Second Advantage AND FEATURE of the RACYCLE

Is in having a chain pull between the two sets of bearings in the crank-hanger; which is done by recessing the hub of the cranks at the crank axle; This places one set of ball-bearings out side or to the right of the sprocket or chain line (as is shown in the cut last week. This gives a support to the sprocket on each side and cuts off all leverage from the chain pull, and the large sprocket revolves between the two sets of ball bearings.

There being a set of ball bearings on each side of the large or front sprocket on all Racycles, gives the Racycle an advantage in the use of very large sprocket, which cannot be used on other makes of bicycles. Further, there being a set of bearings on each side of the front sprocket insures the front sprocket being in perfect line with the rear sprocket in heavy driving or in hill climbing.

If there were no other advantages than that of having a set of bearings on each side of the front sprocket (which gives a chain pull between the bearings), this of itself would make the Racycle run much easier and last longer than any other make of bicycle.

Racycles \$40.00 to \$75.00 According to equipment

NAME STATE TICKET

The Socialists of Oregon met at Portland Monday in state convention, adopted a platform, and nominated a full state ticket. R. R. Ryan, of this city, served as chairman and R. C. Brown, of Albany, as secretary. The ticket was prepared behind closed doors, and was ratified unanimously just as it was presented to the convention.

A resolution was adopted condemning the arrest of Western Federation officers in connection with the Steunenberg murder, and a subscription circulated for the purpose of adding to the funds for aiding the defendants in their forthcoming trials in Idaho. Other resolutions are said to have been passed, the nature of which those in charge of the meeting, as well as the delegates, refused to reveal, saying they concerned only those immediately interested in the cause of Socialism.

Text of the Platform.

We, the Socialist party of the state of Oregon, in convention assembled, proclaim our allegiance to the Socialist party of America and affirm our unflinching adherence to the principles and program of the international revolutionary socialism. We base our appeal upon the following declaration as our platform principles:

1. Labor produces all wealth.
2. Labor's share is a mean and uncertain portion of its products.
3. The capitalist class appropriates products of labor by the private ownership of the means of production and distribution, by and through the wage system, being thus enabled to live in idleness and luxury.
4. An inevitable class war is created by the appropriation of labor's products.
5. The class struggle must continue so long as the profit system endures.
6. The most efficient and potent weapon with which the people can successfully oppose the capitalist class is the ballot.
7. If elected to any office the Socialist's one and only consideration shall be the working class—is this legislation favorable to the working class? If not I am against it.
8. We declare in favor of the equal suffrage of men and women.
9. In conclusion, we appeal to all workmen to study the principles of Socialism, to vote with their class at all elections, until they overthrow the powers of capitalism and terminate forever the class struggle and inaugurate the co-operative commonwealth, based on the fundamental principle: "To every worker the full product of his labor."

The Ticket.

The following state ticket was nominated:

Governor—C. W. Barzoo, The Dalles.

Secretary of state—B. C. Brown, Roseburg.

Treasurer—G. B. Cook, Portland.

Superintendent of public instruction—J. C. Hosmer, Marion county.

Labor commissioner—W. J. Richards, Albany.

Attorney-General—C. E. Brix, Prineville.

State printer—J. C. Cooper, McMinnville.

United States senator (long term)—A. G. Simola, Portland.

United States senator (short term)—J. D. Stephens, Portland.

Congressman, first district—W. W. Myers, Oregon City.

Congressman, second district—A. M. Paul, La Grande.

Following the business session several speakers were introduced. Laura Gregg spoke eloquently for women's rights, and was liberally applauded. Following her remarks, Chairman Ryan arose and advised the delegates to be unanimous in their support of womanhood in the fight for suffrage and a readiness to pursue the course was manifested by a rising vote.

Secretary Brown spoke briefly of the cause of Socialism, and J. R. Quick, of Coos county, followed more at length on the same topic. A. M. Paul, of La Grande, was the last speaker. The feature of the address was an original poem ridiculing capital and the authorities of Colorado.

Judge Watson for Senator.

