

DAILY CAPITAL JOURNAL.

VOL. XLV. SALEM, OREGON, TUESDAY, APRIL 3, 1906. NO. 80.

DOLAN A STAND-PATTER

Refuses to Let Go of Office, Though Bodily Fired by His Fellow Miners

Pittsburg, April 3.—The district convention of miners met this morning. Dolan, the deposed president, and Frank Feehan, the newly elected president, were both present. Dolan proceeded to call the convention to order. Feehan refused to engage in the strife and the convention chose S. A. Wetzel chairman. Wetzel and Dolan from opposite stands proceeded to preside, and the meeting was in the utmost confusion.

The convention voted to expel Dolan from the meeting and membership. Dolan resisted all attempts to eject him from the hall. An adjournment was taken until means of ejection without an open fight could be found.

After holding his position two hours Dolan was dragged from the rostrum and forcibly ejected. He will seek redress in the courts.

Philadelphia, April 3.—The operators' agents, here from New York, Chicago, Pittsburg and St. Louis, are signing strike-breakers by the hundreds. They are determined to work their mines.

Wilkesbarre, Pa., April 3.—Thomas Tague and a man named Titus, employed at the colliery, were assaulted by Italian strikers this morning. This is the first trouble since the suspension.

The Last Conference.

New York, April 3.—The anthracite operators' and miners' conference began at noon. There is little hope of peace.

LAND FRAUDS BLOOM

Spring Breezes Cause the Old Lilac Anything Tree to Bud and Blossom

Portland, April 3.—The federal grand jury this afternoon returned a secret indictment for land frauds, covering 36,000 acres in the Lakeview district, in Southern Oregon. It involves 30 people, including millionaire Eastern lumbermen. The jury's findings will be kept secret until arrests are made. The present efforts of the government are directed toward the punishment of the real beneficiaries of the frauds, the timber kings of the East.

Once More the Patrick Case.

New York, April 3.—The hearing of the motion for a new trial in the case of Albert T. Patrick, who is under sentence of death for the murder of William Marsh Rice, was begun before Recorder Goff today. District Attorney Jerome will strongly oppose the motion for a new trial, maintaining that no new evidence has been submitted to weaken the case of the state. He will make a formal demand that Patrick waive his privilege and allow his attorney, Frederick B. House, to testify to the confession made to him by Patrick, which practically tallied with the testimony of Charles F. Hones, the valet. It is not expected, however, that Patrick will permit his lawyer to testify to that effect.

Judgment by Stipulation.

In the circuit court this morning, in the case of John Pemberton vs. Mark Bloom, a suit for recovery of real property, judgment was given for the plaintiff as per stipulation.

THE EARTH SHOOK AT ASHLAND

Democratic Candidates Must Have Left the County and "Got Off the Lid."

Ashland, Or., April 3.—A distinct shock of earthquake was felt here at 9:10 last night. Buildings were shaken and windows rattled. It lasted several seconds.

Celebrating Fall of Mukden.

Tokio, April 3.—There is nearly as much enthusiasm and excitement in this city today as there was during the exciting days of the late war. The whole city is decorated, partly in honor of the anniversary of the accession of Emperor Jimmu Tenno, in the year 660 B. C., and partly in honor of the celebration in memory of the fall of Mukden, one of the greatest achievements of the late war.

The principal feature of the day will be an enormous parade of 100,000 men, including veterans of the late war and, especially, the prisoners of Mukden, who have only recently returned to their homes. The parade will start from Hibiyu park, will pass the Imperial palace, to cheer the emperor, and will then proceed to Uyeno park, where commemorative exercises will be held.

Two Hearts but No Consolence.

Naples, April 3.—The police of this city are looking for Giuseppe di Maggio, a freak possessed of two hearts but, evidently no consolence. Some time ago a medical institute of New York bought Maggio's body, to be delivered after his death, for \$8,000. With this money Maggio settled down in Naples and lived merrily in his capital, which was soon spent. He ingratiated himself into the favor of a wealthy landowner, whose sister he promised to marry. He pretended he was to receive a large sum of money from America and supported his story with a fraudulent cablegram. On the strength of his story he borrowed money right and left, including his prospective brother-in-law, and then skipped. A warrant is out for his arrest.

Mixed Up With a Burglar.

San Jose, Cal., April 3.—In a desperate duel with a burglar, early this morning, George Douglas, a wealthy mining man, was shot through the abdomen. The burglar, who gives his name as Fred Paul, was wounded in the right leg by a bullet from Douglas' revolver, and was captured by Sheriff Rose at Santa Clara, a few hours later. Douglas is seriously wounded, and at the hospital, with the chances for his recovery very doubtful. Paul's wound is not dangerous.

