CALIFORNIA HAS MORE EARTHQUAKE

Nothing Left to Shake in 'Frisco, But Livermore Reports Severe Shock-- Many Cases of Insanity

San Francisco, May 9.—Two light earthquake shocks were felt at 11:15 last night. There was no damage done, and no alarm was felt. Livermore reports the shock as quite severe. The police began today to raid houses where people are gathering relief supplies in excess of regular rations. It is alleged that among the grafters many are drawing salaries from corporations. Confiscation and punishment follow where loot is uncovered, and 50 patrolmen are stationed on the waterfront to gather in the drunks from Oakland. All liquor found on suspected persons is confiscated. Owing to the great need of restaurants, the steamer Spokane has been fitted up as a mess ship, to feed employees of the Pacific Coast Company and the public are willing to pay for all they get. On an average 40 insanity cases are examined daily, mostly due to the cutting off of stimulants of habitual drinkers, others due to the shock and to nervous strain.

To Remove Military Rule.

Washington, May 9.—The war department authorities believe that the service has about completed its work in San Francisco and desires that Gen. Greely shall withdraw the troops from active participation in the work of relief and restoration as rapidly as possible.

This policy is not encouraged for any reason which comes from a feeling that San Francisco has had all the help it needs and deserves, but it is realized that there will be with every day's activity the menace of a conflict of authority between the municipal officials and the officers of the army. There have been a number of such conflicts and it is feared that the situation would soon become very difficult. It is desired to avoid this, if possible, and the attitude in Washington is one which realizes that from now on the army must take a subordinate position.

Service observers in Washington moreover, feel that the army has been measurably elevated in the respect and confidence of the people and that nothing should now be done to imperil the good will or lessen in any degree the gratitude which is expressed on every hand for the magnificent work performed by the army in the time of disaster and panic in San Francisco.

There is a feeling that Gen. Greely would naturally desire to continue in control of the situation, but it is felt that the responsibility for whatever is done should hereafter rest with the citizens or their special committee and the local police courts, with the employment of the army only to such an extent as is absolutely necessary. It

MONEY IS NO GOOD

People Would Starve to Death While Officials Measured Yards of Red Tape

Washington, May 9.—Senator Flint today introduced a joint resolution appropriating \$500,000 additional for the relief of the San Francisco earthquake sufferers, the money to be expended by the purchasing and distributing of quartermasters' and commissary's stores.

To Pay California.

Washington, May 9.—For the purpose of assisting California, the house committee on public lands authorized a favorable report on the bill to pay California 5 per cent on the cash sales of public lands. This amounts to about \$900,000. Other Western states have already been paid under the enabling acts of admission.

AFTER THE QUAKE IS OVER

(Four O'Clock Edition.)

San Francisco, May 9.—Looting still continues, despite the watchfulness of soldiers. Eight men were arrested this morning, while making off with several hundred dollars' worth of loot from the ruins of the Washington brewery, in the North Beach section. Bluejackets from the cruiser Boston last night captured four members of a gang engaged in stealing lumber.

Chinatown still swarms with relic hunters, who are practically un molested.

is realized in Washington that the soldiers must continue to act as guards in the night time in some places, but it is believed that the citizens have the situation well in hand and should be allowed to conduct the work of restoration without the employment of the army.

No one in the war department has much of an idea of what has been expended out of military supplies on account of San Francisco. It is estimated that the rations issued amounted to \$200,000. The quartermaster supplies, such as tents, stoves, etc., which cannot be used again, will represent a loss of that material to the army, and it is roughly estimated that the amount involved will not be much less than \$2,000,000. There is some embarrassment in the service by reason of the issue of all the tents in stock. If another calamity were to come the war department would be powerless to render much help in the way of temporary shelter. There are no surplus tents and it will take some time to restock the depots with those articles, as the supply of duck is scarce. The tents cannot be used again for the reason that they will be too badly injured or destroyed by their present use.

DEPORTED WITHOUT CHARGE

Two Carloads of Chinaman to Be Sent Home Are Killed in Railroad Wreck

San Francisco, May 9.—The first section of the coast limited No. 9 was wrecked at Edenville, two miles south of San Jose, at 7:25 this morning. The two first cars, containing Chinamen to be deported, were completely demolished, and all the Chinamen are reported killed. Many of the occupants of the third car, a tourist, were injured by flying glass.

It occurred at 4 o'clock this morning. The firemen and three Chinese passengers were killed through the derailing of the train. An earthquake shock at 5 o'clock last evening, caused the track, which was on made land, to sink, and the first train passing the spot met with disaster. The engine and first three cars were overturned. The sleepers and mail coaches were not damaged, and the engineer escaped serious injury. A wrecking crew was sent from San Jose. Many of the Chinese were seriously injured. The Chinese were recently smuggled across the Mexican border, and were booked to sail on the first steamer from San Francisco.