Judge E. B. Watson, of Portland, is out as a candidate for United States senator. He says:

"If nominated and elected to the office of United States senator in congress, I shall steadfastly adhere to the principles and policies of the Republican party, and act with the Republican majority on all measures affecting the public interest, without some clear and controlling reason to do otherwise."

"I will support all measures for the early completion of the Panama canal; proper revision of the tariff; exclusion of all foreign laborers who are not entitled to the benefits of existing nat-

You Get Up

In the morning tired, languid, and frequently with a headache that is almost unbearable. You have been nervous, restless and sleepless night after night, and gloomy and irritable during the day. This nervous exhaustion affects the heart, lungs and other organs that depend upon the nerves for motive power. Then the stomach fails to digest the food; the heart action is weak, and circulation poor, and the kidneys and liver inactive.

What you need is not a stomach, head, kidney or liver medicine, but Dr. Miles' Nervine to soothe and feed the nerves and build nerve tissue.

"My wife was subject to severe mental strain, which resulted in nervous prostration. The first symptoms were uncontrollable crying and melancholy spells, which increased to such an extent that for over a year she would have a spell every day of from four to six hours duration. She required the constant attention of her physician and attendants. She suffers, great pain and anguish. The best physicians attending her could give no relief, and she finally became almost of unsound mind. As a last resort I began giving her Dr. Miles' Nervine, and tonic, and noticed that her spells next day were not so severe, and they gradually disappeared altogether. She has had no recurrence of the spells, and is gaining in health and strength."

uralization laws; the adoption of the parcels post as a reasonable extension of the mail delivery service.

"I will work for adequate appropriations for the continuance of the work on the rivers and harbors of the state of Oregon already begun, and their completion at their earliest possible date; government irrigation of the arid lands within the state on the most comprehensive plan; rate legislation, both as a means of avoiding excessive charges and unjust discrimination in the service of transportation, and of relieving party action and public legislation from the domination of concentrated wealth and power represented in corporations, trusts and combines of every character; in other words, to put these purely business organizations out of politics. I will support all just measures for the protection and advancement of the interests of labor.

"I will exert myself to the utmost to secure such action by congress as will enable the people to realize the benefits of the provisions in the several acts of congress granting lands to aid in the construction of railroads, and the Coos Bay military road, in the state of Oregon, requiring the several corporations receiving the said grants to sell the lands so granted in quantities not to exceed 160 acres to any one person and at a price not to exceed \$2.50 per acre, in accordance with the long-established policy of the government, to promote the settlement and development of the country by furnishing the widest opportunities to acquire homes upon the public domain.

"I believe in the patriotism, integrity and fearless disposition of President Roosevelt, and the wisdom of his general purposes, and will, if given the opportunity by the Republican voters of the state and their representatives in the next legislature, render him all the aid and assistance in my power for the accomplishment of these purposes."

Her Hair on Fire.

Anna, the little 3-year-old daughter of Mr. and Mrs. E. Anderson, who lives on North Liberty street, narrowly escaped being burned to death yesterday afternoon. The child was playing in the front room near the stove. In some way her hair became ignited, and she work in the kitchen, heard the mother one scream, and, rushing into the room, quickly conquered the fire, and, fortunately, before any severe burning occurred. Some slight burns on the back of her head, and the loss of her hair is the measure of damages—but it was a close call.

E. L. Smith Resigns.

Hon. E. L. Smith, of Hood River, has resigned as horticultural commissioner at large and president of the state board of horticulture. He has decided to not become a candidate for governor, but has come out for United States senator. His action in this matter helps the situation of Dr. Withycombe for the nomination, as Smith's vote would have largely come from the farmers and fruit growers, with whom Withycombe is strong.

Prohibition County Convention.

The Marion County Prohibition Convention is hereby called to meet on March 23d, at 10 o'clock a. m., at the W. C. T. U. hall, Commercial and Ferry streets, Salem, to nominate a full county ticket. All Prohibitionists are invited to attend. Oliver Joy, county chairman; Sylvanus Preaml secretary.
