SAN FRANCISCO STILL BURNS

FLAMES BREAK OUT AFRESH IN RUINS AND HOPE VANISHES

Water Supply Increases, Provisions Are Being Rushed in, and People Are Not In Distress

THE WORST IS OVER

Oakland, April 21.—The worst is over, the news coming is all good. The fire almost completely under control. The army's steps preventing rampant vandalism has restored confidence, Merchants are ordering stocks, and buildings will be erected, every available man is being hired to clear away the debris.

Washington, April 21.—10 a. m.—General Funston wires this morning: "The fire is making no progress through the west portion of the city from Van Ness Avenue. The west wind had considerable force at the beginning of the day. Indications are that the part of the city south of Van Ness Avenue and west of the bay is destroyed. Apprehension is felt for Fort Larson, but we expect to save it. The weather is fine and warm, and there is practically no suffering from cold. It is impossible to establish proper sanitary conditions, and I expect much sickness. If the

city to the west now standing remains intact, the remains of a number of buildings can be used as hospitals. The water supply is encouraging, and it is expected the supply will reach 12,000,000 gallons daily." Earlier dispatches, received at 2:20 this morning says: "We are fighting hard, making a probably successful fight, and may save the west portion of the city. Supplies are arriving. Admiral Goodrich landed all available men and has placed them under my orders." Telegraph and Russian Hills Gone. Oakland, April 21.—The fury of the

flames is somewhat abated this morning, after laying waste a strip of the water front as far as Meigg's wharf, destroying a large number of factories and warehouses in that portion of the city. Last night the fire completed the work of destruction on Telegraph and Russian hills, sweeping them clear of human habitation. To save the water front and shipping, the large Henry machine works were dynamited. After a determined fight, the government appraisers' building, Station B postoffice were saved. The chances now are the fire will be stopped at Lombard street wharf. Not a person went hungry in San Francisco last night. There seems to be no immediate danger from the flames. It is likely the ferry building will be saved, as the wind has died down. Several warships and tugs are pouring water on the flames. It is foggy this morning and cold.

Fire Still Rages.

Oakland, April 21.—12m.—At 6 o'clock this morning the wind veered and threatened the ferry building. Dynamite was rushed across the bay. On all sides of the Holy Cross cemetery the fire burned fiercely all night, leveling the fine residences in that section. There is no probability it will be checked in that section until it has burned itself out. Nowhere has the check of the flames been due to anything but natural obstacles. An extra session of the legislature will be called to relieve the distress and rebuild. Car after car of supplies passed through Oakland this morning.

Mr. C. L. Parrish, who is employed in the state land office, was in the wreck at San Francisco. Mrs. Parrish received a letter from him this morning saying he was "all right." Mrs. Richard Cartwright received a telegram this morning from her two sisters, Mrs. Kellar and Mrs. Tillson, saying they and their families are safe in Oakland, although their homes are gone. Mrs. Cartwright expects them to come to Salem as soon as they can.

Conditions Improving.

Evidently conditions are improving in California, for this morning a dispatch filed at 3 o'clock was received here from Mac Hofer, who is at Stanford. It shows, though, the telegraph company is holding dispatches down to the briefest, in order to serve all. It simply said: "All right." Mac.

Oakland Stands Pat.

Oakland, April 21.—At 8 o'clock the ferry building appeared saved. This is now apparently the key to the situation. Smallpox has appeared in several places, and a strict quarantine is enforced. Oakland is suffering from the influx of strangers, but the people have shared every item of food, clothing and drinking water. Chinatown has moved bodily across the bay to this town.

Will Rebuild at Once.

Oakland, April 21.—2 p. m.—Orders are being placed with quarries throughout the state by scores of concerns for immediate delivery of stone at Oakland and San Francisco. Similar orders are being sent out for lumber.

Uncle Sam Sends Special Train.

Rock Island, April 21.—A government special relief train passed through here today for San Francisco. It consisted of 13 express cars and a day

The fourth train load of supplies for the fire sufferers went south this morning, from Portland and other sections. Engineer Davis, a former Salem boy, pulled the throttle.

coach. The city officers and a Scripps-McRae correspondent boarded the train at Chicago. It will average 50 miles an hour to Denver. The first hour almost 75 miles were made.

Relief Work Well in Hand.

Oakland, April 21.—1130.—The relief work is progressing rapidly and systematically. The mayor and general Funston are working together with headquarters at Fort Mason, which with its great magazines, narrowly escaped destruction. It is now thought to be safe.

Another Million.

Washington, April 21.—Taft this morning asked the President to request congress to appropriate an additional million for San Francisco. The President has agreed. The surgeon-general has been notified that Lieutenant Pullis, the only army officer injured in San Francisco, has regained consciousness and may recover.

Dead Less Than 700.

Chicago, April 21.—4 p. m.—Western Union officials in San Francisco estimate the number of dead at 500 to 700. They say there were but few people in the business section when the quake occurred. They report that all hotel guests escaped, and say the fire was caused by the breaking of gas mains, the escaping gas being ignited by sparks from the electric wires.

Fires Still Burn in West End.

Oakland, April 21.—While the situation on the water front is good, and controlled, the fires in the West End are still dangerous. Smoke has settled down at the foot of Market street, so one can only see 200 feet.

Identifying Dead and Injured.

Oakland, April 21.—1:30 p. m.—A registry bureau is being established to locate the missing, and identify injured and learn as far as possible the names of the dead. Oakland papers are printing a free list of the missing and injured. Hundreds have been located in that manner. Flames are now on every side of the Gibraltar warehouse, where are stored thousands of canned goods and food stuffs. The destruction of the Ferry building now appears imminent. Late reports from Santa Rosa say the dead are not over 40.

