North End Republican Grows Sarcastic at Salem

Salem, April 14, 1906.

Editor Journal:

I notice considerable attention being said to the records of our congressions! candidates. Tooze seems to have the ongest and best record, I know, of my own personal knowledg, that Tooze has been working for the Republican party for the past twenty years. I know too, that he has been the most liberal Republican in the whole party. He has figured in every campaign expense acount for all these years. He has never been accused of bolding back or trying to avoid his proportionate share of the general campaign expenses. In deed, I know of several cases where he has even given more than was request ed or expected of him. All these years Tooze has been working, he has been helping to elect other men to office This is the first office he has ever us pired to that I know of. I know that Huston has no Republican record. That right. is, a record which you could call Republican. He was in with the free all ver crowd and was known as a Bryan Demograt. He stumped the state for free silver and was once a Democratic state senator. Only lately has he joined the ranks of the Bepublicans. You, Gentle Reader, Want His record had best be kept under lover, as it can do him no good with voters who are familiar with the truth Hawley is like Huston when the mut ter of a good Republican record is at issue. CORDIAL INVITATION ADDRESSED TO WORKING GIRLS

Miss Barrows Tells How Mrs. Pinkham's Advice Helps Working Girls.

Girls who work are particularly susceptible to fe m a le disorders, especially those who are obliged to stand on their feet from morn-ing until night in stores or factories

(Min Abby F. Barrows) Day in and out the girl toils Day in and day and she is often the bread-winner of the family. Whether she is sick or well, whether it rains or shines, she must get to her place of employment, perform the duties exacted of her— smile and be agreeable.

Among this class the symptoms of female diseases are early manifest by weak and aching backs, pain in the lower limbs and lower part of the stomach. In consequence of frequent wetting of the feet, periods become painful and irregular, and frequently there are faint and dizzy spells, with loss of appetite, until life is a burden. All these symptoms point to a de-rangement of the female organism which can be easily and promptly cured by Lydla E. Pinkham's Vegeta-ble Compound.

Miss Abby F. Barrows, Nelsonville, Athens Co., Ohio, tells what this great medicine did for her. She writes :

Dear Mrs. Pinkham :-"I feel it my duty to tell you the good Lydia E. Pinkham's Vegetable Compound and Blood Purifier have done for me. Before I took them I was very nervous, had dull beadaches, pains in back, and periods were irregular, I had been to several doctors, and

they did me no good.

"Your medicine has made me well and strong. I can do most any kind of work without complaint, and my periods are all am in better health than I ever was

and I know it is all due to your remedies. I recommend your advice and medicine to all who suffer."

It is to such girls that Mrs. Pink ham holds out a helping hand and ex-tends a cordial invitation to correspond with her. She is daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge. Her long record of success in treating woman's ills makes her letters of advice of untold value to every ailing working girl. Address, Mrs. Pinkham, Lynn, Muss.

Tooze was left an orphan at 5 years of age, and after working on a farm, eaching school and carrying on a commission business at Woodburn for many years, he has worked himself into the confidence of the general public with remarkable rapidity. An Army Investigation. Washington, D. C., April 16 .- There is in progress now an investigation of the amount of work which is being or has been done for army officers at various shops or plants under governmental control. The investigation has been precipitated by assertious made by officers that others were being favored by those fu authority. It has been found that work for officers personally has been done at some of the shops, such as the repair and manufacture of furniture but it is not believed that the work is carried on to any great extent. I one of the photographic branches of the war department some copying of pla tures has been done occasionally, but it most instances the cost of labor and material has been borne by the officer most directly interested.
