

DAILY CAPITAL JOURNAL

BY HOFER BROS. Publishers and Proprietors.

ELIMINATION DATES TO REMEMBER.

- Primary election April 20. Registration books again opened April 25 and close May 15. Last day for filing names for state and district offices March 30. Last day for filing names for county offices April 4. Counting votes for nominating state and district candidates May 5. Last day for filing nominating petitions for county offices May 19. Last day for filing certificates of nomination May 5. General election June 4.

THE DINNER PAIL BRIGADE.

The city of Salem has a few institutions that give permanent employment—the electric system, the sawmills and woolen mills.

THERE IS LESS STREET IMPROVEMENTS AND PUBLIC IMPROVEMENTS THAN ANY CITY OF THIS SIZE ON THE COAST.

Let any man who wants to see life activity, enterprise, go out on South Commercial street, and see the laborers employed there.

THERE OUGHT TO BE TEN SUCH STREET IMPROVEMENTS IN SALEM.

The tin bucket brigade is what makes a live town. All the capital in the world would not do it without investment, industry, enterprise, payrolls.

Dead capital in the hands of dead men is not much benefit to any community.

THE NEW CANNERY AND THE PAINT FACTORY WILL BE GODSENDS TO WORKING PEOPLE.

The new electric road to Portland will be a means of putting new life in the country.

HAWLEY AND JOHN BROWN.

The editor of this paper has not attacked Prof. Hawley for his lecture on John Brown, the Statesman to the contrary notwithstanding. It is denied that Prof. Hawley did attack the memory of John Brown.

A circular is being sent to everybody, and the Statesman had better give its readers the truth about the matter, instead of personalities. LET IT GIVE ITS READERS THE FACTS AND THE TRUTH.

This paper has kept the John Brown matter down to a minimum, and has no desire to harrow up the feelings of the community over it. It was an unfortunate affair at the time, and all tried to let Hawley down easy.

The original account and the comments of the Grand Army posts and the matters about the John Brown lecture appeared in the Eugene papers and did not originate with the Capital Journal.

HAWLEY CAMPAIGN MANAGERS AT SALEM STARTED OUT TO CRUCIFY WALTER TOOZE BY PUBLISHING A PAGE IN THE NEWBERG GRAPHIC, A HAWLEY ORGAN, THAT TOOZE WAS A DRINKING MAN, RENTED A SALOON, WAS A GAMBLER, ETC.

That kind of high-toned campaigning reacted, and now they parade Hawley and Roosevelt as advising all to throw no bricks. The bricks began to come from the other direction, and they cry quit.

Old-fashioned Republicanism does not enter into the thought of the Hawley campaign managers. They think more of prohibition and the closed town policy than they do of protection, sound money or patriotism.

One thing is certain, THEY ARE

THE YOUNG MAN WHO HAS A BANK ACCOUNT—Has many advantages over the one who carries his money in his pocket. He learns to save the small sums which the other fellow spends in being a "good fellow." He builds up a good character and a good credit at the same time. This gives him a chance to make advantageous investments when opportunity offers, which the "good fellow" misses.

If you have no bank account, come in and we will start you right. You can open a checking account, which does not draw interest, or you can open a savings account which draws interest at three per cent per annum, compounded semi-annually. One dollar will open an account.

It is a pretty good plan in this world to do unto others as you would like them to do unto you if you were in their place.

Men who do not take broad views and stand by well-established and time-tested principles do not get to the highest stations in this world.

Half-Sick

When your nerves are weak, when you are easily tired, when you feel all run down, then is the time you need a good strong tonic—Ayer's Sarsaparilla. Your doctor will tell you why it has such power over weak nerves, why it makes the blood rich, and why it gives courage and strength. Ask him if it is not just the medicine you need.

We have no secrets! We publish the formulas of all our medicines.

Made by the J. C. Ayer Co., Lowell, Mass. Also Manufacturers of

- AYER'S HAIR VIGOR—For the hair. AYER'S PILLS—For constipation. AYER'S CHERRY PECTORAL—For coughs. AYER'S AGUE CURE—For malaria and ague.

NOT USING "JOHN BROWN'S BODY" AS A CAMPAIGN SONG. That is the old Republican music that the boys in blue marched to, and it sounds good in Republican ears today.

What do they care today for the principles that John Brown, Abraham Lincoln and other founders of the party died for, compared to the various political lems they are fighting for?

They would not hesitate to wipe the hop industry off the face of the earth, if it would promote the interests of the machine.

LET US BE THANKFUL.

That we are in peaceful Oregon, and not near to that awful, fire-vomiting mountain, Vesuvius.

WE HAVE VOLCANIC MOUNTAINS, BUT THEY ARE BEAUTIFUL, PEACEFUL, DOMESTIC, WELL BEHAVED.

