**Leading Republican Paper of Umatilla County Favors Wrightman**

(Pendleton Daily Tribune.)

Frank T. Wrightman, candidate for the Republican nomination for secretary of state, is the present corporation clerk in the secretary of state's office. When the new corporation tax law was passed three years ago, Mr. Wrightman was appointed to take charge of the duties of that department in the secretary of state's office, and has made an excellent record, receiving only praise for the manner in which he arranged his work, and the courteous treatment which he gave all persons who found it necessary to call upon or address him. He is also familiar with the other duties of the secretary of state, and, without question, is well qualified for the office.

Mr. Wrightman is an Oregonian. He is president of the Marion County Bar Association. For eight years he served as deputy sheriff of Marion county, and two years as sheriff. He is one of the most popular young men of the Willamette valley, and has a large number of friends in Eastern Oregon. At present he is in the lead for the nomination, and the probabilities for his remaining so are very strong.

**Woman's Trials.**

The bitter trail in a woman's life is to be childless. Who can tell how hard the struggle may have been ere she learnt to resign herself to her lonely lot? The absence of this link to bind marital life together, the absence of this one pledge to mutual affection is a common disappointment. Many unfortunate couples become estranged thereby. Even if they do not drift apart, one may read the whole extent of their disappointment in the eyes of such a childless couple when they rest on the children of others. To them the largest family does not seem too numerous. In many cases of barrenness or childlessness the obstacle to child-bearing is easily removed by the cure of weakness on the part of the woman. Dr. Pierce's Favorite Prescription has been the means of restoring health and fruitfulness to many a barren woman, to the great joy of the household. In other, but rare cases, the obstruction to the bearing of children has been found to be of a surgical character, but easily removable by painless operative treatment at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., over which Dr. Pierce of the "Favorite Prescription" fame presides. In all cases where children are desired and are absent, an effort should be made to find out the real cause, since it is generally so easily removed by proper treatment.

In all the various weaknesses, displacements, prolapsus, inflammation and debilitating, catarrhal drains and in all cases of nervousness and debility, Dr. Pierce's Favorite Prescription is the most efficient remedy that can possibly be used. It has its credit hundreds of thousands of cures—more in fact than any other remedy put up for sale through druggists, especially for women's use. The ingredients of which the "Favorite Prescription" is composed have received the most positive endorsement from the leading medical writers on *Materia Medica* of all the several schools of practice. All the ingredients are printed in plain English on the wrapper enclosing the bottle, so that any woman making use of this famous medicine may know exactly what she is taking. Dr. Pierce takes his patients into his full confidence, which he can afford to do as the formula after which the "Favorite Prescription" is made will bear the most careful examination.

Dr. Pierce's Pleasant Pellets are the best and safest laxative for women.

**Lodges Entertain.**

The members of the A. O. U. W. social meeting last evening at the Holman block. The entertainment was for the amusement of children whose parents belong to the orders, but the whole affair was enjoyed.

The program was furnished by little tots, and was very creditable. Eber Utter gave a piano solo; Davey, Emily Phillips and Esther Anderson gave good recitations, and Snook sang a pretty little song.

The D. of H. drill team gave an exhibition later, which was followed by a banquet. The success of the affair largely due to Mrs. Nettie McFarland.

**A Social Event.**

One of the events of the week will be the annual United States Inspection of Company M, Third Infantry, Oregon National Guard, at their armory, Monday evening, February 21. Drums will follow immediately afterwards. Everything has been arranged to make this the event of the season.

**Believes in Capital Punishment.**

In replying to a letter from women asking his endorsement of the movement to abolish capital punishment in all the states of the union, Governor Chamberlain says:

I regret that I cannot endorse the purpose of your organization. While one man with deliberate and premeditated malice takes the life of another he ought to pay the penalty with his life. This is in accordance with the old Mosaic law, and its wisdom has been vindicated in every state where capital punishment has been in vogue. Imprisonment for life is severe punishment, it is true, but insufficient to protect the public from the murderer. Besides, many men convicted of murder in the first degree are men of influence and of affairs and have friends and followers of equal prominence socially and financially who would bear every effort to free from prison the man under sentence of life imprisonment. The efforts of such usually result in success.

