NO. 129.

WHO TRIALS ARE ON

Those Accused of the Murder of Governor Steunenberg Must Answer

(Four O'Clock Edition.)
Caldwell, Idaho, May 29.—When the trial against Moyer, Haywood and Peterson was called by Judge Smith this morning Attorney Richardson, for the defense, filed motions for a change of venue. The chief prosecutor, Hawley, called the attention of the court to section 877 of the revised statutes, providing that in case of habeas corpus appeal to the supreme court of the United States from a circuit court, the state stays all proceedings in local courts until the appealed case is disposed of. The defendants having an appeal pending from the ninth circuit court of Idaho, therefore the district court of Canyon county is barred from further hearing of the cases until the supreme court decides. Defendants insist that this matter be considered at once, which is set for 2 o'clock. The defense claims this action is an effort to delay the trial over the term. Under a guard Moyer, Haywood and Peterson were brought to Caldwell from the Boise jail this morning. They met at the depot by their attorneys and taken to the sheriff's office in a court house. Mrs. Moyer and Mrs. Tibbels accompanied them.

Hurricane in Alabama.

(Four O'Clock Edition.)
Mobile, Ala., May 29.—A high wind and hail storm at Shubuta, Miss, last night caused thousands of dollars damage. Churches and houses were blown down and other towns suffered.

KEEP FINDING MORE

Every Day the Ruins Gives Up Its Victims to the Busy Searchers

(Four O'clock Edition.)
San Francisco, May 29.—Another victim of the earthquake was discovered this morning under the fallen walls of the old postoffice building on Washington street. The remains are believed to be those of a man named Brokaska, a waiter, formerly employed in a restaurant on Washington street. At the time of the shock Brokaska rushed out of the restaurant, and since then has been missing. It is thought the wall fell on him as he was running down the street.

President Goes to Portsmouth.

(Four O'clock Edition.)
Washington, May 29.—The President and Mrs. Roosevelt leave this evening on the Mayflower for Portsmouth, Va., where an address will be made by him at the unveiling of the monument to the memory of soldiers, sailors, heroes of the Civil War. The President marches in the procession, and assists in distributing flowers on the graves. The yacht reaches Hampton Roads early Wednesday. He starts for Washington during the afternoon.

Want Lock Canal.

(Four O'Clock Edition.)
Washington, May 29.—The minority of the senate canal committee today filed a report favoring a lock canal. The report cites that the three large dams were uninjured by the San Francisco earthquake as a proof that the lock canal is not particularly liable to damage from shocks.

'FRISCO STEADILY IMPROVES

Relief Department Shows Number of Dependents is Being Rapidly Reduced

San Francisco, May 29.—Dr. Devine, who is in charge of the Red Cross relief work, stated this morning that less than 12,000 families were now being cared for, and that the number dependent was decreasing daily. The report of the employment bureau shows 3140 males and 491 females registered for work since the fire. Of these work has been secured for 1100 men and 93 women. Dr. Devine will continue here indefinitely in charge of the Red Cross work.

A GREAT MAN DEAD

Detroit, Mich., May 29.—James E. Scripps, founder of the Scripps' news association, died at 2:45 this morning.

James Edmund Scripps was born in London in 1833. His grandfather founded the London Daily Sun and Gazette and the father of the deceased became a bookbinder later moving to this country where the son, James, manifesting the newspaper instinct of the family, founded in 1873 the Detroit Evening News, an independent and pioneer penny paper. In 1878 his brother, E. W. Scripps, who was associated with him in the Detroit Enterprise, established the Cleveland Press, and later the Cincinnati Post and St. Louis Star and Chronicle, in which James E. Scripps was a stockholder, following the original policy of the Detroit paper. E. W. Scripps is now a resident of Miramar, California. He has successfully developed many newspaper properties, both in the East and West, together with the allied news gathering organizations, which cover the entire country.

Loss to South Bay Fishers.

Eastport, L. I., May 29.—The fishermen in Great South Bay, which has heretofore been one of the best and most productive fishing grounds around Long Island, complain that their business is practically ruined, as there do not seem to be any more fish in the bay. They say that the introduction of the power boat on the Great South Bay has gradually driven away the great schools of edible fish which, at this season, formerly swarmed to this section, and afforded the native fishermen a profitable field of employment.

Not in the history of these waters has the fishing been so unsatisfactory as this year the catches of carp, alewives and menhaden not being one-fifth as large as in other years. Many fishermen who recently bought expensive nets and boats, have disposed of them, because of the failure of the fishing. The constant churning of the water by the rapidly revolving propellers of the numerous power boats, plying in the bay, it is believed, have disturbed the fish to such an extent that they have deserted the waters of the bay. From other parts of the coast of Long Island similar reports have been received, and the fishermen entertain no hope of improvement in the future.

