THE LINE TO CHEMAWA.

Only a few formalities stand in the way of securing a franchise through the grounds of the government Indian school.

Electric cars to that institution will mean much to the employes and pupils. **AND MORE TO THE SUBURBAN RESIDENTS OF THAT SECTION.**

It will not only bring comfort and pleasure to the one thousand residents of Chemawa, but will better markets and bring much additional business to Salem.

It will give the young people of Chemawa and Hazesville an opportunity **TO ATTEND THE HIGHER EDUCATIONAL INSTITUTIONS OF THE CAPITAL CITY.**

That was why the far-sighted business men of Salem insisted upon a provision in the bond that the line be built this fall—by September 10, when the State Fair is held and the schools open.

Many persons do not know that the government institution at Chemawa is officially known as the Salem Indian school.

By putting in a first-class modern suburban car service, **ALL THE REAL ESTATE BETWEEN THIS CITY AND CHEMAWA WILL BECOME SUBURBAN RESIDENCE PROPERTY.**

The Salem city limits will practically be removed three miles farther north.

SUCCESSFUL POPULAR PLAYS.

Is the theater educational, or constructive, or purely for entertainment?

"Checkers," the popular race-track play, has been filling the theaters of the west during the past three seasons. **THE PIECE HAS PLAYED FOURTEEN DIFFERENT ENGAGEMENTS IN NEW YORK CITY SINCE ITS ORIGINAL PRODUCTION THREE YEARS AGO.**

"In Old Kentucky," perhaps the most successful of all American plays, begins its fourth consecutive season. This play made a fortune for one actor and his heir, like the lamb, is go on forever.

"Checkers" and "Old Kentucky" are plays of the race track. Does it really speak for the intelligence of the American people?

THIRTEEN YEARS "IN OLD KENTUCKY" HAS BEEN TOURING THE COUNTRY WITHOUT ANY SIGN OF WANING POPULARITY.

It has paid C. T. Dazey, the author, the enormous sum of $150,000 in royalties.

But there are more popular plays. The Christian, Ben Hur, and Quo Vadis, all founded on novels involving the very keynote of the struggle to establish the Christian religion, have had larger attendance.

In the long run the ethical and religious plays, **ESPECIALLY THOSE FOUNDED ON SPIRITUAL TRUTH, WILL OUTSTRIP ALL THE OTHERS.**

Uncle Tom's Cabin proves that the drama is the best and highest expression ever given form of human truth, for the instruction and elevation of the millions.

Nervous? There are many causes of nervousness, but poor blood heads the list. The doctors call it anemia. The blood lacks red corpuscles. At your first opportunity, consult your doctor about taking Ayer's Sarsaparilla. Ask him if he has anything better for weakness, debility, nervousness. If he has, take it. If not, take Ayer's Sarsaparilla. Get well, that's what you are after. We have no secrets. We publish the formulas of all our medicines. J. C. Ayer Co., Lowell, Mass.

STATE BOARD OF CONTROL.

There is considerable talk of the next Oregon legislature creating a board of control for state institutions and to take the appointing power out of the hands of state officials and placing it in such board. This we believe to be a step in the right direction and will give the state a better and more efficient service and no less partisan. The appointees will more likely be chosen for their fitness for the places than for their political services. We would suggest a board of about five members, of whom not more than three should belong to the same political party, would give the best service in selecting state officials and employes.—Lebanon Criterion.

A bevel of three is what most states have.

They reduce expenses of running state institutions one-fourth to one-third.

But wouldn't that be too progressive for Oregon politicians?

BRYAN'S BROAD PROGRAM.

W. J. Bryan delivered the Fourth of July address as the guest of honor of the American Society of London. He has just finished his travels in the Orient, and what is needed for the uplifting of the far eastern people, he summarizes as follows:

Language—Knowledge of the English language—the language of Magna Charta and the Declaration of Independence.

Education—Japan a shining example of what reforms can be accomplished.

Arbitration — The nation that shrinks from presentation of its claims before a tribunal where reason holds sway betrays a lack of faith in the soundness of its position.

Labor—A clearer recognition of the dignity of labor. The odium which rests upon the work of the hand has exerted a baneful influence the world round.

Conception of Life—One which recognizes individual responsibility to God, teaches the brotherhood of man and measures greatness by the services rendered.

With 25,000 people in town on the Fourth, there was not an accident, not a drunken man and not the slightest disturbance. It was a great crowd of prosperous, happy and responsible people. Where is there another community that can match it?

* * *

The editor of this paper does not mind the Oregonian editor the editorial page. He does want it used to set what needs correction or setting forth in the true light to the people. What he will not do is not believe in leaving the public to the mercy of one short-sighted editor.

So Judge Turner has been presented by a full pardon for betraying his lifelong friend and business associate, the late Senator Kinkaid. A man made of the right stuff would have gone to prison himself rather than secure immunity by sending his old-time friend there.—Eugene Guard.

Western Oregon: "A local option law is now in force—let it be enforced. No hoodoos, blind pigs and dives. They are not wanted and will not be tolerated. If the new is a good one it can only be so by being enforced to the letter. If, after a fair trial, it proves not good, get rid of it."