About Chinese Exclusion.

Washington, April 3.—Secretary Metcalf today sent to the senate four amendments to the Chinese exclusion laws which he said will have the support of the administration, and which provide for the issuing of passports in China, for appeal to the courts by Chinese excluded, for registration of all Chinese now in the country, and for the removal of the restrictions on the Chinese who return to China and then wish to re-enter the United States.

Take Things Easy.

Stockton, Cal., April 3.—When informed today that she had been indicted for the murder of Albert McVicar, Mrs. Emma LeDoux betrayed not the slightest emotion. She will probably be arraigned late this afternoon.

Students Have a Time.

Santa Cruz, Cal., April 3.—The Pacific students conference at Capitola listened to an address today from Rev. R. C. Brown of Oakland. They went on an excursion to the Big Trees this afternoon.

See our Easter windows. We have over a thousand Easter novelties that sell for five cents each.

Also expensive ones. We know our eggs are good, because we made them ourself.

TACOMA HAS AN ELECTION

Hot Contest for the Offices in the Penumbra of Seattle and Shadow of Portland

Tacoma, April 3.—The hottest election in the history of the city is on today. There is a three-cornered fight between the Republicans, headed by R. L. McCormick, for mayor; the Democrats, led by George Wright, and Municipal Ownership, led by John Hartman.

Tacoma, Wash., April 3.—At the election today an amendment to the charter is to be voted upon, giving the council the right to grant franchises for crossing the city waterway between Ninth and Fifteenth streets. The Union Pacific is quite frank in saying it wants the adoption of that amendment.

Representatives of that road say that if the amendment is not passed the whole railroad situation in Tacoma will be changed. Property now bought for the road's interest on Pacific avenue, between Thirteenth and Fifteenth will be resold. It will not be needed. The line down Jefferson avenue east then be nothing more than a spur. The Union Pacific does not put this forth as a threat, but simply as a plain statement of the road present conditions.

Avowed Union Pacific workers are at the polls today, working openly and actively for the adoption of this amendment. There is no secret now about the matter.

The chairman of the three parties tonight gave out forecasts as to the probable result at the municipal election tomorrow. Ralph Metcalf, chairman of the Republican committee, said:

"Our reports indicate that there is every probability of McCormick's election. He will probably carry every ward in the city. There are only two wards about which there can be any doubt, and unless there is a very large Republican vote cast for Hartman, McCormick will have the largest plurality ever given any Republican candidate for mayor in Tacoma."

Carl Eshelman, manager of the Wright campaign, predicts the reelection of Mayor Wright by a plurality of 2000 votes over McCormick. S. A. Beadle, chairman of the municipal ownership committee, said:

"On entering this campaign the Municipal Ownership party was practically pledged 2500 votes. This number has been rapidly increased, and today we can positively show a strength of more than 3000 votes."

VOTE TO MAKE HISTORY

(Four O'clock Edition.)

Chicago, April 3.—The municipal ownership fight on today is the most spirited of the year, and in the election history of the city. The general opinion is that the vote is largely in favor of municipal ownership. But the personal fight Harrison is making on Dunne has offset the current toward the city's control of public utilities.

Dunne is confident that municipal ownership will win, and thinks it will gain at least six municipal ownership votes in the council. Republican leaders assert that municipal ownership cannot get the requisite three-fifths. The Socialists are devoting their attention to the support of municipal ownership, but don't expect to elect the aldermen.

Reforms Go Slow in Russia.

St. Petersburg, April 3.—Today is a memorable day in the history of Russia. It is not only the anniversary of the emancipation of the serfs, but also the day for the beginning of the elections for the national assembly in 28 provinces of Central Russia.

Some Democratic Candidates.

The following Democratic candidates for precinct committeemen filed their petitions with the county clerk today: F. N. Coleman, of St. Paul; J. M. Bellamy, of East Salem; Frank A. Bell, of Sublimity; A. M. Duryeple, of Salem, ward No. 5.

SENATOR BURTON CASE UP

United States Senator Before the Supreme Court to Defend His "Honor"

(Four O'clock Edition.)

Washington, April 3.—Senator Long, of Kansas, spoken on the rate bill in the senate this afternoon. Tillman presented his daily report, "a request from the senator from West Virginia that he be kept posted as to the situation." Tillman said he might consider it. Burton's argument before the supreme court was heard today.