He Got All Three.

San Bernardino, Cal., May 29.—Foreman Williams of the section gang at Afton, a desert station on the Salt Lake Road, was attacked by three Mexicans with knives and stones this morning. The foreman shot one dead, and fatally wounded the others. Williams was severely beaten.

We have taken the agency for the U-ALL-NO after dinner mints. Fresh shipment just received. THE SPA

THINGS DOING IN CONGRESS

House Asks for Inspectors Report on the Packers Conditions in Chicago

Washington, May 29.—Salmer introduced a resolution in the house calling on the President for the report of Commissioners Neil and Reynolds. The President has been withholding the report as a club to force the passage of the Beveridge inspection amendment to the agricultural appropriation bill. Gardner's bill extending the eight-hour day to all government contracts was ordered favorably reported upon by the house committee on labor. Democrats took advantage of absent Republicans and forced the vote.

The house and senate conferees on the rate bill disposed of the unimportant amendments without difficulty, and will meet again this afternoon.

The house committee on commerce authorized a favorable report on the bill limiting the hours of labor of railway employes.

The senate clerks are engulfed with anti-Smoot petitions from eight states, including Washington, Oregon and Nevada.

AN OCEAN GERMAN STEAMER WRECKED

London, May 29.—The startling news which Lloyd's received from Vladivostok, announcing that the German steamer Soerabaya, given up as lost, and removed from the list of "overdue" given out by Lloyd's, has been discovered frozen in the pack ice at Nikolaietsk, near the Amur river, has caused considerable interest in shipping circles. According to the meagre cable the corpses of the crew were found completely frozen on board the steamer.

The Soerabaya, which was formerly a well-known Dutch East India steamer, took a cargo of coal out to Japan during the Russo-Japanese war, but afterwards entered the service of the Russian government. The vessel took a cargo of arms and ammunition intended for the defense of Vladivostok, but was unable to enter that port, owing to the Japanese blockade, and took refuge in the Amur river.

There, last October, she received orders not to proceed to Vladivostok until after the ratification of the peace treaty, and accordingly waited her time. Shortly after the vessel disappeared, and nothing is known of her subsequent movements.

The steamer Erna was dispatched in November last from Vladivostok in search of the missing ship but returned having found no trace of the steamer or its crew.

The Soerabaya, which of 2441 tons gross, carried a crew of some 30 hands. It is presumed that part of the cargo, which was valued at some \$250,000, can be saved. An expedition will be sent out to recover as much as possible of the cargo, and the frozen bodies of the sailors.

Betrothal in High Life.

London, May 29.—Preparations are being made for the coming wedding of the Hon. Michael de Courcy, only son of Lord Kingsale, and Miss Constance Woodhouse, daughter of Colonel Woodhouse of the royal army medical corps. The future bride is a very handsome woman, but not much known in metropolitan society. Mr. de Courcy is an officer of the 22nd Sikh Pioneers, at present quartered in India. He is heir to one of the most ancient peerages in the three kingdoms. His father, Lord Kingsale, is premier baron of Ireland, and 33rd holder of the title. His forbear in the 13th century was created Lord Kingsale for some deeds of valor, and his family received the privilege their first obedience being paid, of remaining covered in the presence of their sovereign. This right is said to have been exercised by the 23rd baron in the presence of William III, and by the 24th peer at the courts of George I. and George II.

CHICAGO PACKERS HURT

Report on Methods Practically Kills the Sale of Their Products

London, May 29.—Newspapers here generally accepted the cabled statements that bad meat had been sold mainly in the United States. In referring to the tainted meat report, the Evening News says:

"The people who permit corruption certainly suffers for its sins, and it is a comfort to know the ruffians responsible for the Chicago packing house scandals will suffer severely. Their pockets are the only spot where they have any feeling."

London, May 29.—Dealers are apprehensive of disposing of existing stocks of American meat. Buyers are demanding English products.

New York, May 29.—Intimations that tainted meat had been served to consumers in this country has brought forth a cry of horror from the public, and a protest from the press. Some newspapers demand that the whole truth be given to the people immediately. Others are cautious and inclined to disbelief of the allegations, and call for authoritative investigation.

GERMAN STEAMER WRECKED

Alderny, Ireland, in English Channel, May 29.—The German steamer Heros, of the Dutch Leviathan line, was totally wrecked here this morning.

To Merge Four Copper Mines.

