

STRANGE FACTS.

It seems strange that sometimes your stomach or bowels won't digest your food, no matter what you eat.

It may be the weather, or it may be just the state of your general health, but in any case, there is only one certain, safe and positive method of cure, and that is the proper use of that universal remedy for all forms of dyspeptic trouble or digestive weakness, whether in stomach, liver, kidneys or bowels—Stuart's Dyspepsia Tablets.

Strange it is, that in such little tablets, to be taken a few times a day, may lie such wondrous potential possibilities, that by their use the course of a man's whole life—yes, of the world—may be changed.

Yet, who would not appreciate the fact that if Napoleon had not been suffering from cancer of the stomach he would have won instead of lost—at Waterloo?

And Stuart's Dyspepsia Tablets would have cured his stomach trouble had they then been invented, as they have cured thousands of others in the past ten years, who have suffered just as Napoleon did.

So you can readily appreciate that today, by curing all these people, Stuart's Dyspepsia Tablets is helping to get the world's work done, by people who would do worse work if they were sick, so they must be having a great influence, in a quiet way, on the world's progress.

They may, therefore, be classed as one of the triumphs of science, amongst other discoveries in medicine, mechanics, transportation, etc.

Let this, then, remain in your memory, a fact upon which to act when occasion requires—

When any organ in your vast digestive machinery gets out of order, you have at your command one of the great inventions of the age, in Stuart's Dyspepsia Tablets, to put your machinery in order again.

By so doing you will save much useless friction, add to the energy and working possibilities of your bodily machine, and relieve yourself from suffering, disease, weakness, premature old age and death.

All this is strictly in accordance with the most modern teachings of the best scientific schools of health, hygiene and medicine, and it will be to your advantage to lay these facts to heart.

Don't hesitate. Try Stuart's Dyspepsia Tablets today.

PORTLAND OPPOSES TOOZE LOSS

Never Helps Development of Rest of State

(Marshfield Mail.)

With all professions of fairness, the Oregonian seems to be hostile to Walter L. Tooze of Woodburn, because Tooze is ready to help the coast towns. Making desirable harbors along the coast, together with possible railways from the southern and interior sections of the state, is what Portland doesn't want, never has wanted, and it appears, never will want. Suppose we resolve that Portland influence has kept us back long enough?

It is very evident that Tooze is not afraid of Portland. He has cut loose from all dependence upon the friendship of that city to get him the nomination for congress and is making his campaign on principles that are sure to bring down upon him the strong opposition of the Portland influence.

This is but natural, that Portland should oppose what, in her short-sighted views, looks like an injury to her own interests. Portland is the metropolis of the state. She wants, naturally, to remain so. She knows that the building up of a great seaport city at Coos Bay would leave her second in importance, and would divert from her the trade and business of a very large part of the state which is now tributary to her. As a matter of fact, while that is going on, those portions of the state which will always find an outlet through the Columbia river will fill up with new people to such an extent that Portland will continue to grow and prosper; but she does not care to calmly submit to taking a back seat, and prefers, as long as possible, to retain the first place. To do this, she must watch every corner, and especially the matter of the congressional representation of the district.

She wants a man who will make his great effort for the Columbia river and will divert to other coast harbors only so much of government appropriation as may answer for the needs of local trade. A man who will work with all his energy, as Mr. Tooze is unconditionally pledged to do, to make Coos Bay a better harbor than the Columbia can ever hope to be, is not the man whose candidacy will meet with favor in Portland.

As to whether it should meet with favor here and in other places to be benefited by the work Mr. Tooze has laid out for himself, this may well be left to the sober common sense of our people.

OREGON SUFFERS LOSS

Needs Men of Character to Increase Her Influence

(Corvallis Times.)

