Will Stab Doctor or Nurse While They Are Caring for Their Wounds

Cincinnati, O., March 19.—General Henry T. Allen, commander of the Philippine constabulary, arrived here today. He says: "People in a civilized community can't understand the fenshish savagery with which the natives fight. The Moros are the worst in the islands. It is common to see patients brought to the hospital seek a chance to stick a knife into the doctor or nurse. Frequently it is seen that women fight desperately beside the men."

The sisters are connected with nearly all the Catholic churches on Long Island, and teach in the various parochial schools.

The feast of St. Joseph was observed in all the Roman Catholic churches of New York and Brooklyn today in the usual manner. Special services were held at the St. Joseph college, and other institutions connected to St. Joseph.

Automobile Ambulance for Army.

West Point, N. Y., March 19.—The military academy is to have a number of automobile ambulances. The new type will be a conversion of the familiar automobile express truck, equipped with the ambulance body, so that the electrically driven vehicle may be used in the transportation of those requiring the services of an ambulance. The medical department has a type of vehicle of this sort, intended for use in connection with field hospitals in time of war. This automobile ambulance will be given a thorough trial under practical conditions, probably at Plattsburg, N. Y., in course of the mobilization operations of the coming summer. Great advantages are expected to be derived from this mode of transportation, especially in localities where heavy grades have to be overcome, as they are in this locality.

The Coal Situation.

Indianapolis, Ind., March 19.—The bituminous coal operators belonging to the Interstate Operators' Association are assembled here in large numbers, and there is every reason to believe that the conference which will be held here this afternoon will be well attended. The conference met at the Claypool hotel this morning in an informal manner, and, after transacting some preliminary business took a recess until this afternoon, when the first business session will be held.

Mr. Francis L. Robbins, who is the principal mover of the conference, called the conference at the suggestion of President Roosevelt, for the purpose of giving the wage proposition to the miners a thorough reconsideration. It is hoped that by modifying the position of the operators in the bituminous belt, which includes the Western Pennsylvania, Ohio, Indiana and Illinois, a strike of the mine workers in the bituminous mines will be averted. It is understood that an effort will be made to vote the sentiment of the operators on the tonnage basis, instead of by individual vote. This would wrest the voting power from the rebellious independent mine operators, who have been holding out against higher wages, while the larger producers, who are in the minority, favor concessions on the wage proposition.

There is every reason to believe that the independent operators will strenuously oppose any attempt to base the vote of the conference on the tonnage of the members represented, and a lively war is expected. If the Robbins faction, consisting of the large operators, should win the day, a conference with the miners will be held either tonight or tomorrow, to finally settle the agreement between the miners and operators for the year beginning April 1st. With this matter out of the way, the way would be clear to a revision of the negotiations between the anthracite operators and miners.

Washington, D. C., March 19.—

The executive council of the American Federation of Labor will hold a meeting here today for the purpose of considering a number of important labor matters which require prompt attention. John Mitchell, president of the United Mine Workers, is a member of the executive council of the Federation, and will attend the meeting. It is expected that the coal situation and the strike of the building trades in New York and other cities will be discussed.

MATTERS OVER IN CHINA

(Four O'Clock Edition.)

Anderson, consul at Amoy, China, was a passenger. He said the boycott situation is unchanged. There was unrest in China, and should the empress dowager die civil war is likely to follow.

The Japanese are actively engaged in working up trade with western China. He said the idea of war with China was absurd, as the trouble was due to the disorderly element. Anderson witnessed the Chung Pa disorders, when the Presbyterian and Catholic missions were destroyed by vandals, and the occupants driven from Amoy. The damage amounted to \$100,000. Eight hundred Chinese soldiers were rushed to the scene and stopped the depredations.

TALKS ABOUT MOROS

Parkhurst Criticizes President and Deprecates Killing of Moros

New York, March 19.—In his sermon on the relations of so-called Christian nations that are pagans, the Rev. Dr. Charles P. Parkhurst referred yesterday to the recent killing of Moros and President Roosevelt's congratulatory dispatch to General Wood.

"Consider," he said, "the easy and self-satisfied way in which we regard the mowing down of the savage and semi-savage in the Philippine islands, when they stand in the way of the national purpose of which, after eight years of 'benevolent assimilation,' we have just had a startling and heart-rending example in the bombarding to death of 600 men, women and children, collected in a crater in the Moro islands. There are two things to be said about the jubilant congratulation sent by the chief executive to General Wood. The first is in reference to the designation of the performance as a 'brilliant feat of arms.' Basing our estimate on the reports rendered by General Wood, it is no more a 'brilliant feat of arms' than smoking bees out of a hive or rats out of a nest."

"But a far sadder feature of the executive communication to General Wood is that it contained not one word of sympathy, one note of tender distress, in view of the indiscriminate slaughter perpetrated in honor of the American flag."

"We have been taught to believe, and we like to believe, that the President has a great heart. And so I prefer to think of that cablegram, composed as it was, in the presence, practically, of mangled men, torn women, armless and headless children, I prefer to think of it not as being the expression of the man Roosevelt, but of the President Roosevelt, in whom officially the heartlessness and the greed of unregenerate nationality is functionally represented. I want to find a way out for Roosevelt, for the performance on the Jolo island has a ghastly look, and the cablegram matched it."

"With the exception of the maintenance in the South of negro slavery there has been, I should say, nothing sadder in our history than the national attitude in which we stand today as toward the little brown people of the Philippine islands."

The repertory for the three weeks includes, besides several repetitions of "Don Carlos," "Bonnie Brumby," "Dr. Jekyll and Mr. Hyde," "The Merchant of Venice," "A Parisian Romance," "The Scarlet Letter," "King Richard III," "The Misanthrope," and "Ivan the Terrible."
