ASKING THE REASON WHY.

Republican papers are abusing each other in their futile attempts to get at the reason for the re-election of Governor Chamberlain.

They might save themselves the trouble IF THEY WOULD CONSIDER A FEW OF THE ELEMENTARY FACTS IN CONNECTION WITH THE MATTER.

Has it not dawned upon them that Governor Chamberlain, as an official, stood for certain definite reform principles, and acted upon them?

He never opposed honest reform measures that were enacted by the Republicans, but championed them before the people.

He did not play fast and loose with abuses in the state land administration, as some of his predecessors were accused of doing.

HE WAS EARNESTLY AND EVERLASTINGLY BUSY UNCOVERING AND ATTACKING ABUSES, INSTEAD OF SAYING THERE WERE NONE TO COMPLAIN OF.

He never publicly said that all that had been done by the state land agents for the past twenty years was right, and that the state had never lost a cent thereby.

Republicans in the last legislature recognized this, and sustained Governor Chamberlain's vetoes almost without exception, a public confession that he was right, and the Republican legislature was wrong.

The people appreciate that kind of a governor, and would appreciate those qualities just as much if found in a Republican.

But that kind of Republicans have not been wanted at the front by the managers of the Republican party, although the people wanted them.

Before the Republican party is put clear out of business in Oregon, it must awaken to the fact that something is demanded of it besides holding down the jobs, and letting everybody do as they please.

Higher standards of public service are being set up in every department of public life. MORE CONSCIENCE, MORE MORALITY, MORE CONSCIENTIOUS DISCHARGE OF PUBLIC DUTY ARE INJECTED INTO THE PROGRAM.

From President down to constable and crossing-cleaner public office is considered more and more a high public trust instead of a private snap, and partisanship for plunder is as obsolete as witchcraft.

To become an aggressive force in the government of Oregon of the future those entrusted with office must recognize these facts, and must measure up to the standards demanded by the times in which they live.

AN UNITED PULL FOR THE WEST COAST HARBORS.

The west coast harbors of Oregon and all their commercial interests should be united in one strong pull for development.

The improvement of these Oregon harbors and the development of the country that is back of them, is the greatest issue before the people of this state.

Shall they be recognized and opened

Nervous?

There are many causes of nervousness, but poor blood heads the list. The doctors call it anemia. The blood lacks red corpuscles. At your first opportunity, consult your doctor about taking Ayer's Sarsaparilla. Ask him if he has anything better for weakness, debility, nervousness. If he has, take it. If not, take Ayer's Sarsaparilla. Get well, that's what you are after.

We have no secrets! We publish the formulas of all our medicines! J. C. Ayer & Co., Lowell, Mass.

Smiles

Salem people should burn Coos Bay coal.

Gold Hill and Cottage Grove have ladies' brass bands.

The independent voter has not allowed the world to forget him.

Republican papers are busy foisting Bryan upon the Democratic party.

As usual, the Fourth of July this year will be the greatest in history.

The cherry season is wasted by the rainy weather. And such fine moonlight nights, too!

Who so apathetic and cold blooded but what he would like to be a sweet girl graduate?

With a slight effort, if Dr. Byrd had been a practical politician, he could have won out.

Hot air will run railroads only—one direction—and few people want to travel that way.

Hal Patton will please raise another flag, so that it will stop raining one day in the week.

Without any Democrats in the house of representatives, who will there be to throw the blame on?

There are no such things as commercial honesty, political honesty, etc. There is just plain honesty.

With both Withycombe and Chamberlain quoted favoring woman suffrage, it's a wonder it did not carry.

It would not have made much difference who the Republicans nominated for governor, the way the Republicans voted.

The packing houses are to lose \$25,000,000 by the beef scandal. But what will the farmers who raise beef, hogs and sheep lose?

Eugene Guard: What fun will there be going over to Newport this year? Lincoln county went dry—because they took a mean advantage and voted when the summer residents were all away.

