

A Trite Saying.

It is a trite saying that no man is stronger than his stomach. Dr. Pierce's Golden Medical Discovery strengthens the stomach—puts it in shape to make pure, rich blood—helps the liver and kidneys to expel the poisons from the body and thus cures both liver and kidney troubles. If you take this natural blood purifier and tonic, you will assist your system in manufacturing each day a pint of rich, red blood, that is invigorating to the brain and nerves. The weak, nervous, run-down, debilitated condition which so many people suffer from, is usually the effect of poisons in the blood; it is often indicated by pimples or boils appearing on the skin, the face becomes thin and the feelings "blue." Dr. Pierce's "Discovery" cures all blood humors as well as being a tonic that makes one vigorous, strong and forceful. It is the only medicine put up for sale through druggists for like purposes that contains neither alcohol nor harmful habit-forming drugs, and the only one, every ingredient of which has the professional endorsement of the leading medical writers of this country. Some of these endorsements are published in a little book of extracts from standard medical works and will be sent to any address free, on receipt of request therefor by letter or postal card, addressed to Dr. R. V. Pierce, Buffalo, N. Y. It tells just what Dr. Pierce's medicine are made of. The "Words of Praise" for the several ingredients of which Dr. Pierce's medicines are composed, by leaders in all the several schools of medical practice, and recommending them for the cure of the diseases for which the "Golden Medical Discovery" is advised, should have far more weight with the sick and afflicted than any amount of the so-called "testimonials" so conspicuously flaunted before the public by those who are afraid to let the ingredients of which their medicines are composed be known. Bear in mind that the "Golden Medical Discovery" has THE BADGE OF HONESTY on every bottle wrapper, in a full list of its ingredients. Dr. Pierce's Pleasant Pellets cure constipation, invigorate the liver and regulate stomach and bowels. Dr. Pierce's great thousand-page illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for 31 stamps. Address Dr. Pierce as above.

School News

Business College. The students of the Capital Business college had a St. Patrick's social at the college rooms Friday evening. The decorations were in green. An arch of ivy was made between two posts at one side of the room, which was used as a stage. The dining room was decorated with ribbons of green crepe paper, and green shamrock leaves. More than 100 students and visitors were present. The first part of the evening was taken up with the following program, which was well rendered: Instrumental duet, Misses Fawc and Friaby; reading, "How Paddy Stole the Rope," by Carl Massey; instrumental solo, Lucile Staley; poem, "A Dream," Willie McKay; duet, Mr. Shoemaker, Mr. Luthie, Misses Smith and Davison; imitations of common birds and animals, John Herren; instrumental duet, Miss Beardsley; reading of the paper, "The Capital Business College Breeze," Homer Rickett; reading, Blanche Knox; vocal solo, Miss Pearmine; address, Superintendent Ackerman. Mr. Ackerman spoke on the things necessary to the successful business man or woman. He declared that too many students depend on the teachers, while they should depend on themselves. He emphasized the fact that only the young man or woman that does perfect work is in school. He presented four things as a standard for the desired business man or woman, viz: Perfect or accurate work, power of initiative, stick to it, and system. Mr. Staley gave a short talk to close, thanking all who had taken part as the program. The refreshments followed the program and were no less elaborate. After having found partners by a divided song scheme, the crowd repaired to the dining hall, which was lighted with green lights, and were served with ice cream and cake. The remainder of the evening was spent in playing games. The crowd dispersed at a late hour.

High School.

The sophomore class had a party at the school building Friday evening in honor of St. Patrick. The hall was decorated with a profusion of ivy and crepe paper; green and white was draped from the chandeliers. "Ivory" was requested to wear a trifle of green to distinguish himself from the liars. Most of the class was present, and all but two of the faculty. The absent two, Misses Clark and Townsend sent their "regrets," which were original and amusing. The following program was rendered: Piano solo, Jenny Fry; reading, Ethel Thomas; piano solo, Marion Huss; vocal solo, Albert Egan; piano solo, Frances Smith. The remainder of the evening was spent playing games, in which everybody took part. Refreshments were served, which consisted of ice cream, cake and wafers. The last thing of the evening was a grand march, and the jolly sophomores adjourned at 10:30, boasting of the best evening of the year. The high school debating team met in the school building Friday evening to discuss the question that is to be debated with Roseburg. Mr. Mariette and Mr. Powers spent two hours questioning and instructing the members.

