannot make any mistake showing royal good will toward such men as McGill and McDonald and the Oregon Nursery Company.

STAND BY MR. LEMMON.

Stand by B. J. Lemmon, who is seeking to establish a cannery here at Salem.

Mr. Lemmon is a practical man, who understands the cannery business FROM THE SOIL TO THE MARKET.

The Salem business men and the fruit growers cannot do better than to secure Mr. Lemmon to run a cannery here.

He is a man who has demonstrated that he is the right man for the place, and such a man is worth almost any sum to the community.

The fruit growers of Salem and vicinity have done right to take hold of this cannery proposition and have appointed THE RIGHT KIND OF MEN TO HANDLE THE MATTER.

The success of their undertaking means a great deal to this community. It means paying out thousands of dollars for fruit and thousands of dollars to men, women and children for wages in the cannery.

Progress in the Public Schools.

The time is coming when the public schools will have to teach something besides the science and cut and dried 'osophies.

Ability to read, write and speak good English, arithmetic as far as decimals and fractions, is about all that most people have any particular use for.

A great many persons need and would be benefited by knowledge of practical sewing, cooking and gardening.

If these three things could be substituted for about one half of the present so called education, boys and girls would grow up to be happier and more useful citizens.

It is a pleasure to know that the state superintendent of schools in Oregon is not entirely satisfied with text book education.

We take pleasure in copying the following paragraph from the Moro, Sherman county, Observer:

"Mr. Ackerman favors some modifications in the curriculum of the common schools. He wishes to make the children study subjects like agriculture, dairying, and so forth, that will help them earn a living. That is common sense. At present a child's school life is in the main an arid waste of lost opportunities. The effort to make it practical and useful is sound patriotism. It is to be hoped that Mr. Ackerman's zeal for educational reform may make the difficult transit from words to deeds."

PERSONALS

Game Warden Baker spent last night in Salem.

R. P. Boise, Jr., is a Portland business visitor.

Paul Sroat went to Portland this morning on business.

A. N. Moores was a passenger for Oregon City this morning.

Dr. Andrew C. Smith, of Portland, spent last night in the city.

Miss Bessie Burdick, of Forest Grove is the guest of Salem friends.

President John H. Coleman, of the University, is in the metropolis today.

E. P. McCornack returned yesterday from a short business trip to Albany.

Bob Nicholson, formerly of this city, but now of Albany, is in the city today.

Mark McKinney left yesterday afternoon for Arlington on a short business trip.

Mr. and Mrs. H. R. Hyde returned home yesterday, after a visit with Albany friends.

Walter Pugh and wife returned yesterday afternoon from a visit to Albany friends.

Arno Crossan, the hop man, is looking after the interests of his firm in Portland today.

Miss Blanche Brown returned home this morning, after visiting in Jefferson for a few days.

PAIN IN THE JOINTS

ONE OF THE TORTURES OF RHEUMATISM.

Pain and Swelling Cease When Dr. Williams' Pink Pills Make New Blood.

The first sign of rheumatism is frequently a pain and swelling in one of the joints. If not combatted in the blood, which is the seat of the disease, the poison spreads, affecting other joints and tissues. Sometimes rheumatism attacks the heart and is quickly fatal.

The one remedy that has cured rheumatism so that it stays cured is Dr. Williams' Pink Pills. These pills expel the poison from the blood and restore the system, so that the poisonous matter is passed off as nature intended.

Mrs. I. T. Pitcher, of 130 Monmouth street, Newark, N. J., suffered for about three years with rheumatism before she found this cure. She says:

"It began with a queer feeling in my fingers. In a little time it seemed as though the finger joints had lumps on them and I could not get my gloves on."

"Then it grew worse and spread to my knees. I could not stand up and I could not sleep nights. My suffering was more than I can describe. I took a great deal of medicine, but nothing even gave me relief until I tried Dr. Williams' Pink Pills."