There is a measure of the inexplicable in certain discriminations Oregon suffers at the hands of those in authority at Washington. The state is orderly and well behaved and has, year after year, "dutifully" gone Republican. She sent her quota of men for the national defense when Spain blew up the Maine, and the gallant record of those who bore the name of "Oregon," both on land and sea, is magnificent history. She has ever done all the things that one of the most dutiful commonwealths in the sisterhood of state could do, and yet there stands the known record of discrimination in the transport service. Even more glaring, however, is the downright neglect of the state in the matter of appropriations for military purposes, in which respect Oregon, in comparison with California and Washington, might as well be off the map.

Thus, California at the present time receives over \$1,000,000 annually from national appropriations, not counting river and harbor improvements. About 35,000 officers and soldiers and employes are located there, as follows: Forty-five companies of infantry and artillery, 12 troops of cavalry, United States general hospital, all division and department purchasing quartermaster and commissaries, headquarters of division, regiment and transport service of the Pacific; Benicia barracks, arsenal, Mare Island and Vallejo navy yards; soldiers' homes at Youngsville, Napa and Los Angeles; Yosemite and Sequoia parks controlled by regular troops; manoeuvre camp for 25,000 men near San Luis Obispo, naval training station in San Francisco bay and the military prison, Alcatraz Island.

Torture by Savages.

"Speaking of the torture to which some of the savage tribes in the Philippines subject their captives, reminds me of the intense suffering I endured for three months from inflammation of the kidneys," says W. M. Sherman, of Cushing, Me. "Nothing helped me until I tried Electric Bitters, three bottles of which completely cured me." Cures liver complaint, dyspepsia, blood disorders and malaria; and restores the weak and nervous to robust health. Guaranteed by J. C. Perry, druggist, Salem, Oregon. Price, 50c.

Reforms in Hospital Service.

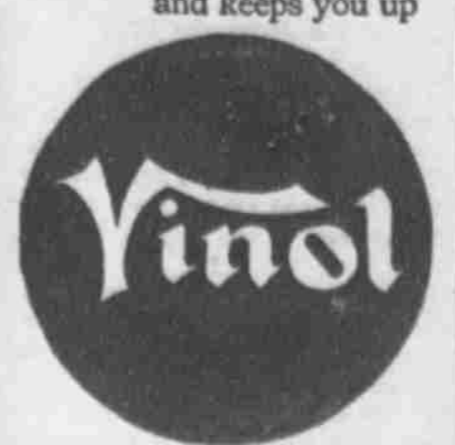

New York, March 21.—An important step for the benefit of the medical department of the New York National Guard will be the formation of a field hospital, to be attached to the National Guard headquarters. It is believed that the new branch will greatly facilitate the proper caring for the sick or riot duty. This is, to some extent, an experiment, and it is expected that other states will follow the example of New York, should the experiment prove a success.

The field hospital will conform to army methods as far as the state service will permit and will not in any way interfere with the present regimental hospital corps, which will remain unchanged. The field hospital will be a great aid to the regimental organizations in many ways, and can supply them with medical supplies, such as drugs, dressing, etc., when they run short. Not the least important work of the field hospital will be its aid to the regimental hospital corps in caring for the sick and injured. All sick men in care of the regimental hospital who may not have recovered after twenty-four hours, can be turned over to the field hospital, as is done in the army. The field hospital will then be responsible for the sick or injured and, if men are unable to be removed to a permanent city hospital they will be cared for in the field until recovered and a regiment will not be loaded down with sick or injured men.

The field hospital will be equipped with all the latest government supplies such as ambulances, wagons, stretchers, cots, etc. It will consist for the present of four officers and forty-six enlisted men. The latter, who must be of superior intelligence, will be enlisted for five years. The commanding officer will be a surgeon with the rank of major, and the other commissioned officers will be three assistant surgeons with the rank of captain. Among the enlisted men will be the proper quota of hospital sergeants, men instructed in diet and ordinary cooking, trained nurses, etc., and also a sergeant who must be a pharmacist.

All that medical science has learned in the Russo-Japanese war will be taken into account by the new field hospital, and it will have a portable

Vinol builds you up and keeps you up

Our delicious Cod Liver preparation without oil. Better than old-fashioned cod liver oil and emulsions to restore health for Old people, delicate children, weak run-down persons, and after sickness, colds, coughs, bronchitis and all throat and lung troubles.

