NEIGHBOR WALTER L. TOOZE

The Woodman Candidate for Congress
Gaining Ground Every Day

Oregon Woodman, Dallas, Oregon.

The most prominent candidate in the eye of the intelligent voter of this district for the congressional nomination is beyond all doubt Hon. Walter L. Tooze, of Woodburn. His strenuous labors in behalf of our noble order all over the state and in two head camp conventions have endeared him to every neighbor. We all know that his voice has ever been raised in behalf of low expenditures and for the securing by the Woodmen of the World of its insurance at the very cheapest cost. His voice and vote has always been against graft of every description, and it is safe to presume that in the halls of congress he would continue along these lines. What work he has done for the order has been without pay of any kind or hope or desire for any office, further than the betterment of the craft. This has been fully attested to by the head officers of our order in contradiction of a report that he was working or trying to work the order for political purposes or for personal gain or profit, or for any financial benefits. No money has ever been paid him from our treasury for expenses in the work, except when in attendance at head camp sessions or as a delegate to the fraternal congress. This paper has heretofore published a full history of his life and work, and every reader of the Oregon Woodman knows him to be a self-made man who has accumulated a competence by his own exertions and who is fitted in every way to represent the people of this section in the halls of congress. Few there are who have not heard him speak upon important questions of the day, and know that he has the brain and ability to successfully cope with any situation that may arise. His platform, as given out by the daily press and written by himself, denotes that his labors will be continually given to best promoting the interests of the state which has given him his start in life, and that he thoroughly understands its needs and the wishes of the people. The few of his good points indicated here are sufficient reason why he is so strongly in the lead for the nomination, the majority of the Republicans being perfectly aware that they must look to him for the best subservience of their interests in the office to which he will undoubtedly be elected. In fact, as the campaign progresses, it becomes more and more evident that none of the other candidates are in the race with him. His many friends throughout the district are working strenuously in his behalf and are logically convincing the public mind that Walter L. Tooze should be and will be the next Republican candidate for congress. He is a vote getter of great ability for the reason that he greatly increases his list of friends wherever he is able to visit, all being captured by his manifest intelligence and ability for the position he seeks to fill. His pleasant personality, distinctive characteristics of heart and mind, and his well known probity and sincerity, stamp him at once in the eyes of all as pre-eminently the man for the place. You will not vote wrong if at the primaries this month you cast your vote for Walter L. Tooze for congress.

Of all the various candidates in the field for the Republican nomination for congress from the first district, there is not the slightest doubt that for ability and general fitness for this important position Hon. Walter L. Tooze, of Marion county, stands head and shoulders above any of his opponents. He is one of Oregon's most brilliant statesmen; is clean and honest, and has the energy and influence to successfully accomplish anything he goes after. Mr. Tooze has made a complete success of his private business, which is a sure sign that he would also make an ideal congressman.

LOST HIS HEAD

WHAT IS AT ALL ABOUT?

(Four O'clock Edition.)
San Francisco, April 13.—The steamship Mongolia, bearing Governor-General Smith, of the Philippines, was sighted shortly before 1 o'clock today. The steamship was met by local committees on tugs, and the ships in the harbor were decorated in honor of his return. The Smith party disembarked at 2:30 and were escorted to the Palace Hotel. A big reception is planned for tomorrow. Bishop Bashford, of the Methodist Episcopal church, was also a passenger for China.

Crazy Soldiers.
Ogden, Utah, April 12.—Thomas Cole, one of a party of 15 insane soldiers and sailors, en route from Mare Island to Washington, last night stabbed himself 20 times with a pocket knife, and will die. One of his companions leaped through the car window and escaped to the hills, and was captured only after a desperate fight.

Fourth Advantage and Feature of the Racycle

Is in having the crank-hanger, Dust or Dirt proof, that is, in having the bearings so constructed that the dust cannot get into the ball cups to absorb the lubricant and finally ruin the easy, smooth running quality of the bearings. In the Racycle the cranks are recessed so as to place the bearings out in the cranks, and at the entrance of this recess felt washers are placed for the purpose of preventing the dust or dirt from entering the bearings. These felt washers hug around the ball cups, making it impossible for any foreign substance to get into the bearings. Should dust or dirt get past the felt washers its further progress is hindered by the oil-charged magazine.