Oregon Democrats have retained the governor, but they lost Pete D'Arcy of Salem; Napoleon Davis of Portland, and Judge McFadden of Corvallis. They have also lost a justice of the supreme court and a United States senator.

At last one lone Democrat has been found in the lower house of the legislature. He is a Hebrew from North Powder, Baker county, honest Herman Rothschild, and there is rejoicing that there will be some one to throw the blame upon for the failure and shortcomings of the next legislature. He will be sent back into the sage brush deserts to answer for the moral side-steps of the 59 Republicans, as was the scape-goat of the ancient Israelites driven out laden with the sins of his people.

Eugene Register, Rep.: Why ask how it happened? It is plain as Mount Hood, seen from the Portland city park. Republicans deserted a candidate in every respect worthy of party support. Chamberlain is to be congratulated on having more Republican friends than Democratic. But he made the mistake of his life when he ran for governor instead of senator. As a candidate for the senate, Chamberlain would, beyond any reasonable doubt, have carried the day and received the popular vote. This would have been equivalent to a certificate of election for the Statement No. 1 people will control the legislature.

1908 will see the governor a candidate for senator if the primary law survives until then. His chances for receiving the popular vote at that time will be greatly lessened, since it will be a presidential year, and there is a possibility the great love of the people for him will have subsided by then.

There's little room in this great world of ours for the "Fat Woman." She's a hindrance to herself in street cars, flats, elevators; but what can she do, poor thing—take Hollister's Rocky Mountain Tea. 35 cents, Tea or Tablets. Dr. Stone's drug store.

IMPROVE COOS BAY HARBOR

IMPORTANCE TO WHOLE STATE OF OREGON

Ideal Body of Water for a Harbor of Refuge, Says a Globe Trotter

3 DROP — IMPROVE N....

Thomas E. Armistead of the Hazelwood Cream Co., attended the Farmers' and Shippers' congress at North Bend, and on his return wrote the following boost for the Oregon Tradesman of June 1:

A Boost for Coos Bay.

Portland, Or. May 30, 1906.
Mr. O. W. Strong, Editor Oregon Tradesman:

Dear Sir: As I know you to be sincerely interested in the advancement of every part of the state of Oregon, and as I feel you can, through the medium of your valuable paper, lend added impetus to any particular point which may be worthy of public notice, and which is striving for recognition, I will this week devote space you reserve for the Hazelwood Co. to a few words about the Coos Bay country.

Last week I had the good fortune to be one of the Portland delegates attending the Farmers' and Shippers' congress held in North Bend, Oregon, and that visit has impressed upon me the importance of the State of Oregon of deepening the entrance to Coos Bay and making the harbor accessible to vessels of large tonnage. Of the harbor as it exists today, I would say, although I have seen more commodious bodies of water, I have never in all my travels—covering a good portion of the four divisions of the world—visited a harbor lying as near the ocean and at the same time so completely land-locked, assuring absolute safety to the smallest craft, no matter how violent a storm be raging outside. Its contiguity to the ocean also minimizes towage charges.

As a harbor of refuge, Coos Bay is an ideal body of water and if no other reasons could be urged for its improvement that alone should compel the people of the entire Pacific coast to demand that the government take immediate steps to make the port available for such purpose.

But Coos Bay has other and very important claims to recognition as a port, and these are the natural products of the territory tributary to it, consisting primarily of timber, coal and iron, supplemented by the agricultural possibilities, which are wonderfully rich, foremost among which rank dairy products, the soil being admirably fitted for raising forage of all kinds, especially alfalfa and red clover; the climatic conditions, too, are perfect for cattle, frost and snow being unknown, while the temperature in summer is never oppressively hot.

The channel way has been pronounced by competent engineers as being easy of improvement; this fact has already been demonstrated beyond question, a short stone jetty built on the north side of the entrance being already scoured to a depth of 22 feet from an original of 12 to 14, and this notwithstanding the main outflow of the tide escaped over the south spit. The full volume of water could be confined to the channel by building a jetty on the south side, this concentration of force would, it is confidently believed, cut out the bed to a level of 40 feet, a sufficient depth for the passage of the largest merchant vessels.