No one loves to be blown up, covered with ashes, buried under red-hot, melted, scalding lava.

It is unpleasant to think of, and let us all rejoice to be in Oregon.

There is a volcanic eruption slated and due to transpire in Oregon April 20th, AND A LITTLE EARTHQUAKE JUNE 4TH. But we are used to those things. They are harmless and bloodless, though painful. They clear the air, settle the minds of the people to endure another round of government afflictions.

American eruptions and explosions are confined to highly-colored headlines in the newspapers—a dash of red ink.

So we have great reason to be thankful, although an eruption of Mt. Hood or Mt. Jefferson WOULD BE THE GREATEST ADVERTISEMENT OREGON COULD HAVE.

An occasional eruption of Mt. Vesuvius is the great drawing card of Italy.

CANDIDATES FOR SECOND TERMS

The editor of this paper is being misrepresented, because he refuses to boost for some candidates who are opposing men who are entitled to a second term.

It is a general principle in the public service that if a man holding a political office has done at all well HE IS ENTITLED TO RENOMINATION AT THE HANDS OF THE PARTY.

The Capital Journal is supporting every candidate for a state or a county office who is seeking a renomination. If officials cannot be given a second term, simply because some one else wants the office, both the public service and the party organization would suffer.

If W. J. Clarke, of Gervais, or Willis Dunnaway were state printer this paper would endorse them for a second term, just as it endorses a second term to every Republican state and county official.

Because we stand for this principle we are subjected to personal criticism. But that principle is stronger and better established than any man's claim on the Republican party.

The Capital Journal supports Sheriff Culver, State Printer Whitney, Attorney-General Crawford, Labor Commissioner Hoff and Judge Harris, and all people who have served the people well and want second terms.

It would support the Hon. Billy Clarke or the Hon. Willis Dunnaway if they had one term and wanted a second.

IT IS A PRETTY GOOD PLAN IN THIS WORLD TO DO UNTO OTHERS AS YOU WOULD LIKE THEM TO DO UNTO YOU IF YOU WERE IN THEIR PLACE.

Men who do not take broad views and stand by well-established and time-tested principles do not get to the highest stations in this world.

A TALK ABOUT PHEASANTS

A Game Lover Writes a Friend About China Pheasants and Other Things

Mr. Billie Taylor: Yours of the 9th inst came to hand all O. K. Would have answered sooner but have been extra busy. In regard to the China pheasant raising two broods per year, will say that there is not a word of truth in it. The China hen will hatch the second or third brood provided the first and second broods die in infancy, but if one chicken lives, that is all she will raise that year. This has been proven right here by turning the birds loose in a large park with one wing cut off at first joint. A dozen hens were treated this way, and in each case one brood was the result. I have in my house the testimony of Vernon DeGuire a bird raiser in New Jersey. He kept a large pheasantry with 19 varieties of pheasants; and he states positively that they only raise one brood per year that last year, 1904, a good April, May I could give you more proof but it is unnecessary. However, I may remark that last year, 1904, proved this beyond a doubt. You will remember that in 1904 we had a good April and May and June and only one rain in July; well, only about 15 per cent of last year's birds were late ones and those were the ones that were broken up in June by the crows, and also the haying, which began about the 10th of June on the clover and ended about the 10th of July on the other kinds of hay. If the China hen raised two broods per year, we would have had as many late as early birds.

As to the sale, will say that we should allow that, provided we allow our game to be killed at all. We allow the gunners to spend the money for the game and as not more than one in twenty can kill for themselves, we should allow that class, the non-shooters, to buy a few mouthfuls of the game which they cannot kill. All we have to do in this case is to make heavy penalties for killing beyond the limit, say \$100 fine for each bird, then the city sportsmen will obey the law as it is now. Not one in twenty pays any attention to the limit. Fifty ducks per week to the summer will not thin out the ducks, but one hundred to two hundred per day to the gun is done on the Columbia lakes and sloughs will, after a few years, exterminate the ducks.

As to the number of birds, pheasants, killed per year in this vicinity, will say that in Halsey precinct it will average 3000 per year. The amount legally marketed was about 35 per cent of this, and during the past four years has averaged about 12 birds per year to the gunner.

Shutting off the sale of birds has caused double the number to be killed out of season as compared to the past four years. The sentiment here is this, if we can't sell the surplus, we will eat it; and this year the eating began the 1st of July.

