Every bill for printing is also carefully audited by the Secretary of State. Mr. Dunbar is acknowledged to he one of the best officers the state has ever had, and his auditing stamp of approval is suf-

The heavy cost of printing in past years has been chiefly due to the large number of copies printed. This has been reduced by law, and the price now paid by the state for most of the public printing is not above that charged by Printer and the practical workings of the printing firms of Portland, and some of it is considerably less, For some classes of work, especially where a large number of copies are required for "printing" conveys a wrong impress to be printed, the price should be reduced somewhat.