Not only am I unwilling to endorse the movement which you have set on foot, but, if it were in my power, I would extend capital punishment to cases of highway robbery and burglary in the night time, because men who commit these crimes intend to take life, if necessary, and refuse to give their victims any chance for life at all.

I, therefore, respectfully protest against the movement, and sincerely trust it may fail of success.

I have no objection to hearing a discussion upon the subject at any time.

**Small Fine for Gambling.**

The three Chinamen who were arrested last week for playing fan tile pleaded guilty this morning, and were assessed the minimum fine of \$5.00 each. Their fine was made light because of the fact that the evidence failed to show whether they were really gambling or whether they were merely having a friendly new year's game, as they claimed.

**Uncle Sam to His Best Girl.**  
(Note.—The Yankee schoolmarm has become a power in the Philippines. William J. Lampton is the February Century.)

Here's to the best of my very best—  
To the girl with the spirit to  
Pull out from the old things of the West  
And go the East and the new;  
To take to the youth of the Orient  
Her Yankee ways and the heart  
To teach them what  
A kid has got  
To tackle to get a start.  
The schoolmarm follows the flag, and she  
Is the emblem of star-spangled tyranny

Her scepter's a switch, and where she rules  
The little and big must obey;  
She bosses the best in the white man's schools,  
And the yellow must come her way.  
She'll show to the kids of the Orient  
The paths in which they should tread;  
And if they shy,  
Her switch will fly  
Till their yellow skins are red,  
The schoolmarm follows the flag, and she  
Is the emblem of star-spangled tyranny

She steps straight out, prepared to go forth  
In her country's cause and its name;  
She comes from the South, she comes from the North,  
But she's Yankee, just the same;  
And she goes to the far-off Philippine  
With her mind made up to guide  
Those Philippine youth  
To the light and truth,  
Or take it out of their hide,  
The schoolmarm follows the flag and she  
Is the emblem of star-spangled tyranny

We look for the Statesman to be come a better newspaper. That of Sen has just received a case of Bibles from the factory and we may look for some fresher news.

The world is always full of men who

are always ready to take your support and your kindly word, and your every encouragement is all they undertake, but who have never prepared to return any of it. "The poor (in spirit) ye have always with you."

The Orator, by the Walton Gilbert Co., of Spokane, has become a fine weekly quarto. It is the only orator in the Northwest, and that is the best evidence that the declining art of impassioned human speech needs a champion, and also the extent to which the printed page is taking the place of human eloquence.

The Pettyjohn launch proposition is a good one for this city and for Independence. The people of that city would use it and a great deal of travel would find it convenient to go to Independence from Salem that way. We do not know of anything that will be more appreciated than would a good launch or quick-trip steamer line between these two valley towns.

Well, we are glad the coast harbors are getting to the front. Those swung out for all of them, even before he was a candidate. The other candidates for congress have heartily endorsed his position, so that no matter who goes, the west coast harbors are not going to be forgotten. The idea will flow in and out and bye and bye they will all be improved. It is a great thing when the great men of Western Oregon all agree that things shall be done for the west coast harbors. They have waited long enough, and now by the eternal they are going to be opened up for good.

News item of 1920: "There has just appeared a life of the late W. S. U'Has, who in 1914 was elected governor by a postal card vote without holding any election and ran the state four years without a legislature. Before he was chosen governor he had abolished the constitution, done away with campaigns and marriage and all children were raised in an incubator and fed on self circulating petitions. He was able on his deathbed to announce a plan whereby the state runs all by its lonesome without any officers, courts or laws. His last act was to abolish the initiative and referendum and resolve the commonwealth into its original constituent elements as a pure abstraction."

Oh, the pitiful yammer of the Portland press against the Farmers' and Whippers' tax bill that was only designed to cut down the high state tax. But we better all endure the ills we have than fly to those we know not of. It's refreshing to work for any reform where all the large newspapers systematically attack any reform proposition. They were able to defeat the flat salary law twice, but it finally passed, but only by postponing it four years, costing the state fifty thousand dollars a year. The people not only pay for the Portland newspapers but pay those other large imposters for the privilege of allowing them to keep the people in ignorance. Portland inducements always did come high, for senators or any other old thing. But then when we consider that when we do get a man or a man

from Portland it is a gilt edge article. Producing our high taxes, it is natural Portland should oppose abolishing them.