Calumet, Mich., May 29.—It has just been authoritatively announced that a gigantic merger, to include four large Arizona copper mines controlled by Calumet, Duluth and Pittsburg capitalists is soon to be made. It is proposed to organize a new corporation with \$20,000,000 capital to take over the Calumet and Pittsburg, Lake Superior and Pittsburg Junction and Duluth mining companies, operating the Bisbee, Ariz., mines.

These concerns are controlled by Charles Briggs, James and Thomas Houston of Calumet and Thomas P. Cole and associates of Duluth. Nearly every man prominent in the United States Steel corporation is heavily interested. The deal will result in one of the largest copper mining corporations in the world.

DROVE REBELS BACK

Durban, Natal, South Africa, May 29.—Six hundred rebels attacked a camp in the Umvoti region. They were repulsed after hours of fighting. The militia lost four men, and the native loss was heavy.

Memorial Celebrations.

New Haven, Conn., May 29.—The patriotic Memorial day services of the Grand Army of this city will be held this evening at Bunnell's New Haven theater. Thomas E. Benedict will preside at the services and addresses will be delivered by Mayor John P. Studley, Fred S. Hastings, Col. N. G. Osborn, and several others.

Albany, N. Y., May 29.—The service for the Grand Army, preliminary to the Memorial day celebration, will be held this evening at the First Reformed church. All patriotic organizations of the city will be represented and Jerome Fisher will be the principal orator of the occasion.

Paterson, N. J., May 29.—The Memorial service under the auspices of the Union Veteran Legion will be held this evening. A number of prominent speakers will address the meeting.

MAY KILL CROPS

Utah is Flooded With Rain Which Changes Into Snow

Ogden, Utah, May 29.—During the last 48 hours the rainfall has been two and one-tenth inches. The rainfall really means a decrease of the water supply for the summer for the reason that it has washed away the snow stored in the mountains. The weather has changed and it is very cold and snowing. Unless a change occurs, fruit will be a total loss. The heavy crop of cherries, peaches, apricots and strawberries is in imminent danger.

Strengthening the General Board.

Washington, D. C., May 29.—There is much conjecture among naval men in regard to the selection of an officer to succeed Rear Admiral M. T. Endicott, chief of the bureau of yards and docks, when that officer goes on the retired list in November. It so happens that one of the civil engineers of senior rank is available for the duty, and naturally, line officers are filing their applications for appointment.

It is recognized that the return of the bureau to line influence and control would be an important gain by the general board, which has much to do with the public works, the extension of naval plants and the establishment of new stations at home and beyond seas.

Senator Hale is against the navel general board as he is in opposition to the army general staff, and declares that no special advantage would be derived to the service in its personnel or material branches by transferring bureau duties and responsibilities to it. The President, on the other hand, inclines to the belief that work would be facilitated and administrative duties co-ordinated by an enlargement of the powers of the general board, and the majority of naval officers agree with him.

Reformed Presbyterian Synod Meets.

Belle Center, O., May 29.—The annual meeting of the Reformed Presbyterian synod of North America opened here today with a sermon by the Rev. Dr. J. W. Coleman, the moderator. The meeting is of considerable importance, as some matters of considerable weight will come up for consideration and decision. One of the questions will be concerning the adoption of the revised Psalter.

The synod includes the ministers of the denomination from all parts of the United States, Canada, Alaska, Mexico and Central America and every one of the districts is well represented. A strong effort will be made to secure the election of the Rev. Dr. S. G. Shaw of this city as moderator, to succeed Dr. Coleman.

Texas Nutgrowers Hold Convention.

Austin, Tex., May 29.—Several hundred nutgrowers and others interested in the growing of nuts are assembled here in compliance with a call sent out by E. M. Kirkpatrick, with a view of forming the nutgrowers of this state into a permanent organization. The conference will last two days and it is expected to be of great importance. Many prominent agriculturists and other distinguished men are in attendance and some highly interesting addresses will be delivered during the two days of the conference. The session this afternoon will be devoted to the task of organization. Then a number of important subjects having direct bearing upon the growing of various kinds of nuts will be discussed. At the meeting tomorrow the question of affiliating the new organization with the farmers' congress will be considered.

Has Two Dead.

Santa Cruz, Cal., May 29.—Patrick Ryan, who was injured in the powder mill explosion last night, died this morning. An unknown man was found dead this morning, lying face downward in Neary creek in a foot of water. He fell down the bank while intoxicated.

The Cat Came Back.

San Francisco, May 29.—Mrs. H. E. Huntington, who recently secured a divorce from the Los Angeles traction magnate, and then called for the Orient, returned on the steamer Korea this morning.

CHICAGO STORE PEOPLES BARGAIN HOUSE
