**READY FOR THE Vehicle Trade**

We are now prepared with the most complete assortment of rigs that the discriminating buyer could ask for. No matter what you want, be it a heavy hack, a heavy or lightweight surrey, a top buggy, an open runabout or road wagon, or a delivery wagon, we can fix you up with reliable goods at a proper price.

**One Hundred Dollar Bike**

Comes in full panel seat, half panel seat, or stick seat; 1 1/4 inch cushion tires, axles slightly different from cut, being wood capped entire length. Fine padded dash, good leather trimmings, clipped wrought Baily hangers and many other features common to rigs of larger cost. These rigs are fitted with the celebrated WARNER WHEELS, which combine the neat appearance of the wood hub wheel with the strength and durability of the Sarven hub, and are certainly the best wheels ever offered on this class of work.

**SAME RIG FURNISHED WITH TOP. CALL AND INSPECT**

This is our fourth season with this line of bike wagons, so we know they're all right.

**Studebaker Izzet Buggies**

Here is one of the types of rigs that makes friends for the dealer every time he sells it.

We get these in the top buggy shown above, in three weights, and in all styles of runabouts and surreys. The buggy here shown is probably to be found in use by more people than any one other buggy in Oregon, or for that matter in the United States.

First-class materials marks every part of its construction, while easy riding springs, full length body, and fine cushion and back upholstery make it the essence of comfort for the driver.

We want to "show you" why it is good. Call and see.

**Studebaker Village Wagon**

What we've said about the buggy applies to this hack, as regards the number in use and their intrinsic worth.

We get these in two weights, the 1-inch axle and the 1 1/4. Shafts, brake or pole if desired, with or without top. They are in use as farm hacks, delivery wagons, fruit or berry wagons, and in fact any place where a medium weight vehicle can be put to service.

The quality of the woodwork and ironing is of the standard Studebaker grade, which simply means that they are guaranteed from top to bottom and the constantly increasing number in use proves their worth. Drop-seat and movable seats make them very desirable for the man who has to use them for a general purpose wagon. Wood dash as well, more durable than leather, for a hack.

We want you to feel free to ask to be shown through our stock of rigs. We carry a few on our lower floor but the larger portion of our stock on second floor. Plows, harrows, cultivators, disc harrows and all sorts of implements for spring. See wheel ad other columns.

**Lovers of Good Cheer.**

One of the early impressions which a stranger gets in this city is that the people here live to eat. San Francisco probably has more restaurants in proportion to population than any other city in America. Many of these establishments are fitted up in the most lavish manner, and in a majority of them it is possible to get good meals at surprisingly low prices. It is claimed by the people of San Francisco that it is cheaper to eat here than in many of the large cities of the east. Whether this is so or not, it is undoubtedly true that one who cares to do so may eat well and pay comparatively little. It may at first be supposed that the many restaurants are due to the fact that San Francisco, like New York, always has a big floating population. In addition to the people who come here from all parts of the country merely as sightseeing tourists, it is a natural stopping-place from the Orient, the consequence being that the city is full of strangers at all seasons of the year. But there is another reason why San Francisco is full of restaurants. The residents have a habit of taking many of their meals away from home. The average family dines out two or three times a week, this practice being as much a part of the regular routine of life as is going to bed at night and getting up in the morning.—Kiser, in Chicago Record-Herald.

It should always be kept in the house for cases of emergency." 25c, 50c and \$1. Sold by D. J. Fry.
