

Vinol is fast superseding old-fashioned cod liver oil and emulsions because, without a drop of oil or disagreeable feature, it contains all the medicinal elements of cod liver oil, actually taken from fresh cods' livers. By our process the oil, having no value either as a medicine or food, is separated from the medicinal elements and thrown away. Unlike old-fashioned cod liver oil and emulsions, Vinol is deliciously palatable, agreeable to the weakest stomach, and therefore unequaled as a body builder and strength creator for old people, puny children, weak, run-down men and women, after sickness, and for all pulmonary diseases. Everything Vinol contains is named on the label.

OUR GUARANTEE—We have such faith in VINOL that if you will take it we promise if it does not benefit or cure you we will return you your money without question. We take all the risk.

School News

High School.

The Demosthenes society had its regular meeting Monday evening of this week. They had a short business session, and Albert Minton, Orilla Smith and Winona Savage were appointed a committee to confer with a like committee from the Diogenes society about putting lights in the society room. The business session was followed by a joke contest, which was something new and amusing. The society was chosen on two sides by the leaders, Ethel Cross and Olene Cooper, and lined up on opposite sides of the room. The judges appointed were Hubert Starr, Nancy Shaffer and Blanche Liston. The decision was rendered on the best delivery can.

and originality. The victory was given to Miss Cross and her party.

The yard about the building is being filled in now. The workmen have leveled the south half of the west side, and are beginning to fill up in front of the building.

The botany class has been doing some work in classification lately. The class was required to purchase special books for the classification work. The pressing of specimens has also been commenced. The specimen work requires a great deal of time, so the class is given the period off each Thursday and Friday.

The American history class is having a series of papers. Tuesday the paper on "Seward" was read by Bertha Dun-

Majority Favor Statement No. 1. Complete returns from all counties in Oregon show that there are altogether 230 Republicans and Democratic candidates for the state legislature who will be voted on in the coming primaries by the voters of their respective districts. Of these 230 candidates 130 are pledged unqualifiedly to vote for the people's choice for United States senator. Of the remaining 94 candidates, 50 have modified this pledge, usually by the proviso that they will vote only for a Republican, and 44 are on the fence, having given no information as to the course they propose to pursue.

No party lines have been drawn on the issue presented by statement No. 1. In Clackamas county, where there are 15 Republicans and one Democrat candidate, every one of them has subscribed unqualifiedly to statement No. 1. Lane county has nine candidates for the lower house, four of them Democrats and five Republicans. All are pledged without qualification to vote for the people's choice for senator. In Yamhill county every candidate, with the exception of one Republican, has signed statement No. 1.

All over the state the candidates have been compelled to recognize the insistent demand of the people that the next senator shall be the man who received the popular vote in the June election. In a number of cases candidates who have originally given no pledge on this point or had given some modification of statement No. 1, were forced to amend their petitions, and come out with a positive pledge to vote for the people's choice for senator.

In Clatsop county about 300 voters agreed among themselves early in the campaign that they would not vote for any candidate who had not subscribed to statement No. 1, and the result was that, with a single exception, every candidate pledged himself to observe the people's will. As the significance of statement No. 1 becomes more generally understood, the sentiment in favor of it grows constantly stronger. There can be little doubt that a majority of the members of the next legislature will be under pledge to elect as U. S. senator the man whom the people shall have chosen.

A Dandy for Burns.

Dr. Bergin, Pana, Ill., writes: "I have used Ballard's Snow Liniment; always recommended it to my friends as I am confident there is no better made. It is a dandy for burns. Those who live on farms are especially liable to many accidental cuts, burns, bruises, which heal rapidly when Ballard's Snow Liniment is applied. It should always be kept in the house for cases of emergency." 25c, 50c and \$1. Sold by D. J. Fry.

Phi Kappa Psi Biennial.

Washington, D. C., April 18.—The 26th biennial of the grand arch council of the Phi Kappa Psi fraternity opened here today and it promises to be the largest and most successful convention of that organization ever held. It was in this city that the first national convention of that organization was held in 1885, since which time four other conventions of the fraternity have been held here. The convention is held under the auspices of the Washington Alumni association of the Psi Kappa Phi. The business sessions will be held at the New Willard and the discussions will embrace many important matters relative to the condition and growth of the fraternity. Many social features have been arranged for the entertainment of the delegates and members and the ladies accompanying them. Many of the delegates were in town yesterday and for their entertainment a smoker was given at the University club. Most of the business will be transacted this afternoon and in the evening the delegates will attend a theater party at the Belasco theater, followed by a supper.

Tomorrow the delegates will be received by President Roosevelt and in the evening a ball will be given in their honor at the New Willard. The gathering will close with a banquet at the New Willard on Friday evening.

Phi Kappa Psi is among the strongest of the Greek Letter societies, having 40 chapters in colleges and universities from the Atlantic to the Pacific; 25 alumni association and an active membership of about 10,000, which is constantly increasing. The fraternity was founded at what was then Jefferson college, Canonsburg, Pa., by W. H. Latherman and C. P. T. Moore, on February 10, 1852. Judge Moore, one of the founders, is still living near Elwell, W. Va. He served for some time as a member of the supreme court of his state and was long prominent in West Virginia politics.

Nearly 700 out of a total membership of 1000 fought in the Civil War, some on the Union side, some for the Confederacy. The early growth of the organization was largely in the south, where ten chapters were wiped out by the war. Among the members of the fraternity are many men of prominence

CLASSIFIED
