## TEN MORE FROM THE DEPTHS

### FRANCE'S MINING HORROR

#### After Being Buried a Month, the Emaciated Victims Are Restored to Their Families

Leas, France, April 4.—In the mine from which 13 miners were taken alive Friday, after being buried 20 days, this morning searchers found 10 others alive in pit No. 4. They were brought to the surface and it is hoped the attempts to resuscitate them will be successful.

One more survivor of the Courrieres mine disaster was taken from the workings this morning. He was barely alive. His name is Berthon. He said the members of the party with him died one by one, after having eaten the corpses of two apprentice boys found in the mine.

where evidently there are more men to be rescued. This news is not yet published in Paris, but is bound to increase the indignation against the engineers, who, it is alleged, instead of trying to save the miners, simply blocked the entrance to save the property. There seems to be every reason to believe that hundreds could have been saved but for this action. With their backs to the wall, fighting public wrath, the engineers are making sensational disclosures, declaring they obeyed the orders of the mine owners.

#### Balloon, But No Ballonist.

(Four O'clock Edition.)  
New York, April 4.—Life savers this morning reported the finding of the balloon in which Paul Nœquet, the sculptor, ascended yesterday on the beach at Long Island. Tracks about the badly damaged balloon indicated the aeronaut had escaped.

### TEXAS SHOOT SOME

#### Hits Target Four Out of Five Times With Big Ten Inch Guns

Pensacola, Fla., April 4.—The battleship Texas came in today, reporting the result of target practice. She made a record of 12 hits in 15 shots, fired at the rate of 10 shots in 45 seconds, with 10 inch guns.

#### Car Men's Strike Averted.

Oakland, Cal., April 4.—At 3 o'clock this morning the car men's union unanimously adopted the agreement reached yesterday between their leaders and the Traction Company, thus avoiding the threatened strike. It is only a partial victory for the men, the main points gained being the recognition of the union, and the hearing for discharged employes, together with minor concessions. He demand for an increase in wages was not granted. The present wage scale is to remain in force until January, 1907.

#### To Study Lowest Human Types.

New York, April 4.—Dr. Nicholas Sann of Chicago sailed today for a four months' tour through Africa for the purpose of making a study of the lowest types of humanity to be found in the equatorial regions of the dark continent. He will first go to Lisbon, Portugal, to attend the annual session of the Medical congress. From there he will cross the Mediterranean to Africa and travel by caravan and rail from northern Africa to the south end. He expects to arrive at Cape Town after a journey of four months.

#### The Pittsburg Dog Show.

Pittsburg, April 4.—The great bench show under the auspices of the Duquesne Kennel club opens here today at the Duquesne Garden, which is a building containing floor space nearly equal to that of Madison Square Garden in New York. The show promises to be superior to any previous show ever held in this city. The number of entries is larger than ever before, and there are more fine dogs on exhibition than in any former year. The list of prizes includes more than 60, besides the regular awards, an increase of about 50 per cent over last year.

Some of the special prizes offered are very valuable. A new feature of this year will be the competition for packs of hounds. Every known breed of dogs is represented in the exhibition and among the dogs displayed are some of the most famous prize winners of the great eastern and western shows. The judges are Francis C. Taylor of Philadelphia, George B. Post Jr. of New York, George E. Thomas of Hamilton, Mass., and James Mortimer of Hempstead, R. I.

C., April 4.—The Republican members of the senate and the house of representatives will hold a caucus this afternoon for the purpose of selecting a congressional committee to serve during the campaign of 1906. #### Ask Damages From the King.

Halifax, N. S., April 4.—The case of O. M. Ousestady versus the King was taken up for hearing before the exchequer court this morning. Judge Burbridge presided. The plaintiff is from New York and is suing the Dominion government for damages for injuries, etc., received in the Millford wreck of the Inter Colonial railway in 1904. He was one of the passengers on the train leaving Halifax on the morning that the railway disaster occurred. He claims that he was slightly injured, that he lost a diamond valued at between \$400 and \$500 damages and other personal property. He also claims \$2000 damages for loss of time. The case is a test case, as several other passengers, who were on the same train have filed claim for damages, and whether they will be tried or not depends on the outcome of the present suit.

#### Need Cattle for the Indians.

Washington, D. C., April 4.—The commissioner of Indian affairs will open bids for supplying heifers and bulls for the Indians at the Rosebud agency in South Dakota this afternoon. The contract calls for 4981 heifers and 200 bulls. The heifers are to be not less than 700 pounds each. Bulls are to be not less than two or more years old, to weigh not less than 850 pounds each, and to be not less than three fourths Hereford or Durham.

Proper certificates are to be furnished on demand. The animals must be delivered at the agency not earlier than June 1 nor later than June 15, 1906. The animals furnished will all be thoroughly inspected and every precaution will be taken to prevent violations of the contract. The number of bids which have been received is quite considerable, and it will require some time for selecting the most favorable offers and to compute the prices charged by the competitors.

#### Big Boxing Carnival.

San Francisco, Cal., April 4.—A big boxing tournament for the American amateur championship will begin at the Mechanics' Pavilion this evening under the auspices of the Olympic club. The number of entries is very large and the various bouts will fully occupy this evening and tomorrow evening.

#### Has Some Rights.

Boston, April 4.—For the first time in the history of the law courts of Massachusetts, the full bench of the supreme court handed down a decision declaring that a married woman has the right to bring action against other women for the alienation of a husband's affections. For hundreds of years a husband has had a right of action against another man for alienating his wife's affections. The decision was in the case of Mrs. Anna Nolia, of Newbury, who has sued Marion Pearson, of the same town.

#### Miners in Conference.

New York, April 4.—The anthracite miners met this morning to discuss what the next move would be, when the joint conference reconvenes tomorrow.

#### Will Be Tried in May.

(Four O'clock Edition.)  
Stockton, Cal., April 4.—District Attorney Norton plans to have the trial of Emma LeDoux, for the murder of Albert McVicar, begin about the middle of May. She will be brought into court to plead to the indictment April 10th. Sheriff Sibley stated this morning that he allowed McVicar's brother and uncle to interview Mrs. LeDoux in jail in regard to a patent for an invention about which McVicar had written them, but of which nothing has been heard since. It is believed it is valuable. He wished to get information from the woman regarding it, but nothing was said about the murder case. No others have been allowed to see the woman. Officers are tracing Mrs. LeDoux's movements from the time she placed the body in the trunk until she appeared at the railroad depot. It was found she was in a millinery store from 11:30 until 12:30 that day and bought a hat. She also bought a bill of goods at the Wonder dry goods store shortly after 12:30. The prosecution is still seeking to discover the motive for the murder.