Try it on our guarantee. G. W. Putnam Co., Druggists, Salem, Or.

laboratory, where water, food, ground, etc., can be examined, in order to prevent disease. New York will be the first state where the National guard will be equipped with such an outfit. The new hospital service can easily be expanded if the necessity should arise, as in the case of trouble. In addition to thorough instruction in medical duties, each man will be instructed in horsemanship, with and without saddle, and the state will make proper allowance for this and other expenses connected with the new branch. Dr. William S. Terriberry of the Twelfth regiment will command the new field hospital. He will probably be assisted by Dr. William E. Butler of the Twenty-third regiment and Dr. T. A. Neal, late of the Seventh regiment.

STATE NEWS.

The little town of WhiteLake in Eastern Oregon, is soon to be in the midst of a big business boom. There is to be a bank, general store, flouring mills and other business houses established. Stephen Van Houten, a well known horseman and ex-hotel man of Roseburg, was found dead in bed at his home there Sunday afternoon. The cause of his death was heart disease. He was well known in the Willamette valley.

Earl Gaddis, of the Melford creamery, has been in Jefferson the past week, purchasing a car load of Jersey milk cows from the N. H. Looney stock farm.

Morgan Watson has been elected captain of the 1906 baseball team of the Eugene high school.

Seth Kerran, one of the U. of O.'s football players, is lying seriously ill of typhoid fever at a Portland hospital.

The shortage of labor at the Booth-Kelly mills at Eugene is becoming a serious problem, and it may mean a tie-up in the work. Efforts are being made to secure men from the middle west.

The members of the state health board which visited Eugene a few days ago, have made their report, which severely censures the Eugene Water company and the city officials for negligence in permitting conditions that have existed there. They say the water company's wells are a culture

A SALEM CASE.

Many More Like It In Salem.

The following case is but one of many similar occurring daily in Salem. It is an easy matter to verify its correctness. Surely you cannot ask for better proof than such conclusive evidence:

Mrs. E. Collins, of 679 High street, Salem, Ore., says: "Trouble with my kidneys and backache have caused me much annoyance for several years. Although I used a good many remedies I obtained no positive relief until my attention was called to Doan's Kidney Pills, and I procured them at Dr. Stone's drug store. They soon brought me effective benefit, eased the bearing down feeling through the back and loins, and banished the aching and other symptoms that had annoyed me for so long. I have since learned of others who think the world of your reliable remedy and I gladly recommend it to all suffering from backache or kidney trouble."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Distilled Water, Distilled Water ABSOLUTELY PURE In manufacturing our Hygeian Ice we use only DISTILLED water. This water is chemically pure. We always have a limited supply of the same on hand aside from that used for ice purposes and will gladly furnish the same in small quantities to the citizens of Salem. We make no charges for the water. However, those who desire it, must call for the same, as we do not deliver. As the public undoubtedly knows, we manufacture and sell beer, a product equally as pure as our distilled water, which possesses also food and health qualifications that are superior to any other liquid produced by the hands of mankind. However we realize the absolute necessity of having a pure drinking water, especially now when typhoid and other fevers are creating such havoc, and upon the suggestion of several of the local physicians, we have decided to give away whatever of the distilled water we have on hand daily and which is not used in the manufacture of beer and ice. It goes without saying that we would sooner sell the people of Salem our beer, but in an emergency of this kind, we are pleased to give them distilled water. We only ask those who desire it to call for it.

Salem Brewery Association Jewelry Goodness We buy from the best manufacturers. It is our intention to sell the highest grade of jewelry. If a ring, a pin, a watch or any article of jewelry whatever goes from here which isn't as represented, we are here to give satisfaction—to make amends. We want your jewelry trade—we shall try to deserve it. C. T. POMEROY Jeweler and Optician, 318 State St.