The new game law destroyed all the protection that we had here. Ninety per cent of the shooters here violated the law and killed out of season. However, there is a loophole—yes, several of them—in the present law, and about a dozen fellows here are on to the racket of turning the birds into money, and they have killed four times as many pheasants per capita as heretofore. My

own record for bird shooting during the years 1901, 1902, 1903 and 1904 was 87 birds in 1901, 39 in 1902, 50 in 1903, and 50 in 1904, making a total of 226. Of this number I sold 85, of which 75 were cock birds. This year my killing record is 94 birds. I may add that with the extra number killed out of season and the amount killed for market, we have fewer left for seed than any year previous. Should next year be a favorable season, we may have a good crop, as more depends on the weather than the number of hens left over. For example, the year 1900 was favorable for the birds, and I am safe in saying that the average that year in this part of the country was ten birds to the hen. The next year the average was not more than three birds to the hen, due to bad weather.

General Summary.

The weather in all sections was dry and sunshiny up to Saturday, when cloudiness increased and a few scattering showers fell in the Willamette valley and the northern coast counties. On the following day showers occurred generally in all portions of the state, except in the dry interior localities. On Tuesday and Wednesday mornings light frosts were reported in the Willamette valley and in Douglas, Jackson and Josephine counties, and freezing temperatures occurred in the eastern section. Thursday morning was also a frosty morning in a few places west of the Cascade mountains, but the frosts on this day were not so heavy or general as they were on the two preceding days. Thursday and Friday afternoons unseasonably high temperatures prevailed and in a few places they were higher than any previously noted so early in the season during the last 20 years or more. The temperatures during the opening and closing days of the week were about normal. Moder-

SICK ALL THE TIME

UNTIL SHE TOOK DR. WILLIAMS' PINK PILLS.

Then She Ceased to be an Invalid and Has Been a Well Woman Ever Since.

"I suffered all the time, practically, from sickness of the stomach, dizziness or swimming in the head and pain in my back. Now I am entirely free from discomfort of that sort. I am not only able to keep on my feet, but to do my work as a teacher, and to enjoy the pleasures that come through the possession of good health."

That is the statement of Mrs. B. B. Ford of Pushmataha, Miss., who continues as follows: "I am glad to tell others that my troubles were all remedied by Dr. Williams' Pink Pills, which are indeed a woman's friend. I heard of them first from an acquaintance in Arkansas, who had found out their merits by actual use. What she said prompted me to try them in September of 1904, and within three weeks I experienced such relief that I knew that they must be adapted to the needs of my case. After using them for a short while longer I was thoroughly convinced of their helpfulness. I ceased to be an invalid, I became and have since remained a well woman, and the reason why is simply because I took Dr. Williams' Pink Pills."

The pills which Mrs. Ford so justly praises cure the chief ailments of women by thoroughly renovating the blood. They make functional action regular and painless, banish headaches, languor, nervousness, create appetite, promote digestion, put color in the complexion, build up strength and in a word enable women to reach and maintain full physical perfection.

Dr. Williams' Pink Pills actually make new blood and give strength and tone to every part of the body. In this way they have cured serious disorders of the blood and nerves, such as rheumatism, sciatica, anaemia, nervousness, headaches, partial paralysis, locomotor ataxia, St. Vitus' dance and all forms of weakness in either sex.

Every woman should send to the Dr. Williams Medicine Co., Schenectady, N. Y., for a valuable booklet, entitled "Pink Pills to Women." It will be mailed free in sealed envelope to the address of any applicant. Dr. Williams' Pink Pills are sold by all druggists or sent, postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y.

NOURISH the body, don't dose it with medicine. Scott's Emulsion is the best nourishment in existence. It is more than a food; you may doubt it, but it digests perfectly easy and at the same time gets the digestive functions in a condition so that ordinary food can be easily digested. Try it if you are run down and your food doesn't nourish you.

SCOTT & BOWNE, 409 Pearl Street, New York.

ately high northwest winds occurred Tuesday afternoon in the northwest section, and the winds were gusty and blustering from the southwest on Sunday afternoon and night in the lower portion of the Willamette valley and in the coast counties, but on the remaining days of the week the winds in all portions of the state were generally light.

Sure Cure For Piles.

Itching piles produce moisture and cause itching; this form, as well as blind, bleeding or protruding piles are cured by Dr. Bo-man-ko's Pile Remedy. Stops itching and bleeding. Absorbs tumors. 50c a jar at druggists, or sent by mail. Treatise free. Write me about your case. Dr. Bosanko, Phila., Pa.

A Pleasant Way to Travel.

The above is the usual verdict of the traveler using the Missouri Pacific railway between the Pacific coast and the east, and we believe that the service and accommodations given merit this statement. From Denver, Colorado Springs and Denver there are two through trains daily to Kansas City and St. Louis, carrying Pullman's latest standard electric-lighted sleeping cars, chair cars and up-to-date dining cars. The same excellent service is operated from Kansas City and St. Louis to Memphis, Little Rock and Hot Springs. If you are going east or south, write for particulars and full information.