The making accessible of so valuable a harbor is not alone of local advantage to the Coos Bay district, but is of vital necessity to the growth and prosperity of the nation and should be so accepted.

Trusting I have not encroached too much on your space nor imposed upon your own state loyalty, I am,
Yours for Oregon,
THOMAS E. ARMISTEAD.

Sure Cure for Piles.

Itching piles produce moisture and cause itching, this form, as well as blind, bleeding or protruding piles, are cured by Dr. Bosanko's Pile Remedy. Stops itching and bleeding, absorbs tumors. 50c a jar at druggists, or sent by mail. Treatise free. Write me about your case. Dr. Bosanko, Phila., Pa.

Another Women's Band.
Cottage Grove has copied after one of her neighbor towns, and now has a flourishing band of twelve pieces composed entirely of women. They are being directed by Prof. Cochran of Eugene, who is a well known band leader.

Do You Want to Know What You Swallow?

There is a growing sentiment in this country in favor of medicines of known composition. It is but natural that one should have some interest in the composition of that which he or she is expected to swallow, whether it be food, drink or medicine.

Recognizing this growing disposition on the part of the public, and satisfied that the fullest publicity can only add to the well-earned reputation of his medicines, Dr. R. V. Pierce, of Buffalo, N. Y., has "taken time by the forelock" as it were, and is publishing broadcast a list of all the ingredients entering into his leading medicines, the "Golden Medical Discovery," the popular liver invigorator, stomach tonic, blood purifier and heart regulator; also of his "Favorite Prescription" for weak, over-worked, broken-down, nervous and invalid women.

This bold and out-spoken movement on the part of Dr. Pierce, has, by showing exactly what his well-known medicines are composed of, completely disarmed all harping critics who have heretofore unjustly attacked them. A little pamphlet has been compiled, from the standard medical authorities of all the several schools of practice, showing the strongest endorsements by leading medical writers of the several ingredients which enter into Dr. Pierce's medicines. A copy of this little book is mailed free to any one desiring to learn more concerning the valuable, native, medicinal plants which enter into the composition of Dr. Pierce's medicines. Address Dr. Pierce as above.

Dr. Pierce's Pleasant Pellets are tiny, sugar-coated anti-bilious granules. They regulate and invigorate Stomach, Liver and Bowels. Do not breed the "pill habit," but cure constipation. One or two each day for a laxative and regulator, three or four for an active cathartic. Once tried always in favor.

\$50,000 GIVEN AWAY.

The People's Common Sense Medical Adviser, a book that sold to the extent of 500,000 copies a few years ago, at \$1.50 per copy. Last year we gave away \$50,000 worth of these invaluable books. This year we shall give away \$50,000 worth of them. Will you share in this benefit? If so, send only 31 one-cent stamps to cover cost of mailing only for book in stiff paper covers, or 31 stamps for cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

Recreation for June.

The June number of this always refreshing magazine deserves special mention. The illustrations, every one of them, certainly have been selected and placed by an expert who puts considerable love into his work. The makeup of the magazine as a whole is much superior to what it has been in the past; the articles and stories are a better selection and edited with more skill, and the cover design for the first time takes rank with those of the best magazines. In all, it is a clever piece of magazine making and there is reason to expect that this and future numbers will be among the best sellers on the news stands.

Salem Tile Works.

The Salem Tile Works has begun operations for the summer, and the second burn of tile has been turned out. The capacity of the plant is about 8000 feet of tiling per day, and three kilns are burned at a time, and about nine burnings a month.

The proprietors are shipping the product of the factory to all points in the Willamette valley, and orders are going as far south as Cottage Grove.

Hute Wing Sang Co.

Chinese and Japanese Fancy and Dry Goods. Special new line of summer goods. Made by us. Wrappers, Underwear, Waists, Dress Goods, Silks. Very low prices. 346 Court street, Salem, Or.

We are now Prepared to Contract for Prunes for fall Delivery