The Oakland Strike.

(Four O'clock Edition.)

Oakland, Cal., April 3.—The first violence attendant on the threatened strike of the Oakland street car employees occurred this morning, when a crowd of school boys hurled stones at an enclosure where 150 strike-breakers were camped. None were injured. Most of the strike-breakers are from Los Angeles. It is reported that many decamped during the night. The traffic on the company's ferry line has fallen off, the people fearing to buy commutation tickets, which are useless in the event of a strike. Officials of the union and the company are in session this morning, endeavoring to reach an agreement and avert a struggle.

Pennsylvania Dentists Meet.

Pittsburg, Pa., April 3.—The annual convention of the Odontological society of western Pennsylvania opens here today for a two days' session. Between 200 and 300 dentists from all parts of the state are in attendance. Besides the regular delegates to the convention there are several hundred dentists from all parts of the state here to attend the dental exhibition held in the laboratory of Lee S. Smith & Son. Seventy-five manufacturers of dental goods in all parts of the United States are represented in the exhibition. Among the speakers who will address the convention is Dr. J. Q. Byram of Indianapolis, an authority on porcelain work.

Operators Have Lost.

Springfield, Ill., April 3.—The miners' headquarters announce that they have signed agreements with 100 operators in this state on the 1903 scale. Some are running today, and all will be running within a week.

Railroads Tied Up.

Bakersfield, Cal., April 3.—The condition at the Tehachapi landslide is unchanged. Large gangs are at work clearing the tracks. It is reported the tunnel has shifted two feet from its original position, and it is said to have been dynamited. Both the Santa Fe and Southern Pacific are transferring passenger trains, over a day late. It will probably be two days before the lines are cleared.

Robbins Plays Fair.

Litchfield, Ill., April 3.—All Illinois properties of F. L. Robbins have been notified that the scale has been signed and the mines will start as soon as they are ready.

The New Olympiad.

New York, April 3.—Thirty-two American athletes sailed today to participate in the Olympian games at Athens, April 23 to May 2.

ELIJAH SECOND IS OUT

Zionists Now Say He Had No Divine Power, and Repudiate His Teachings

Chicago, April 3.—Voliva and the other directors of Zion have adopted a new creed, and a financial policy to save the residents from suffering for necessities. Voliva says:

"The church will be conducted as a Christian co-operative community; it will continue to respect Dowle for the good he had done, but we now see he never possessed divine power. We do not believe any man among us is the direct authorized agent of God, but all are humble workers for the common good."

It is planned to raise a million dollars immediately. No word has yet been received from Dowle in answer to the telegram sent yesterday.

(Four O'clock Edition.)

Chicago, April 3.—After a conference the overseers and deacons this morning announced that a telegram had been received from Dowle, requesting immediate and complete reports of the Sunday meeting. It is assumed that he has not received the official dispatch announcing his deposition as the head of Zion.

A number of letters have revealed, it is said Dowle's loose conduct, as alleged by his wife and son, and other members of the community. It is reported Dowle claimed last fall he "had a revelation from God to divorce his wife, because she was disobedient," and it is said that the papers filed at Waukegan, Michigan, were withdrawn when he was forced to leave on account of his health.

Atlantic-Pacific Beach Races.

Atlantic-Pacific Beach, Fla., April 3.—Several thousand people, mostly from the various winter resorts of Florida and other southern states, have come here to witness the great Atlantic-Pacific Beach automobile tournament, which begins here today. As in Ormond-Daytona, the races are held on the beach, which affords ideal conditions for such a purpose. Today is devoted exclusively to speed contests of from one to one hundred miles for motor cycles. The automobile races will not begin until tomorrow and will extend over three days, closing on Friday.

Will Now Work the Country Editors.

Chicago, April 3.—The Illinois coal operators have organized a bureau of publicity, to keep the public posted as to the operators' side of the controversy. Richard Henry Little, formerly war correspondent, is at its head. It is announced today that only one company has deserted the ranks of the operators.

Dead Man Identified.

Portland, Or., April 3.—The decomposed body found on the heights at this city have been identified as those of Wm. B. Davis, a son of the former governor of Maine. He is a brother of the engineer in charge of the Umatilla reclamation project, and came here seeking work.

Torpedo Boat Sunk.

Lihau, Russia, April 3.—A torpedo boat was sunk today during the maneuvers. All aboard were saved.

CHICAGO STORE

PEOPLES BARGAIN HOUSE

A Bewildering Array of Beautiful New Spring Goods.
