Marion County Taxes.

The Marion county tax levy on the 1905 assessment was completed by the commissioners' court yesterday.

The total valuation, as shown by the 1904 roll, was \$10,374,930, and that on the 1905 roll, \$9,824,774, a reduction of \$550,156.

The total tax levy as fixed is 18 1/4 mills. Last year the levy was 22 mills. The rate is divided as follows: State tax 4 mills; state school tax, 6.3 mills; county tax 6.5 mills; special road tax, 15 mills; indigent soldier tax, .1 mill; school library tax, .1 mill.

Spotted Her Beauty.

Harriet Howard, of W. 34th street, New York, at one time had her beauty spoiled with skin trouble.

X-RAYS

One of the amusing dispatches yesterday was to the effect that Senator Fulton had discovered rocks in the upper Columbia, and the chief engineer had appropriated \$100,000 to remove them.

A Salem man recently got drunk because he was afraid his mother would die. Later he heard that she was dead, and then got drunk again, and finally when he learned that that was a mistake he got drunk again because she didn't die.

Smiles

The best poker player in the city council is said to be the strongest in favor of suppressing gambling.

For landing men in the penitentiary and escaping himself a Salem correspondent of an Albany campaign sheet holds the record.

A recent roast of a local politician here before the carpenter's union sounded strangely like the pages of similar stuff printed in the Albany Argus.

Vermont Educational Conference.

Burlington, Vt., Jan. 11.—Educators, representing schools in all part of the state have arrived here to attend a conference with the faculty of the University of Vermont for the purpose of considering various educational matters.

The conference will last two days, and the first session will be held this afternoon. It will be devoted to a symposium on the conference idea as a means of stimulating and perfecting the educational system of the state and as a means of co-ordinating the educational forces of the state.

The various phases of the subjects will be treated by President M. H. Buckham, Superintendent Mason S. Stone, Principal C. H. Morrill of the Randolph High School, and Principal Isaac Thomas of the Edmunds high school of this city.

These addresses will be followed by a discussion, to be opened by Professor S. F. Emerson of the University of Vermont. This evening another meeting will be held, at which Dr. F. H. Sykes of the teachers' college, Columbia university, will deliver an address on "English in the Secondary Schools." Here will be a morning, an afternoon and an evening session tomorrow, with interesting programs for all three.

ONE DAY'S RECORD.

Seven New Members Received Into the Y. M. C. A. Yesterday.

Interest in the membership contest at the Y. M. C. A. is increasing each day, and both sides are becoming enthusiastic. At present the standing is almost a tie, and strenuous efforts are being made by both to finish the second week of the contest as leaders.

The young men of Salem are not slow to grasp the special opportunity given this month, when the entrance fee of two dollars has been eliminated, and they can have the first year's membership for \$5. This saving of \$2 just about pays for the necessary gymnasium clothing.

This reduction of fee will positively end on January 31st and the old rate of \$7 be restored.

Any young man or older man over 17 is eligible to join the senior department of the association, with all its privileges. Intermediate, junior and ladies' department are also provided for. Ask the secretary about the fees.

Basketball.

The second basketball team of the University will go to Woodburn this evening to play the high school team of that place. The following men, accompanied by the assistant manager, Glen Unruh, will make the trip: H. Belknap, E. Winans, Johnson, G. Forbes, C. Crandall.

The first team will take the boat for Newberg tomorrow morning, where they will play the team from Pacific College. Pacific College is reported to have a strong team this year, but this will be the first real game that either institution has played.

A partial schedule of the team as far arranged for the season is: University of Oregon, at Salem, January 19.

O. A. C., at Corvallis, January 26.

University of Oregon, at Eugene, February 2.

O. A. C., at Salem, February 16.

Negotiations are also pending for games with the Portland Y. M. C. A., the Multnomah club and Dallas college.

A Grim Tragedy.

