

DR. WISE SPEAKS.

Gets an Ovation on His Talk on Woman's Suffrage.

Dr. Stephen S. Wise made a magnificent speech at a great equal suffrage rally just held in Portland, and received an ovation. At the close, the vast audience, by a rising vote, unanimously asked him to stay on the Pacific coast. Dr. Wise has made up his mind to leave Portland, much to the sorrow of the people. Dr. Wise said, in part:

"Don't Want It." "We are told that women do not want the ballot. In Russia the nobles are assuring the Czar that the peasants do not want freedom. Liberty was never yet sought from tyranny without assurances that the people for whom it is sought do not want it. These stale, worn-out and thread-bare arguments are the last resort of the enemies of democracy.

"Is It Unwomanly?" "We are told it would be unwomanly. Whenever women begin to do something new, it is always called unwomanly. I can remember when it was thought unwomanly for a woman to know how to swim, or to have good health and a good appetite.

Child Labor. "The president of a women's club in a southern city lately said that she took no interest in the suffrage question. She added, 'We women of the South want to please the men.' Tonight thousands of little children in her state will toil all night in the factories. Which is the unwomanly woman, that club president or the Colorado women voters who have stopped child labor and kept in office Judge Lindsey of the Denver juvenile court, the friend and champion of the children?"

"The question was once asked, 'Is Christianity a failure?' Some one answered, 'We don't know. It has never been tried.' Equal suffrage has never been thoroughly tried, any more than Christianity has; but we know that we have more social and humane legislation where women have the ballot. In New South Wales the first parliament elected in part by women's votes passed a law for the better protection of children.

"Then we are told that women ought not to vote, because they already have so much influence for good. What an

absurd argument! A woman now has a magnificent influence; if she gets the ballot, will she at once become dangerous and pernicious?"

Foes of Democracy. "The most serious obstacle is the spirit of those who believe that manhood suffrage is a failure and ought to be wiped out. If you believe that, you will vote against equal suffrage, of course. But if you believe that democracy is the hope of the ages, vote for the amendment.

No Natural Rights. "An eloquent minister of the gospel says women ought not to vote because suffrage is not a natural but a derived right. So is the right of your children to a common school education. So is our right to sanitary and police protection. It is not natural; heaven did not make policemen. But who will say that girls should be shut out from school or women from police protection, because it is not a natural right?"

Sleek Conservatism. "Another great force opposed is Mr. Sleek, Contented Conservatism. He has stood in the way of every reform in history, because his grandfather did not believe in it.

The Corporations Opposed. "Another opposing force is capital—not honest capital, which has nothing to fear from women's voting, but dishonest, grafting, exploiting capital, which rightly fears to give more power to the people.

"Even honest capital is by nature timorous and conservative. There has never been a reform in history which it has favored, from the liberation of the Hebrew slaves in Egypt, to which the Egyptian capitalists were much opposed, to the equal suffrage amendment now before the people of Oregon. They say it would scare away foreign capital, and we should have to content ourselves with capital made in Oregon. Shall we repeal the initiative and referendum because capital does not like them? I can tell you a way to attract capital. Pass a law that children over four years old may work 14 hours a day, seven days in the week, at wages of 50 cents a month.

"An active opponent of equal suffrage in New York wrote to me, 'I don't want to prolong my correspondence with you any further, for a man who at this late day talks about the right of suffrage is impervious to reason.' All talk of rights is called old-fashioned and provincial. But I have learned that in the last analysis the

Woman's Trials.

The bitter trail in a woman's life is to be childless. Who can tell how hard the struggle may have been ere she learnt to resign herself to her lonely lot? The absence of this link to bind marital life together, the absence of this one pledge to mutual affection is a common disappointment. Many unfortunate couples become estranged thereby. Even if they do not drift apart, one may read the whole extent of their disappointment in the eyes of such a childless couple when they rest on the children of others. To them the largest family does not seem too numerous. In many cases of barrenness or childlessness the obstacle to child-bearing is easily removed by the cure of weakness on the part of the woman. Dr. Pierce's Favorite Prescription has been the means of restoring health and fruitfulness to many a barren woman, to the great joy of the household. In other, but rare cases, the obstruction to the bearing of children has been found to be of a surgical character, but easily removable by painless operative treatment at the Inva-Surg, Hot and Surgical Institute, Buffalo, N. Y., over which Dr. Pierce of the "Favorite Prescription" fame presides. In all cases where children are desired and are absent, an effort should be made to find out the real cause, since it is generally so easily removed by proper treatment.

In all the various weaknesses, displacements, prolapses, inflammation and debilitating, catarrhal drains and in all cases of nervousness and debility, Dr. Pierce's Favorite Prescription is the most efficient remedy that can possibly be used. It has its credit endorsed by thousands of cures—more in fact than any other remedy put up for sale through druggists, especially for woman's use. The ingredients of which the "Favorite Prescription" is composed have received the most positive endorsement from the leading medical writers on *Materia Medica* of all the several schools of practice. All the ingredients are printed in plain English on the wrapper enclosing the bottle, so that any woman making use of this famous medicine may know exactly what she is taking. Dr. Pierce takes his patients into his full confidence, which he can afford to do as the formula after which the "Favorite Prescription" is made will bear the most careful examination.

Dr. Pierce's Pleasant Pellets are the best and safest laxative for women.

one great question to be asked about anything is, 'Is it right?'

Drones and Drudges. "There are two large classes of women, the drones and the drudges. The drudges certainly need the ballot; and the drones really need it as much as the drudges do, in order that an element greater than bridge whist may come into their vapid and empty lives.

Taxation and Representation. "The war of 1776 was fought against taxation without representation. But we are told that most women pay no tax. A few days ago, as a member of the board of child labor inspectors, I went to two factories where I had been told that children under age were employed. The owner of one factory told me that he thought all this anti-child labor legislation was fudge. In his angry face I saw the determination to repeal it if possible. I am sure he is an anti. In his factory I saw between one and two hundred young girls and about 25 young boys, working for a pittance. In the other factory I was told that young children were not employed, because it would be dangerous—to the machines, which were valuable. Then and there I made up my mind that, so far as it depended on me, all women, even if they had no property on which to be taxed, should have the ballot to protect their lives, their honor and their fortunes.

Oregon an Example. "That same anti in New York wrote to me, 'Even if you think the women of Oregon are fit to vote, for God's sake do not use your influence, for the equal suffrage amendment, for it would affect other states, where the women are not fit. I thank heaven that an act of justice in Oregon will help the cause of justice in other states. The amendment is going to carry, there is no doubt about that. It is all over but the shouting.'

Judge H. H. Northrup, S. S. Gillespie, Mrs. Abigail Scott Duniway, Miss Gail Laughlin and Rev. Anna H. Shaw were among the speakers for equal suffrage at the same rally.

River Is Again Falling. Last evening the Willamette river had risen to 6 feet 4 inches above the low water mark, a raise which had taken place in 36 hours. This morning at 9 o'clock the water was going down rapidly, with indications that it would fall about a foot during the day. This sudden rise was due to the excessive precipitation in the upper part of the valley, and the strong winds which cut the snow.

CASTORIA. The Kind You Have Always Bought Bears the Signature of *Chat. H. Fletcher*

Deaths from Appendicitis. Decrease in the same ratio that the use of Dr. King's New Life Pills increases. They save you from danger and bring quick and painless release from constipation and the ill growing out of it. Strength and vigor always follow their use. Guaranteed by J. C. Perry, druggist, 25 cents. Try them.
