hydrocyanic acid, was made use of be-
came evident this morning, during the
cross-examination of R. R. Rogers, of
San Francisco, the chemist who made
the chemical analysis of the organs of
McVicar. Rogers testified that he
found a large quantity of morphine in
the organs, and demonstrated by chem-
ical tests before the jury that the sub-
stance claimed to be morphine was
that drug. He admitted, under cross-

ide and morphine poisoning were much
the same, and that each produced as-

CYCLONE STRIKES MONTANA

Loss Is Over \$200,000--Much
Damage to Glass at
Havre

Havre, Mont., June 13.—Havre and
Fort Assiniboine were struck by a hur-
ricane yesterday afternoon that did
damage estimated at \$200,000. Build-
ings were toppled over without warn-
ing when the cyclone struck, and not
a structure in the path of the terrific
wind escaped damage. Several persons
were injured, but up to a late hour this
evening no fatalities were reported.

An earthquake could not have more
completely demolished the glass in the
city. There was scarcely a whole pane
of glass in the downtown district, and
residences also suffered severely. The
Havre Hotel lost 280 window lights
and many other buildings were simi-
larly treated.

The two top stories of the Havre
Commercial Company's building, a con-
crete affair, were picked up by the
wind, and deposited on an adjoining
lot. The lower floor, used as a store-
house, remained intact, but 11 clerks,
most of them women, narrowly escaped
being buried in the debris.

Telegraph wires are down and com-
munication with the outside world is
practically paralyzed.

Damage at Fort Assiniboine.

Meagre news accounts from Fort
Assiniboine tell of great destruction
wrought there by the tornado. The
large commissary building, together
with the adjutant's office, stables of
the troopers and several barracks went
down.

Flood Endangers Lives.

Engineers reports that the territory
between Havre and Glasgow resem-
bles a sea. Fears are expressed for
the safety of residents in the vicini-
ty of Harlem and Chisook, in view of
the breaks in the irrigation reservoirs.

A report states that both of the re-
servoirs at Fort Assiniboine have burst
and that the quarters of the soldiers
are being flooded. Four troops of the
Second cavalry and four companies of
the Second infantry are stationed there.

Not Serious.

seriously inconvenienced, and trains
are only two hours late.