* * *

Oregonian editorial: In our sane, conservative way we all are inclined to relish at least three Catilines were required to fill the measure of vengeance which the responsible governor of the state provided. Gregg Kimball shot and killed the human vipper. Lovie Hartley earnestly feared the job. E. E. Baldwin was strenuous in the pursuit of the arch miscreant game. If his death was not the just meed of the worst influence ever thrown over fairly intelligent young women, and with the personality with which he surrounded his dupes, then the calm and deliberate judgment of three wronged men was sadly out of tune. While it cannot be expected that a jury will officially approve the killing of Cardwell, it will be a great surprise to a decent, well-ordered community if this killing is not mostly excused by the acquittal of the man who did it.

He Got a Prompt Answer.

A certain well known Lucifer lawyer resulted in cross-examination. His gift of humor often served him where rights of methods were concerned. For instance, a young woman in the witness stand was asked her age. She hesitated to reply.

"Don't hesitate," said the lawyer. "The longer you hesitate the older you are."

And the witness took the hint.—Pearson's Weekly.

The Irrigon editor agrees with the Statesman's statement that Oregon's sentiments were poor. He is even willing to go further, and admit that they were the poorest sent from any state.

* * *

Salem's morning paper says "still Joe Simon was poor when he went to the senate," which shows wonderful misinformation about Joseph. It took a numeral and six ciphers to measure Simon's wealth when he was elected senator and he has not shrunk any.

The Irrigon editor notes with much satisfaction that the Daily Varieties grass goods are becoming fashionable. No more pretty or showy garment was ever worn—always excepting that of the fine robes of the bench grass hills, the Plain Cayuse.

The South Fulton Enterprise, a paper published at East Point, Georgia, brings forward a candidate for the vice-presidency on the prohibition ticket, in the person of one John F. Bibb, formerly of East Point aforesaid, but now of Ionia, Michigan. Bryan ought to travel like Jesus, with the Bible as a running mate, but it needs Heaven's chariot. The Silver and Yellow Journalism would not, nah.

* * *

The wail of the Portland Journal would be pathetic, were it not so ridiculous. In some states in which the Portland afternoon paper got the start and printed it of the character of the Spreckles Dem Rep interests six years ago, but in one not up to date issue. The public did not stand on the mole it was said about the matter until a month and a half later, when the other Portland papers printed the story. Imagine how the old circus paper cries one not seem to inspire confidence.

* * *

The South Fulton Enterprise, of Georgia, informing John F. Bibb for the vice-presidency, says: "He made East Point a model town, perfect in everything." At the head of its editorial columns in the same issue is says:

—We need fire protection.

—We need better lighting service.

—We need better streets and sidewalks.

—We need gas for lighting and cooking purposes.

—We need signs to designate the names of our streets.

—We need better facilities for handling our summary work.

—We need a school building in the east side of town for primary grades.

John F. turned up next to the all these and times the work.

Habit-forming Medicines.

Whatever may be the fact as to many of the so-called patent medicines containing injurious ingredients as broadly published in some journals of more or less influence, the publicity has certainly been of great benefit in arousing needed attention to this subject. It has, in a considerable measure, resulted in the most intelligent people avoiding such foods and medicines as may be fairly suspected of containing the injurious ingredients complained of. Recognizing this fact some time ago, Dr. Pierce, of Buffalo, N. Y., "took time by the forelock," as it were, and published broadcast all the ingredients of which his popular medicines are composed. Thus he has completely forestalled all barking critics and all opposition that might otherwise be urged against his medicines because they are now of known composition. Furthermore, from the formula printed on every bottle wrapper, it will be seen that these medicines contain no alcohol or other habit-forming drugs. Neither do they contain any narcotics or injurious agents, their ingredients being purely vegetable, extracted from the roots of medicinal plants found growing in the depths of our American forests and of well recognized curative virtues.

Instead of alcohol, which even in small portions long continued, as in obstinate cases of disease, becomes highly objectionable from its tendency to produce a craving for stimulants, Dr. Pierce employs chemically pure, triple-refined glycerine, which of itself is a valuable remedy in many cases of chronic diseases, being a superior demulcent, antiseptic, nutriment and supporting narcotic. It enhances the curative action of the Golden Seal root, Stone root, Black Cherry bark and Bloodroot, contained in "Golden Medical Discovery," in all bronchial, throat and lung affections attended with severe coughs. As will be seen from the writings of the eminent Drs. Grover Coe, of New York; Bartholow, of Jefferson Medical College, Phila.; Scudder, of Cincinnati; Ellingwood, of Chicago; Hale, of Chicago, and others, who stand as leaders in their several schools of practice, the foregoing agents are the very best ingredients that Dr. Pierce could have chosen to make up his famous "Discovery" for the cure of not only bronchial, throat and lung affections, but also of chronic catarrh in all its various forms wherever located.

When Yankee Doodle Comes to Town

On the Fourth of July he will probably wear his best hat and tucker, and will observe that every man of refinement and taste has a shirt and collar on that hasn't wilted from the heat, and that looks immaculate and comfortable because every well dressed man in Salem has his laundry work done at the Salem Steam Laundry.