Shot the Looters.

Oakland, April 21.—A correspondent says 20 men were dead on the streets this morning, testifying to the fact that Funston and his men are not to be trifled with. Three men were killed by guards last night. Oakland expects, temporarily, at least, to have a population of half a million.

More Aid for San Francisco.

Washington, April 21.—The house of representatives this morning contributed an additional \$1,000,000 for the San Francisco sufferers. President Roosevelt sent a special message recommending that \$1,500,000 be appropriated.

Preparing for It.

"Jimmie," said the manager to the office boy, "are all your grandparents living?"

"Yes, sir."

"All enjoying good health?"

"Yes, sir."

"Any uncles, aunts or cousins in poor health?"

"Not that I know of, sir."

"All right, Jimmie. I just wanted to know. The baseball season opens up on the 21st of the month, and I thought we'd fix it up so none of them would be sick or anything like that except on Friday afternoons."

"Yes, sir."

"And if any of them are taken sick on Friday you let me know and I'll give you a ticket to the ball game. That's all, Jimmie. You may now return to work."

Pretty Good Convicts

The inmates of the Oregon penitentiary here collected among themselves \$75 for the earthquake sufferers. They also told the superintendent that they were willing to go without bread if the ovens in the penitentiary could be used for the benefit of the suffering.

THIRTEEN EARTHQUAKE SHOCKS

Rome, April 21.—Thirteen earthquake shocks were felt here this morning.

FIRE SWEEPS ISLANDS

Washington, April 21.—The war department was notified this morning that at 11:50 fire swept the town of Madquina, in Rizel province, and 20,000 are homeless and business is ruined. Fire also destroyed Pasil, near the town of Cebu.

Slow Starvation.

Prospective Tenant—Is this a healthy neighborhood, landlord?

Landlord—Healthy! I should say so!

In the last ten years there have been only two deaths—the doctor and the druggist.—Translated for Tales from Gllengende Blatter.

Proof of His Ability.

Traveler—I must go to the railway station as soon as possible. Which of you has the fastest horse?

Cabman (pulling a paper from his pocket)—Here, read this! Three years ago I was fined four marks for fast driving.—Unsere Gesellschaft.

How He Saw It.

Wife—This book says that in India it is the custom to bury the living wife with her dead husband. Isn't it terrible!

Husband—Indeed it is! The poor husband—even death brings him no release.—Translated for Tales from Strekoza.

Versatile.

Madge—What became of that advanced girl who advocated the retirement of persons who had acquired a competency?

Marjorie—She's lecturing now on the idle rich.—Puck.

The Talkative Lady.

The Skeleton—Wot was de trouble, Mike?

The Aztec—Aw, force uv habit. She seen her husband in the audience.—Puck.

Awkward Blunder.

First Promoter—How are you getting along with that new suburb you opened up last summer?

Second Promoter—We've had an unlucky backset. The man we intrusted with the work of laying the pavements and cement sidewalks misunderstood his instructions and we have just found out that he did a first class job, at double the price we had counted on.—Chicago Tribune.

RETURNS ARE NOT COMPLETE

Indications are That Wythe-combe is Nominated for Governor

In state matters it looks as though Wythe-combe is nominated for governor without a doubt. For secretary of state the Gatch and Benson forces both claim it. Hoyt is supposed to lead for treasurer and Dunaway for state printer. Crawford is nominated for attorney-general. For congress both Hawley and Tooze men claim the victory.

In Marion county it looks as though the following named persons were nominated:

For senators—Kay and Smith.

For representatives—Davey, Settlemier, Rogers, Simmons and Reynolds. Moores and Hughes are close seconds, but the results may be changed when all the figures are in.

Culver is nominated for sheriff, Allen for clerk, Drager for recorder, Richardson for treasurer, Herrick for surveyor, Clough for coroner, Goulet for commissioner and McIntire for justice of the peace in Salem.

Band Concert Tomorrow.

By the Salem Military Band, at Wilson Avenue Park, at 3 o'clock, weather permitting. A fine program will be given.

Carpenters Meet.

The local union, No. 1065, will meet at the U. V. U. hall tonight at 8 o'clock p. m., for the purpose of collecting assistance for the San Francisco sufferers. By order of W. H. Woods, president.

Good Turn Deserves Another.

Office Boy (to employer)—Please, sir, will you give me a raise in my wages?

Employer—Yes, my boy. Is there anything else I can do for you?

"You might make my hours shorter so I'll have time to spend my raise."

—Translated for Tales from Famillia Journal.

Cures Coughs and Colds.

Mrs. C. Peterson, 25 Lake st., Topeka, Kas., says "Of all cough remedies Ballard's Horehound Syrup is my favorite; it has done and will do all that is claimed for it—to speedily cure all coughs and colds—and it is so sweet and pleasant to the taste. Sold by D. J. Fry."

Wanted, More Bread.

Another carload of bread will be shipped Monday afternoon to the San Francisco sufferers, and everyone is requested to bake as much as they can, and bring it in early, to the S. F. freight depot, on Trade and Commercial streets.

Are Your Teeth Good Teeth?

Very few people have perfect teeth. Neglect in cleaning causes decay and cavities form. These must be filled or soon the teeth cause pain and much misery. Putting your teeth in perfect condition is my business. I use up-to-date, painless methods and the most modern instruments. I guarantee my work to last and my prices are very low. Have you asked about the diamond ring? Plates, \$5.00; Crowns, \$5.00; Fillings, 50c.