"I read of an account of a cure in a case that was exactly like mine, and my husband got me some of the pills. I took them for three weeks before I really felt better, but they finally cured me."

Mr. Pitcher, who is a veteran and a member of E. D. Morgan Post No. 307 of New York, substantiates his wife's statement and says that she now walks without difficulty, where a year ago he was compelled to push her about in a wheeled chair. Both Mr. and Mrs. Pitcher are enthusiastic in their praise of Dr. Williams' Pink Pills.

These wonderful pills cured Mrs. Pitcher by driving the rheumatic poison out of her blood. In the same way they drive out the germs of other diseases and build up the blood to carry health and strength to every part of the body. Dr. Williams' Pink Pills have cured the worst cases of bloodlessness, indigestion, influenza, headache, lumbago, sciatica, neuralgia, nervousness, spinal weakness, and the special ailments of girls and women whose blood supply becomes weak, scanty or irregular. For further information address the Dr. Williams Medicine company, Schenectady, N. Y.

Mrs. A. L. Hendricks has returned from Eugene, where she visited her sister, Mrs. W. W. Chessman.

Mrs. Motta Davis returned yesterday from Eugene, where she been attending the wedding of her brother.

C. H. Jones, editor of the Oregon Teachers' Monthly, is in Dallas today, attending the Polk County teachers' institute.

Miss Violet West, a student at the University, left yesterday for her home at Clatsop, where she will remain until after the Christmas holidays.

Dr. C. T. Hockett, of Cottage Grove, brought a patient to the Salem Hospital yesterday afternoon. The doctor was accompanied by his wife and little son. Mrs. Hockett was formerly Miss Grace Snider, of this city.

THE WEAK SPOT. When a boiler explodes, carrying death and destruction with it, every body says "Why? we thought it was strong enough. It must have had a weak spot somewhere!"

When a man who has the outward appearance of being sound and strong suddenly falls a prey to disease, his friends exclaim: "Why? we thought he was all right—he must have had a weak spot somewhere."

The fact is, almost everybody has a weak spot somewhere. Death and disease are always looking for weak spots. If your stomach or your liver won't do its proper work, if your body fails to get its full nourishment from the food you eat, and your brain loses part of the sleep it ought to have, no matter how big your frame and muscular your limbs may be, you will give out; disease will find the weak spot, and nature will give way.

"Three years ago this spring I was attacked with severe dyspepsia," writes Mr. W. A. Cain, of 414 West Second street, St. Louis, Mo. "I was treated by five different doctors, but kept getting worse until I was afraid to go to the table to eat, as the least thing I ate distressed me so I could hardly stand it. After suffering for nearly a year and falling off in weight from 150 pounds to 100 pounds I commenced taking Golden Medical Discovery. After I had taken all of one bottle I began to feel relief, but kept on until I had taken eight bottles, and now I am as well as ever, can eat anything I want, and I feel good. Am weighing 150 pounds and feel fine all the time. My friends were surprised to notice such a quick change in me after seeing me suffer so long. Several said they never expected to see me get well. I have not had to take any medicine for stomach trouble since. I cannot say enough in praise of your 'Golden Medical Discovery.'"

This glorious "Discovery" gives the stomach and liver power to do their natural work regularly and completely. It makes healthy blood and steady nerves. It helps the weak spots, making them sound and strong.

Dr. Pierce's Pleasant Pellets should be used with "Golden Medical Discovery" whenever a laxative is required.

Woven Wire Fencing

In buying wire fence the size of wire and weight per rod must be taken into consideration.

Examination will convince you that I have the strongest fence at lowest price. I also sell poultry netting, gates, shingles, and ready roofing.

WALTER MORLEY,
60 Court Street, Salem,

Goodale Lumber Co.

QUALITY COUNTS

And if you come to our market you can be assured that you will have the very best obtainable in meat—whether it be beef, mutton, lamb or pork. Good meat every day—that's our idea.
