

Smiles

Eugene will have a public ownership campaign in April.

All the old school land ring at Salem are busy defeating Toose for the nomination. Why?

What's the matter with cities in the valley having bad water epidemics? Salem is all right.

If too many Democrats register as Republicans for the primary there will not be enough to hold a nominating assembly.

You don't have to go into a chemist shop or into a court of equity to ascertain where the Capital Journal stands on any question.

Will Alice Roosevelt serve wine at her wedding?—Albany Democrat.
No, but kindly tell your readers that Congressman Longworth's family made all their money in the liquor business.

Frank A. Munsey's new magazine, the Scrap Book, has a new appearance. It seems to be a kind of living encyclopaedia of the present frenzied moment. Only one objection—it does away with the necessity for reading daily papers.

The Democrat says Baker City's post office plum still hangs high. It may be so until after election. A short time ago it was thought a change would be made soon, but its all off now. It's another case where the fellow refused to sit down. Perhaps now, he wishes he had.

The Democratic voters of Umatilla county held a large and enthusiastic mass meeting in Pendleton February 17. The committee submitted the following among other important resolutions:

"We favor the adoption of the woman suffrage amendment to the constitution."

When the Salem Statesman remarked that Walter Toose "is a self made man," the McMinnville Telephone

Register was mean enough to add, "and he is violently in love with his maker."—Corvallis Times, Dem.

It is a poor stick, and unfit to go to congress, who is ashamed of what he has accomplished.

A woman entered a photographer's gallery: "Do you take pictures of children?" she asked.

"Yes," was the reply.

"How much are they?" asked the woman.

"Three dollars a dozen," said the proprietor.

"Well," she replied with a sigh, "I shall have to wait and come again. I have only eleven."

A Fine Lecture

An intensely interesting audience listened to that genial and polished gentleman, G. Spencer Clapham at the Methodist church Monday night.

His subject was "New Zealand," and his graphic description of the wonders of that far away country delighted his hearers.

His knowledge of his native country is perfect, and while his tales of

luxuriant vegetation, the magnificent forests, like those of Oregon only more tropical, the curious wingless birds, the great geyser forcing a column of black water 1500 feet into the air, the high mountains, immense glaciers and boiling springs, aroused great interest. The story of the political wonders excited envy in the breasts of the audience because our own country is not so well and so much governed.

This enlightened and liberty loving people have had industrial peace for 16 years. No strikes, no lockouts, and no extreme poverty of the laboring classes, no great trusts, no difficulty about public utilities and transportation, no land frauds and very few "grafters," and this very comfortable state of things was brought to pass by four level headed, honest hearted, patriotic leaders, who believed that the government should be of the people, by the people and for the people.

This progressive nation believes that so that women are "people" as well as men, and they have had woman suffrage there for 13 years, and would not for a moment entertain the idea of going back to exclusive man suffrage for, as Mr. Clapham says, they determined to "push forward toward higher civilization instead of going backward."

It is claimed that there was no revolution when the women were enfranchised; but a steadily growing improvement in the morals and manners of the men, who are quite as chivalrous in their demeanor to the women as the men of any other country. Also a much greater interest in political affairs was manifested among the men than when they had the sole right of franchise. That no domestic or other trouble has been caused by the woman's vote is evident by the fact that New Zealand affairs, both political and domestic, are in an admirably peaceful condition.

Mr. Clapham's most interesting, witty and instructive lecture so pleased the audience that they earnestly requested another talk, which he will give in the near future, and those who do not hear him will miss a rare treat.

Pretty Safe Rule to Go By.

When there is a feeling that the heart or lungs, blood or liver, brain or nerves are diseased, at once commence to doctor the stomach. This is the foundation of the trouble in 90 cases out of every 100. Commence to regulate the digestive organs, get them in healthy working condition, and the other troubles will save of themselves. Diseases which have their beginning in the stomach must be cured through the stomach. The medicine for stomach disorders and half the ills of life, is Dr. Gunn's Improved Liver Pills. They are sold by all druggists for 25c per box. One pill is a dose. These pills put all the digestive organs in good condition so that disease has no basis to work upon.