Superintendent Chalcraft of the Salem Indian school, the largest government institution on the Pacific coast, has been making a special study of the Indian music of the coast tribes. He has got little out of some of the older natives but a few grunts, but he says there is some music in them if he can only get at it. Special Agent Loring, who has been sent out to make a study of the native Indian music, is ill at Pendleton, and when he gets around he will come over here on the coast and set some of the old lady grunts to time and rhythm and perhaps there will be a regular collection of Siwash sonatas result from the investigation.

**Nebraska Town Has a Bathing-Ladies' Day Thursday.**

Norfolk, Neb., Jan. 20.—Center, Nebraska, a town of 20 people, in Knox county, now boasts of a bathing, the first in that town, installed a few days ago by a local barber. Much rivalry existed between the men and women at first over the days as to when the women should be allowed to use the new tub, but the matter has been settled peacefully and the women now bathe on Thursdays. The local paper, the Center Register, contained this item a few days ago:

"We are requested to announce to the ladies of Center that Thursday will be ladies' day at the new bath room, Saunders hotel annex. None but ladies will be allowed to bathe on that day, and they are invited to take advantage of the new tub. Every courtesy will be shown patrons."

Men are quite as eager as women to cultivate good looks. We know of hundreds of men in this vicinity that are taking Hollister's Rocky Mountain Tea. Smart fellows. 25 cents. Tea or Tablets. Dr. Stone's Drug Store.

**Crook County Expenses.**

The expense of Crook county for the year 1905, as filed with the secretary of state this morning, amounts to \$19,057.87.

**Rev. Carlisle B. P. Martin, L. L. D. Of Waverly, Texas, writes:** "Of a morning, when first arising, I often find a troublesome collection of phlegm which produces a phlegm and is very hard to dislodge; but a small quantity of Ballard's Horehound Syrup will at once dislodge it, and the trouble is over. I know of no medicine that is equal to it, and it is so pleasant to take. I can most cordially recommend it to all persons needing a medicine for throat and lung trouble." Sold by D. J. Fry.

**Coppin's Body Found.**

The body of Marion Coppin, of Marshfield, who has been missing since January 1st, and about whose disappearance there had been a dense cloud of mystery, with much talk of foul play, was found about 12:30 p. m. Saturday floating near the old landing on the Bay City point, by Thomas Buckman and Wm. Blackmore, who were passing in a boat.

Examination of the body disclosed that Coppin came to his death by drowning, there being no marks whatever to indicate that he had been the victim of any violence, there not being even an abrasion of the skin. While this leaves still the question of whether the man's death was a case of accident or suicide, it happily eliminates the darker suspicion; and it may be said that those best acquainted with the young man and the circumstances positively reject the theory of suicide—Coast Mail.

Coppin is a former resident of Portland, where he worked for Tull & Gibbs, the furniture-dealers.

**\$291,084.99**

In a recent number of McClure's Magazine is a story in which the facts relating to the profits of a baking powder were brought out through litigation in the courts. It was shown that the company manufacturing the powder was capitalized at \$100,000. The profits amounted to \$17,047 in 1876, and they continued to grow until they reached the enormous aggregate in 1887 of \$725,162, the income that year being four times the amount of the capital invested. The profits since 1887 have steadily increased, but the feature of particular interest in this connection is that the company spent \$17,000 for advertising in 1876 and \$291,084 in 1887.

The baking powder may or may not have been superior to others put on the market, but the business was made to pay the immense returns noted through liberal and judicious advertising. Another feature in this matter is that the company has advertised almost exclusively in the newspapers.

The men behind that baking powder realized the value of the newspaper press in reaching the public, and to it they owe the marvelous results.—Newspaperdom.

If you want to increase your profits, advertise in this paper. No better medium to reach the buyers of this community.

**A Grim Tragedy.**

Is daily enacted in thousands of homes, as Death claims, in each one, another victim of consumption or pneumonia. But when coughs or colds are properly treated, the tragedy is averted. F. G. Huntley of Oakland, Ind., writes: "My wife had the consumption, and three doctors gave her up. Finally she took Dr. King's new Discovery for consumption, coughs and colds, which cured her, and today she is well and strong." It kills the germs of all diseases. One dose relieves.