Is daily enacted in thousands of homes, as Death claims, in each one, another victim of consumption or pneumonia. But when coughs or colds are properly treated, the tragedy is averted. P. O. Huntley of Oakland, Ind., writes: "My wife had the consumption, and three doctors gave her up. Finally she took Dr. King's new Discovery for consumption, coughs and colds, which cured her, and today she is well and strong." It kills the germs of all diseases. One dose relieves. Guaranteed at 50c and \$1.00 by J. C. Perry, druggist. Trial bottle free.

The czar has been so busy dodging that he has not had time to suggest that the whole matter be taken to The League for settlement.

Attorney Files Queer Complaint.

One of the queerest complaints ever filed in the state circuit court was that in the case of J. Kertz and John Muchow vs. the City of Portland, recorded yesterday. The complaint sets forth that Kertz worked 659 hours over time in the city garbage crematory at 50 cents an hour, and has thus earned \$1318. Muchow is claimed to have worked 700 hours overtime and earned \$1400, or 50 cents an hour. The two amounts were added, and in the complaint the total is given as \$1718. The complaint is not signed at all, but under the blank for the signature appears the words, "Attorney for Defendant," instead of attorney for plaintiff, who, of course, drew up the complaint. The papers were filed by Harry Ivanovici, a student in the Oregon law school, who was given permission to appear in the circuit court as an attorney.

An Island of Iron.

The Northumberland Islands belong to Queensland and lie off the east central coast in the Pacific between the towns of Rockhampton and Mackay. One of the smallest islands in the Duke group in this archipelago is Iron Island. The whole island is iron ore except a strip from 60 to 120 feet wide on the west and a sand flat on the northern end. The island is 1320 feet in length and 578 feet in greatest width, its highest point being 120 feet above high water mark.

It is estimated by the geological survey that the amount of ore above high water mark is 1,500,000 tons, and that the additional ore available between high and low tide (23 feet) amounts to 750,000 tons, making a total of 2,250,000 tons of available ore. The rock on the western side of the island is greenish, highly altered trachyte, in which there has been great development of east and west cross quartz veins, probably formed before the iron was introduced into the surrounding region. On the south side of the island are three outcrops of pure white statuary marble, from ten to twenty feet across and twenty to sixty feet in length.

It is believed by some Queensland geologists that the ore metamorphically replaced limestone and slate, and that the formation of ore may still be going on, inasmuch as the ridge top supports fern and scrub vegetation, showing that spring water is still reaching the surface. The ore consists chiefly of cryptocrystalline magnetite with massive hematite and has scarcely a trace of impurity. Its specific gravity is 4.5 to 4.6. Blocks of ore up to 10 feet in diameter are piled up around the base of the island. No work has been done, but there will be no difficulty in mining down to tide level. To work below that level a wall of ore will have to be left to prevent the entrance of the sea water.—American Geographical Record.

Will Increase Capital Stock.

Milwaukee, Wis., Jan. 11.—The shareholders of the Wisconsin National bank will meet here this afternoon for the purpose of voting on the proposition of the board of directors to increase the capital stock of the bank from \$1,500,000 to \$2,000,000. The bank was opened on December 5, 1898, with a capital stock of \$1,000,000 and the proposed increase, which will, undoubtedly, be voted by the shareholders, will double the original capital stock of the bank in thirteen years of its existence.

Wrestling With Deserter Problem.

Washington, D. C., Jan. 11.—The military authorities in New York and other places continue to have trouble with deserters, whom they desire to regard in no such light, principally that the government may be saved the expense of paying rewards and so avoid the responsibility for making disbursements of this sort. There has always been more or less trouble in determining between absence without leave and desertion in a case where the culprit has been captured and returned for trial. One of the latest cases to engage the attention of the war department is that of Private E. E. McDuffie, of the 48th company of coast artillery, who tried to get away from Fort Wadsworth, N. Y., and who was captured at Harrisburg, Pa., on a train going westward. The Fort Wadsworth court merely fined McDuffie \$5 for absence without leave, but General Grant disapproved the sentence on the ground that McDuffie was guilty of desertion.