A Warning

To the People of Salem.

A Capital Journal reporter happened in the store of our well known druggists, G. W. Putnam Co., the other day, and in speaking of the sudden changes in the weather and the sickness which seems to be so prevalent, a member of the above firm remarked: "Such weather cannot help but result in colds, coughs, bronchial troubles, the grippe and other sicknesses. The weather is also bad for old people and those who are run down or have a tendency to any weakness or disease."

Continued he, "It seems to us that you should warn every man, woman and child in Salem, especially the aged and run down, through the columns of the Capital Journal, to build themselves up and take proper precautions to ward off sickness, and there would be very much less suffering and fewer deaths in Salem this winter."

When asked what they considered the most universally successful medicine they had ever sold in their store for that purpose, without hesitation the well known druggist answered, "Our modern cod liver oil preparation, Vinol, and if people knew what a grand protection to health it is, we would not have clerks enough in our store to supply the demand. You know it is not a patent medicine, as everything in it is named on the label, and it does not contain any oil to clog the system and upset the stomach, but it does contain every one of the medicinal, curative and body building elements of cod liver oil actually taken from fresh cod's livers."

"Vinol cures coughs, bronchitis, strengthens the old, builds up the weak and run down, and makes rich, red blood. If it fails we will return the money paid for it." G. W. Putnam Co., Druggists.

were original and amusing. The following program was rendered: Piano solo, Jenny Fry; reading, Ethel Thomas; piano solo, Marion Huss; vocal solo, Albert Egan; piano solo, Frances Smith. The remainder of the evening was spent playing games, in which everybody took part. Refreshments were served, which consisted of ice cream, cake and wafers. The last thing of the evening was a grand march, and the jolly sophomores adjourned at 10:30, boasting of the best evening of the year.

The high school debating team met in the school building Friday evening to discuss the question that is to be debated with Roseburg. Mr. Mariette and Mr. Powers spent two hours questioning and instructing the members.

Favors Philippine Lumber.

Washington, D. C., March 19.—The recommendation of General Leonard Wood that native woods be used in the construction of army buildings in the Philippine islands is endorsed by army quartermasters who have charge of that work, as being the most durable and as answering the purpose in all respects much better than the lumber brought from the United States. The quartermaster-general's office, in this city, has been gathering some statistics on this subject, and, according to reports received from various parts of the islands there is no doubt that native wood would be all that is claimed for it by its advocates. Its use, however, would cost the government about five times the price represented in the employment of American lumber, including the expense of trans-Pacific delivery. In the first place there are few, if any, facilities for obtaining the lumber, which is acquired in the Philippines from the native forests. Another item to be considered is the inter-island transportation. The means for this service are limited, necessarily, in the islands, both on land and water, and it would require a great increase in the system of transportation under the quartermaster's department to have this wood delivered at the mill or at the places where it is to be used. There would have to be plants established for the preparation of the material for construction purposes. These three features would bring the cost of native wood employed in army construction up to a prohibitive rate. It will be several years, therefore, before army or other government constructions in the Philippine islands will be able to depend entirely upon native woods.

Torture by Savages.

"Speaking of the torture to which some of the savage tribes in the Philippines subject their captives, reminds me of the intense suffering I endured for three months from inflammation of the kidneys," says W. M. Sherman, of Cushing, Ma. "Nothing helped me until I tried Electric Bitters, three bottles of which completely cured me." Cures liver complaint, dyspepsia, blood disorders and malaria; and restores the weak and nervous to robust health. Guaranteed by J. C. Perry, druggist, Salem, Oregon. Price, 50c.

CLASSIFIED

FOR SALE.

For Sale.—Dir., suitable for lawns and other purposes. Phone 464X. 3-12-1m\*

For Sale.—A No. 1 young Jersey cow, giving milk. Inquire at 1768 Court street. 3-17-3t\*
